# INTRODUCTORY.

OFFICE OF THE STATE GAZETTEER,
TRIBUNE BUILDING, 1877.

THE publishers of the MICHIGAN STATE GAZETTEER AND BUSINESS DIRECTORY herewith offer to their patrons and the public their third biennial volume of the work, which, they feel assured, will prove superior in many respects to either of the preceding issues, for, although the principal features of the work have been retained in the present volume, a more thorough and complete individual canvass of the State has been made than ever before; the sketches have been carefully revised and re-written, much additional matter of interest to the business man and general reader has been added, and every effort has been made to improve upon the former issues of the work. A complete list of the postoffices of Michigan, revised and corrected up to April first of the present year, together with a very full and accurate Shippers' Guide to every town and hamlet of the State, will be found among the valuable features of this edition.

The classified Business Directory, which, as compared with the last volume, shows an increase of eighteen pages, and contains at least 4,000 more of names, is especially complete and valuable comprising, as it does, a total list of about 35,000 professional and business men. Another feature is the message of Ex-Governor Bagley, delivered to the Legislature, at the opening of the present session, and which furnishes a clear and full exhibit of the condition of the finances and of State affairs generally, which message is presented in full. The entire work, it will be observed, comprises 140 pages of matter more than the volume for 1875.

A work of this kind necessarily involves a great amount of labor and the expenditure of large sums of money, neither of which in this instance has been spared, the aim of the publishers being to make it, in every respect, creditable to themselves and worthy the confidence and support of the business public.

In submitting the work, the publishers congratulate the people of this State on the very decided evidence of an improved condition of business affairs, which the superior opportunities they have enjoyed have enabled them to observe, and still more on the superior degree of healthful vigor and business elasticity that Michigan, when compared with her neighboring sister States, clearly exhibits. The outlook is decidedly bright, and ere another issue of the MICHIGAN STATE GAZETTEER shall be demanded, the compilers are most sanguine of a complete restoration of trade and a full return of business prosperity.

PRINTED BY
WM. A. SCRIPPS,
Detroit, 1877.

Entered according to Act of Congress, in the Office of the Librarian of Congress, Washington, D.C., 1877.

# POSTOFFICES IN MICHIGAN.

The following is a complete list of Postoffices in Michigan, arranged alphabetically, and corrected up to April 1st, 1877. County seats are indicated by c. h. and *italics* Money Order offices are designated by a star (*). Those included as Money Order offices in late treaties with Great Britain, Canada, Germany and Switzerland are marked by capital letters, (B) meaning British, (C) Canadian, (G) German, (S) Swiss.

DETROIT, - - MICHIGAN.

Manufacturer of Pure Cider, Double and White Wine Vinegar.
QUALITY UNEXCELLED.

# Detroit Steam Laundry,

J. W. FERNALD, Propr.,

No. 14 Congress Street East,

*DETROIT,* - - - *MICHIGAN.*

# RETIRING MESSAGE

OF

# GOV. JOHN J. BAGLEY,

DELIVERED TO THE LEGISLATURE, JANUARY, 1877.

---

SENATORS AND REPRESENTATIVES—On the 26th of the present month Michigan will have reached her fortieth birthday. Neither pen nor pencil can fitly describe the transforming miracles that each succeeding year has witnessed; forest to field—marsh to meadow — opening to orchard — hut to home, have followed one another in quick succession.

Standing to-day in the midst of this abundant prosperity, with pardonable pride we repeat the prophetic motto which our fathers gave us—"*Si quæris peninsulam amœnam circumspice.*" An empire in extent, with natural resources that seem almost inexhaustible, with means of transportation by land and water unequaled on the globe; a soil that, "tickled with a hoe, laughs with a harvest; dotted all over with happy homes; schools and institutions of learning with open doors for all; the ills that afflict humanity liberally and kindly cared for; with a history that tells of no gallows ever having been erected in our borders; no slave having ever trod our soil; no treason attainted any citizen; all this is our inheritance, ours to preserve and to increase.

The charitable, educational and penal institutions of the State are valued at $3,910,500, divided as follows:

| | |
|---|---|
| University | $ 483,500 |
| Agricultural college | 252,300 |
| Normal school | 62,700 |
| State public school | 153,380 |
| Institution for deaf, dumb and blind | 438,000 |
| Michigan insane asylum | 1,405,280 |
| Eastern insane asylum | 220,000 |
| Reform school | 245,340 |
| House of correction at Ionia | 111,000 |
| State Prison | 539,000 |

There are 105 chartered banks in the State with a capital of $16,573,300, and individual deposits of $18,357,875.

The State salt inspector reports 2,544,594 barrels of salt inspected for the years '75 and '76, an increase of 694,269 barrels over the two preceding years.

The production of iron ore for 1876 was 967,000 tons; of ingot copper, 18,000 tons; representing an aggregate value of $11,000,000

FINANCES.

| | | |
|---|---|---|
| The balance in the treasury September 30, 1874, was | $1,070,274 | 32 |
| Receipts for year ending September 30, 1875 | 2,208,929 | 55 |
| | $3,279,203 | 87 |
| Disbursements for the same time | 2,050,097 | 37 |
| Balance in the treasury September 30, 1875 | $1,229,106 | 50 |
| Receipts for year ending September 30, 1876 | 1,744,406,29 | |
| | $2,973,512 | 79 |
| Disbursements for same time | 1,909,507 | 49 |
| Balance in the treasury September 30, 1876 | $1,064,005 | 30 |
| Of this balance there belongs to the Sinking fund | $415,407 | 47 |
| Military fund | 27,111 | 78 |
| Primary School Interest fund | 80,457 | 31 |
| Canal fund | 54,611 | 54 |
| | $557,588 | 10 |

The bonded debt of the State has been reduced during the year ending September

30, 1876, $53,000, and during the four years ending September 30, 1876.....$851,142 81.

Of this amount $389,142 81 were matured bonds, and $462,000 were unmatured and paid in advance. A premium of $6,043 45 was paid for $151,000 of these bonds, an average of about 4 per cent. The disbursements over and above receipts for interest in 1873 were $82,706 52, and in 1876 $21,885 98. The bonded debt of the State September 30, 1876, was $1,392,149 97, divided as follows:

| | |
|---|---|
| Sault Canal bonds, 6's, due July 1, 1879 | $ 46,000 00 |
| Renewal loan bonds, 6's, due July 1, 1878 | 101,000 00 |
| Two million loan bonds, 6's, due January 1, 1878 | 244,000 00 |
| Two million loan bonds, 6's, due January 1, 1883 | 629,000 00 |
| War bounty loan bonds, 7's, due May 1, 1890 | 357,000 00 |
| Adjusted bonds, due January 1, 1863 | 3,000 00 |
| $21,000 part paid five million loan bonds, adjustable at $578 57 per 1,000 | 12,149 97 |

The cash in the treasury set apart for the payment of the bonded debt is as follows:

| | |
|---|---|
| Sinking fund | $415,407 47 |
| Canal fund | 54,611 54 |
| Balance from sale of two million loan bonds to pay adjusted and five million loan bonds | 15,149 97 |
| | $485,168 98 |

Which leaves the total bonded debt of the State, less cash in treasury, applicable to its payment, $906,980.99.

In addition to this there was remaining unpaid of specific taxes September 30, 1876, on call, $290,499.33, which when collected will add that amount to the Sinking fund, and leave the State debt, less fund applicable to its payment, only $616,000.

The State treasurer has been diligent in his endeavors to purchase the bonds of the State, having personally visited many holders, and offered premiums to the full amount of the interest received by the State from its depositories, but with limited success.

The trust debt of the State is composed of the following funds and amounts:

| | |
|---|---|
| Primary School fund | $2,259,282.01 |
| Five per cent. Primary School fund | 299,676.59 |
| University fund | 344,855.78 |
| Agricultural College fund | 118,827.68 |
| Normal School fund | $53,301.32 |
| Railroad and other deposits | 3,403.33 |
| Total | $3,079,346.71 |

An increase in two years of $135,584.34.

SINKING FUND.

This fund is created by the constitution, section 1, article 14, as follows: "*All specific taxes*, except those received by the mining companies of the Upper Peninsula, shall be applied in paying the interest upon the primary school, University, and other educational funds, and the interest and principal of the State debt in the order herein recited, until the extinguishment of the State debt, other than the amounts due to the educational funds, when such specific taxes *shall be added to, and constitute a part of the primary school interest fund.*"

The increase in specific taxes, and the rapid extinguishment of the bonded debt will soon leave, under this provision, a large balance of specific taxes that can *only* be used in the support of the primary schools. I can see no reason why specific taxes should go to the support of schools, that would not apply to any other tax, and I believe our schools would soon be ruined if they were supported by State taxation alone. The people need to watch the schools and their management—if they pay for them they will, if they do not they will soon lose their interest in them. I would not advise the discontinuance of the Sinking fund, as we should put beyond the control of any power whatever the question of the faithful payment of the public debt, and the interest on the Educational Trust funds in the hands of the State; but I recommend the submission of an amendment to the constitution striking out the clause directing that the balance of specific taxes shall be placed in the School fund, and insert in its stead that it may be used for the ordinary expenses of the State. Should this proposition meet your approval and that of the people, it will soon reduce general taxation quite largely and equalize the burden of Governmental expenses. Practically out of debt—in all new undertakings paying as we go—meeting every demand of duty and charity cheerfully and promptly—this exhibit of our financial affairs can not be other than gratifying to every citizen.

The repeal of section 124, Compiled Laws, commonly known as the "five-year-law," will work seriously to the disadvantage of the State.

The State is obliged to advance to the counties all the taxes of every nature returned to the auditor general's office as delinquent, as soon as the period of redemption expires. The result is that a county may

make any sort of assessment as to value, or neglect to collect its taxes with impunity.

Worthless lands can be assessed at high prices—taxed for township, school, or highway purposes, and the State is bound to pay it.

The amount that the State will be obliged to advance as the law now stands, without recourse upon the county for any part of the loss, in case of failure to collect, will be from $70,000 to $80,000 per annum, with a probable continual increase.

The amount of unsold State tax lands (*i. e.* lands struck to State at tax sales on which no money has been collected, but for which the counties have been paid by the State for the taxes returned thereon), for the past five years is as follows:

October, 1872, $618,167.87.

October, 1873, $683,414.62. Increase of $65,246.75 over 1872.

October, 1874, $790,112.97. Increase of $6,698.35 over 1873.

October, 1875, $1,146,879.11. Increase of $356,766.14 over 1874.

October, 1876, $1,462,977.61. Increase of $316,098.50 over 1875.

The extraordinary increase in the last two years proves very clearly that it will be necessary at an early day to re-enact something similar to the old law, with some additional safeguards which that did not contain. If the system is to remain as it now is it will deplete the treasury rapidly.

Of the appropriation made in 1873 for "corner-stone" celebration, $2,478.67 remains undrawn. The appropriation made in 1867 of $2,500 for "history of campaigns" has not been used. The State Treasurer should be authorized to transfer these appropriations to the general fund.

### STATE LANDS AND ROADS.

For the two years ending September 30' 1876, the sales of State lands have been 191,354.89 acres for the sum of $283,928.56, being a decrease, as compared with the two previous years, of 359.433.66 acres, and $412,232 54 in receipts, showing a large reduction in the revenues of the State from this source.

The lands belonging to the State at the close of the fiscal year are 3,073,239.91 acres, classified as follows:

| | |
|---|---|
| Primary school | 369,919.13 |
| Primary school indemnity | 49,178.29 |
| Primary school forfeited | 25,699.11 |
| Agricultural College | 162,400.84 |
| Agricultural College forfeited | 2,398.40 |
| Salt Spring land | 1,315.63 |
| Salt Spring forfeited | 280.00 |
| Asylum | 680.00 |
| Asylum forfeited | 1,080.00 |
| University | 200.00 |
| University forfeited | 98 25 |
| Normal School forfeited | 160.00 |
| Internal improvement | 380.31 |
| Asset | 3,850.00 |
| Swamp land | 2,405,017 93 |
| Swamp indemnity | 46,713.12 |
| Swamp forfeited | 3,868.00 |

The large amount of forfeited lands in this list, amounting to over 33,000 acres, are mostly lands that have been bought on time, stripped of their timber, and then forfeited, resulting in great loss to the State and to the counties. This, with the losses accruing in the same way, on licensed homestead lands, induced the commissioner and myself to endeavor in some way to put a stop to it, and to recover for the State some of the moneys lost by it.

For this purpose we appointed D. J. Evans as trespass agent, and authorized him to make proper investigation and settlements, subject to the approval of the commissioner of the Land Office. He has collected and paid into the treasury in three years the net sum of $29,390 94 over and above expenses. The legislation of 1873 and 1875, if aided by care on the part of the Land Office, ought to prevent future frauds on the school lands of the State—but the system of licensed homesteads, leaves an open door for similar frauds on homestead lands—and there will undoubtedly be a demand for the services of a trespass agent for some time to come. The appointment heretofore made was not in compliance with any express law, but the results show its importance and necessity. I fully concur in the recommendation of the commissioner, that a law be enacted providing for such appointment, to be continued at the discretion of the Governor. I desire to call your especial attention to the report of the commissioner and trespass agent, and to the recommendations contained therein.

Under joint resolution No. 15, Laws of 1873, I have received from the General Government $18,257 59, collected at an expense of $1,056 67.

The amount of swamp land roads and ditches constructed during the past two years has been 84½ miles, at a cost of $103,352 36—being a decrease over the preceding two years of 213 miles and of $311,000 in expenditures. After an experience with the State road and ditch system of four years I cannot refrain from expressing my convictions that it is a wasteful and extravagant expenditure of our swamp lands, and that some better plan should be devised to take its place.

The school lands on the copper and iron range have been examined, and those on the

copper range have been appraised, and are now subject to entry and purchase.

The plats of all State lands are now on file in the office of the Secretary of State, in accordance with law. During the administration of the retiring commissioner, the plats have been copied and the records of the office written up, the lands of the State have been carefully husbanded, and much important legislation suggested, protecting the interests of the State.

EDUCATION.

The school census of 1876 reports 457,785 children of school age, of whom 343,947 were enrolled; an increase in two years of 21,680 in the whole number, and of 17,805 in the enrolled number.

There are 5,917 school-houses in the State, with 419,662 sittings; being 75,715 more than the enrollment. The value of school buildings and grounds is $9,382,270; total expenditure for the year, $4,128,707. Indebtedness of school districts, $1,674,175; an increase in two years of $499,045. Number of teachers, 12,900. Primary School fund held in trust by the State September 30, 1876, $3,147,917.73, producing an annual income of $214,360.83.

The statistics given herewith denote an annual public expenditure of $5,000,000 for education by the people of the State. We have provided schools not only for our own families, but for the unfortunate and criminal children. The log school-house and the stately University share equally our solicitude and care. We have special colleges for the farmer, schools in which to fit teachers, schools for the professional student, and for one or two technical pursuits. We seem to recognize in all its fulness the truth of the old proverb, "The breath of the school-children is the saving of the world."

Yet with all this there are many thoughtful citizens who ask themselves the question; "Are we doing our educational work in the best way, are our schools all they ought to be, do they help our children as much as they should in the practical things of life and fit them to be productive, self-helping citizens?" In times of financial depression like the present, when we fully realize that the only way up and out is through the productive industry of the people, the question is a pertinent one. The army of children who yearly come out from our schools are to recruit the ranks of the industrious or the idle. That the natural tendency is toward the former we do know, and our system of education ought therefore to be an efficient help in that direction.

We need to give this subject our earnest attention, to care more for the depth and breadth of our education than we do for the height of our school-house tower; to pursue the substance and neglect the shadow; to make our schools the laboratory in which men are made. Idleness is the cause of more misery and crime than all else besides —of 889 men in the State Prison in 1875, 793 had never been apprenticed, and of 334 received in 1876, 17 only had ever been apprenticed. If our education is not made more practical, the ranks of the idle will constantly increase, not from choice, but simply because they have no knowledge of how to do anything well.

Our high and graded schools need to provide more technical instruction at once. If it is in the province of legislation to direct or control in this matter, I ask your thoughtful attention to the subject.

The educators of Europe are pointing their energies in this direction. In this connection I desire to call your attention to the special report of the Rev. D. C. Jacokes, who had charge of our educational department at the Centennial Exposition, upon this subject, gathered from what he saw there of other systems and other countries.

Give to our special schools, to the University, to our common schools every possible assistance in this work that can consistently be given with a due regard to economy.

NORMAL SCHOOL.

This department of our system of education is steadily improving. The attendance for 1874 was 486; for 1875, 630; for 1876, 722. The graduating class in 1876 numbered 79. Over 6,000 students have attended this institution since its opening in 1853. The condition of its funds, at the close of the fiscal year, was as follows:

| | |
|---|---|
| Due from purchasers of lands at 7 per cent | $16,229 72 |
| Trust Funds in Treasury drawing interest at 6 per cent | 53,301 32 |
| | $69,531 04 |

The estimated disbursements for each of the years 1877 and 1878 are: For salaries of teachers, $20,100; for library and apparatus, $900; for repairs, $1,000; other expenses, $2,900. The receipts from interest and tuition are estimated at $6,600 per annum, leaving a deficiency of $18,300 for each year to be provided for by taxation. The State Board of Education, in view of the crowded condition of the school, ask an appropriation of $50,000 for an additional building. They have submitted no plan or estimates, but it seems to me that a smaller amount than this would build a very commodious and suitable structure. It is due to the management of

the school to say that it has been very modest in its requests in the past, and very prudent and economical in the expenditure of its appropriations.

AGRICULTURAL COLLEGE.

The management of the finances of the College for the past two years has been careful and prudent. It is out of debt, and I hope will keep out. The board submit a very careful detailed estimate of receipts and expenditures for the coming two years. They estimate the current expenses at $30,077 per annum, and the receipts from interest and other sources at $21,840. Leaving a deficiency of $16,474 for the two years. They also submit a statement of wants for repairs, new buildings, improvements, library, etc., amounting to $20,062, making a total of $36,536, for which sum they ask an appropriation. The amount appropriated in 1875 was $29,787. Since this estimate was made the old boarding-hall at the College has been destroyed by fire, and a new one will need to be erected at once. The accommodations for the increasing number of students, even with this hall, have been limited, and a new one would have become necessary within two years, at least. It is proposed, in the erection of a new building, to construct it large enough to accommodate 120 students. The estimate of its cost is $15,000, and I recommend an immediate appropriation of this amount, so that work may be commenced at once and the building be ready for the spring term. In view of the necessity of this appropriation, I recommend that the items in the estimate of the board for construction of buildings and gas works for the chemical department be stricken out, reducing the estimate $9,265, and making a total appropriation, including that for the new hall, of $42,271. The board agree with me in this recommendation, though all the items proposed to be omitted are much needed.

The college fund, Sept. 30, 1876, was as follows: Trust fund in State Treasury, $118,827 68; due from purchasers of land, $111,334 65; all drawing interest at 7 per cent. Unsold lands belonging to college at same date, 164,799 acres. The number of students in 1875, 156; in 1876, 166—an increase over the preceding two years of 58. Graduates in 1875-6, 33; in 1873-4, 36. Inventory of property, $252,268, an increase in two years of $20,860. I am satisfied that the college is in better condition and doing better work than ever before. It is not only educating the students under its roof, but the president and faculty, through a system of farmers' institutes held throughout the State, are enlisting the good will and sympathy of the people. If it teaches labor, if it impresses upon our youth the dignity and honor of labor, its establishment will prove a success; if not, it will be a failure.

THE UNIVERSITY.

Each succeeding year opens to the University new fields of labor—increasing demands upon its resources—and stronger claims upon our consideration.

The number of students in 1875 was 1,193; in 1876, 1,127. Degrees conferred in 1875, 370; in 1876 410.

Its resources are:

| | |
|---|---|
| Trust funds in the hands of the State | $344,855 78 |
| Due from purchasers of land | 102,693 81 |
| Drawing interest at 7 per cent | $447,549 59 |

The Legislature of 1875, establishing a school of mines, a chair of architecture and design, and of dental surgery, has already accomplished more than its most earnest advocates anticipated. The dental school has so many students that an additional professor is needed. The class in mining, architecture and design numbers 25. An impetus has been given technical education that must in time be of great practical value to the State. The appropriations for these new branches made in 1875 were for two years only. Their success demands their renewal, with an addition of $2,000 for another professor in the dental school.

The Board of Regents desire to further increase the usefulness of the University in this direction, and to this end suggest the creation of a chair in physics and geology. The amount required to do this will be $5,000 annually for the salaries of two professors, and $2,500 for apparatus for physical and physiological laboratory.

Were the times more auspicious, and other demands not so pressing, the regents would earnestly urge upon you the necessity of a new library building; they now suggest it only. The University has outgrown the present building. There is not room in it for reading purposes or for books. The library is so important an element in the success of the University, important as an aid in educational work, important in its governing power over a body of students in furnishing mental recreation, that I beg to commend the suggestion of the regents to your consideration. Our University occupies a position in the front rank of educational institutions; it is giving to Michigan a reputation all over the world; it is drawing hundreds of families to the State yearly, as permanent residents, and we ought to foster it in all ways, not with extravagance, but with persistence, economy and care.

EASTERN ASYLUM FOR THE INSANE.

Work was begun upon this building in 1875, by Messrs Coots and Topping, who were the lowest bidders, for the sum of $306,384, and has progressed very favorably up to this time. The brick and stone work is completed, and the roof nearly finished. It is expected that it will be ready for occupancy by February 1, 1878. The plans were prepared by E. E. Myers, architect. Dr. VanDeusen gave us the benefit of his large expetience in the general internal plan and arrangements. The style of architecture is that known as Norman, and the building will be one of the best for that purpose in the country. The contractors have performed their work very satisfactorily to the board, under the faithful superintendence of C. M. Wells.

Very full details of all the expenditures will be found in the report of the board and superintendent. Estimates have been made by the board for furnishing the Asylum ready for occupancy, amounting to $109,708. It is estimated that there will be remaining $27,830 from the building fund, leaving the sum of $81,950, for which the board ask your appropriation. These estimates have been very carefully prepared in detail, and I judge with a due regard for economy and simplicity. I recommend an appropriation of the amount or so much thereof as may be necessary, divided equally in the tax-roll of 1878 and 1879.

As this Asylum will be ready for the reception of patients before another meeting of the Legislature, it will also be your duty to provide for its maintenance, management, and government. The present law only applies to the Asylum at Kalamazoo.

MICHIGAN ASYLUM FOR THE INSANE.

The completion of the new department has enabled this institution to extend its kindly care to every new applicant. The number of inmates September 30, 1874, was 481; September 30, 1876, 618. The total number treated in the past two years was 1,016, an increase of 45 per cent. over the preceding biennial period. The weekly expenses for each patient for the two years ending September 30, 1876, was $4.87, a decrease of 45 cents from the two previous years.

The Board of Trustees ask special appropriations, to be expended in 1877-78 as follows:

| | |
|---|---|
| For erection of three detached buildings — male department —for shops, recreation room, etc., | $23,000 00 |
| For extraordinary repairs and renewals,.. | 2,000 00 |
| New washing machine | $ 300 00 |
| Woven wire mattresses | 2,500 00 |
| For new floor in basement—female department | 700 00 |
| Deficiency in appropriation for connecting building and stone flags—female department, | 289 76 |
| Deficiency in appropriation of 1875 for rebuilding laundry, boiler-house, new boiler, etc... | 3,900 00 |
| Deficiency in amount appropriated for laundry purposes | 307 41 |
| Addition to appropriation already made for stone porches | 3,800 00 |
| Ice-house, new vegetable cellar, and other small items | 2,202 63 |
| Total | $40,000 00 |

All of these requests are for necessary objects, some of them absolutely so. In view of the necessary expenditures in furnishing the new asylum at Pontiac, it may be wise to defer the building of the porches for the present, though they are really needed; and the erection of one of the three proposed buildings should, perhaps, be postponed. The balance of the items asked for are imperatively necessary, and in my opinion should be granted.

The usual annual appropriation of $17,500, for deficiency in current expenses, will also be required. The report of the superintendent and board survey is very full in its details and replete with information on the subject of the treatment of the insane. I need not ask for this institution your generous consideration, as its work is its ablest advocate.

The report of the superintendents of the poor gives 1,006 as the total number of insane in the State in 1875. The number in 1876 is 1,193. As this estimate includes those in a private asylum in Wayne county, and a few that are more properly imbeciles, it is the opinion of Dr. Van Deusen that the real number is between 1,000 and 1,100.

The completion of the Insane Asylum at Pontiac, will enable us to provide suitable care in State asylums for every one of these; and I trust its opening may be celebrated by the immediate transfer from our county houses and jails of *all* their insane occupants to their sheltering care. I earnestly urge legislation to this end, and to provide further, that so long as the two asylums have room, no insane person—not a criminal—shall hereafter be placed in any poor-house or county asylum, jail or prison. Every consideration of humanity and of real economy demands this, and I feel assured that no argument need be made, or statistics shown, to insure the passage of such a law.

The liberal provision made for the care of the insane shows that the State has indeed adopted them as its wards. The expense to the counties for the care of the indigent insane is a very heavy burden, though borne as a rule cheerfully and willingly. Would it not be well to provide that after an indigent insane patient has been cared for at the expense of the county for three years, they shall thereafter become a State charge? I am of the opinion that such a provision of law would be wise and proper, and productive of great good to the people and patient.

STATE PUBLIC SCHOOL.

This wisest of our State charities presents its budget of work and wants in the biennial reports of its managers.

Since its opening 412 children have been received, mostly from the poor-houses of the State. The average age of its inmates is 9 years. Homes have been found for 117 of these children, and 225 were remaining September 30, 1876, being all that can be cared for. The current expenses for the year were $27,612 51, an average of $126 66 for each child. When it is remembered that this institution is not a permanent home, but only a doorway to home for the houseless, homeless, poor-house children of the State, and that while under its care they must be clothed, fed and educated, it will be seen that the expenditure per capita is very slight. From its first opening to the present time it has been most economically conducted. The board estimate the current expenses at $33,000 per annum, and they ask for this and other purposes the sum of $90,000 for the ensuing two years. Of this sum $5,000 is for deficit account, on the erection of the new cottages and the construction of a new sewer. The necessity of these expenditures was submitted to me, and they seemed of such absolute importance to the health of the school, that I cordially approved of them though creating an indebtedness.

In the estimates of the board $1,000 is asked for the purpose of paying the expenses of an agent in finding homes for the children. As a similar appropriation is asked for elsewhere, I recommend that this item be stricken out, and that the balance asked for, viz, $89,000, be granted. It must be borne in mind that these children, for whom this appropriation is asked, if not under the sheltering care of this institution, would be in the poor houses of the State, so that the money expended from the State Treasury is so much saved to the counties. The State Public School is in no sense a penal institution or a hospital. It is only designed for neglected and dependent children of sound mind and body, and free from criminal taint—yet some others will unavoidably find their way into it. Though fully deserving its care and benefit, they should not be kept in the school, owing to their influence upon the rest. The board should be given power, under careful restrictions, to return to the counties idiotic and permanently diseased children. There are very few such children now in the school, who can acquire no good for themselves by remaining, and whose presence is injurious to their more fortunate comrades. I commend this institution to your consideration as one of the means that will by and by save you the expense of another prison; as an institution that will in time make other institutions unnecessary—provided that the underlying idea of its founders, viz: that it is only a temporary home, be always kept in mind.

THE REFORM SCHOOL,

I desire to call your especial attention to the reports of this institution for 1875 and 1876. "After many days," it is now a reform school—the bars and iron doors have disappeared—the high fence that walled it in is kindling wood. And the results are—no corporal punishment, no escapes since its opening, less destruction of State property, a general tone of comfort and cheerfulness in all its surroundings, and a brighter, better look in the faces of the boys. The general outfit of the school is greatly improved. The table and furnishing, the clothing, etc, are better than heretofore, and all tend to lift this institution out of the prison mire, and on to the higher plane of a school. The expenses for the two years ending September 30, 1876, have been $61,773 46 besides the amount received for the labor of the boys and other sources. Of this amount, $17,688 46 has been expended under special appropriations, made in 1873 and 1875, and $44,084 for current expenses.

All the buildings are now lighted with gas, a new boiler and oven has been put in; a new fence, wood shed and play-shed erected; the main building thoroughly repaired and painted inside and out, and roofed with tin; a water tower and tank have been built, with iron piping through the grounds and building, with 6 fire hydrants; a large number of fruit trees and vines have been planted and many other permanent improvements made. There is room for 100 more inmates than it now contains, and I can see no necessity for further expenditures in buildings or permanent improvements for many years to come. The board asks appropriations of $25,000 per annum for the years 1877 and 1878 for current expenses, $2,500 for each year for repairs and improvements, and $500 each year for the

library. I am of the opinion that with the increasing productive capacity of the farm, and in view of the fact that the buildings and grounds are in complete repair, that the amount asked for repairs is not needed, and that $26,000 per annum are amply sufficient for current expenses, including repairs and improvements of every nature. The amount asked for the library is none too large.

The average number in the school for 1875 was 241, for 1876, 230; average age of boys when received, 13½ years.

The receipts from the labor of the boys have decreased very largely, and the outlook for remunerative employment in the future is discouraging. The only mechanical labor now being done is chair-bottoming, and this at very low prices. It is of no advantage to the boys when they go out, as it is a business not carried on outside of penal institutions, and would not support them if it were. The board, superintendent and myself have given earnest thought and much time to the subject of employment that would teach the boys some useful trade, and at the same time add to our revenue, but without success. In the present depressed condition of our manufacturing industries, there seems to be nothing better than the work the boys are now doing. The farm work is successful in a pecuniary point of view, and highly beneficial in every other way, and with the additions that have been made to the fruit trees and vines, the board hope soon to realize an increased revenue from this source.

The Board of Control again ask that the law authorizing commitments to the school may be amended so that boys of eight years, instead of 10, may be received from parents without commitment. I have given my views upon this subject elsewhere. They also ask that the limit of detention may be changed from 21 years to 18, and I earnestly hope this may be done. If a school does not fit a boy to go out at 18, it never will. If he is not fit to go then, he is not fit to stay and demoralize two or three hundred younger boys. If at 18 a boy after years of instruction and care, of restraint and discipline, still has his face turned the wrong way, it would seem as if the State charity must cease and let justice take its place. The history of the Reform School shows that there are a few such boys, and it shows further that they have been of great damage to their comrades of more tender years. I bespeak for this subject your earnest consideration.

In the provision made by the State, regarding vagrant, neglected and dependent children, through the State Public School, and for criminal children through the Reform School, it has followed the old idea of institutional life; but by far the wisest, most economical, natural, and most humane of all its endeavors in this direction is the work being done by the county agents of the State Board of Charities, under the law of 1873 and 1875. The duties of the county agents are to investigate the case of every child arrested for crime, and to advise with the magistrate as to the disposition to be made of it, to visit all children adopted or indentured from the Public or Reform School, to procure homes for children, and generally to keep watch and ward over these waifs who seem to be deserted by every one but the State. They have attended to 252 cases of arrests for crime—224 boys and 28 girls—that were disposed of as follows: One hundred and eighty-two were discharged under suspended sentence and returned to parents or guardians, 57 were sent to the Reform School, 11 were sent to the House of Correction, and 2 were fined. The average age of children arrested was 12¾ years—88 are reported as having lost father, and 57 as having no mother. Of the 182 discharged, 12 were sent to the State Public School, 6 to poor houses, and homes were found for 6. The children for whom homes were found from the State Public School, 117 in number, have all been visited, and their situation reported upon to the school. The total expense of this work up to September 30, 1876, was $474.45. In addition to these formal duties required by law, they have been of incalculable service in preventing crime, preserving peace in families, restraining cruelty, and in many other ways. If the work of these agents was to be estimated by simply dollars and cents, the amount of money saved to the State, by keeping boys out of institutions, would be found to be very large.

A boy at the Reform or Public School, or in a poor house, costs $100 or $200 a year, and when we add to this the escape from the dangers of institutional life, the transfer from dependent to independent life the development of self-help and self-control that is implanted in a child's nature, by the kindly intervention of the State through its agent, we cannot estimate the value of their services. I have appointed agents in 26 counties only, as in some of the newer counties there seemed no immediate necessity, and in others I have been unable to find any one who would accept the appointment. The position is not an office, pays no salary except expenses, and can only be filled by those who love the work and do it because they love it. The State owes a debt of gratitude to the gentlemen who are acting as those agents that it cannot easily pay. I

earnestly hope the system may not be changed, except to be improved, and that it may in time be extended into every country. What more sublime spectacle does the century present than that of a State not content to be simply a theory or an idea, but a moral Being, with a representative in every community, regardful of its interests, asserting its fatherhood over those children who are to be a part of the State in the future.

I have asked each county agent to give me, in an informal way, such facts as they deemed important regarding their work and their opinion of its value. Their replies are submitted herewith. I commend them to your attention, as the most refreshing reading of the day.

Although the State Public School has taken from the poorhouses a large number of children, the reports of the superintendents of the poor show a constant increase of children in these institutions. In 1872 the number was 583; in 1873, 577; in 1874, 502; in 1875, 734. In this computation are included babes, idiotic, feeble-minded, blind and mutes, but even then the number shocks us. We cannot, must not permit it. That a child reared in a poorhouse is to be a pauper or a prisoner in the future is almost certain.

We shall never cease building prisons so long as poorhouses are permitted to feed them with inmates. We ought to prohibit by law the placing of a child, mentally and physically healthy, under three years of age, in any poorhouse. Other States have already done so, and we should lose no time in following their example. The State of New York provides that pauper children shall be sent to private institutions and asylums instead of poorhouses, the cost of maintenance to be paid by the county. Though we have but few asylums for children, I am of the opinion that we should enact a similar law, applying it to counties where no such institutions exist. But better far than the best institution, is home, be it ever so humble, if it is sober and honest. We ought to provide legislation that would secure homes for these children, and I am of the opinion that power and money should be given to the State Board of Charities to employ agents for this purpose. Such agents, acting in concert with the county agents and the State Public and Reform Schools, may accomplish more than all else in this direction,—at all events the experiment is worth the trial. Should it fail, and should the State Public School continue the success that has so far attended it, we can then either enlarge its capacity or build another. Power should be given under careful restrictions to the boards of Control of the State Public School and the Reform School to transfer children from these institutions. Some boys of tender age are sent to the Reform School ofttimes by connivance of depraved parents, who seem hardly old enough to commit crime, who ought not to be there and should be sent to the school at Coldwater.

Occasionally a boy will find his way into the State Public School who, from criminal tendencies and life, ought not to remain, to the injury of others. Such cases should be transferred to the Reform School.

### THE DEAF, DUMB AND BLIND.

The biennial report of the trustees of this school give very full details of its operations. The number of children in attendance for 1876, was 212; in 1875, 204; in 1874, 191; in 1873, 164.

The current expenses for 1875 and 1876, including repairs and the cost of the mechanical industries, were about $50,000 per annum. The expenditures in the industrial departments have been borne by separate appropriations. The board ask appropriations for the ensuing two years as follows:

| | |
|---|---|
| To pay foremen and purchase materials in boot and shoe shop, cabinet shop, basket shop and printing office | $8,500 |
| For 50 rods of plank walk at $3 per rod | 150 |
| For building one barn | 1,500 |
| For building two water closets to accommodate dormitories | 1,000 |
| For building one shop | 5,000 |
| For laying 200 squares of oak floors at $5 per square | 1,000 |
| For painting and general repairs on buildings, engines, boilers, etc | 2,000 |
| For beds and bedding | 1,500 |
| For one washing machine, one mangle, etc | 500 |
| For two pianos | 800 |
| For steam cooking apparatus | 300 |
| For one fire-proof safe | 250 |
| For set of platform scales | 125 |
| For wardrobes | 280 |
| For building 200 yards of board fence | 350 |
| For one portico to front building | 2,500 |
| For current expenses | 85,000 |
| Total | $110,750 |

The items for barn and closets were in the appropriation for 1875, but were not drawn and have reverted to the treasury.

Within a very short time the state ought to provide a separate institution for the blind, and when this is done there ought to be shop room enough at Flint for all the

deaf and dumb. For this reason I cannot advise the appropriation asked for building a new shop. The construction of the portico can be deferred, as it has been for so many years, though it would greatly improve the appearance of the building. The appropriation for the conduct of the shops, repairs, beds and bedding, are all expense accounts, though heretofore special appropriations have been made for these items, and they have not gone into the current expense accounts. These are as legitimate items of expense in the running of this establishment as any other, and should be so treated; and unless they are so treated we can never tell what the expenses are. The Board of Trustees have reduced the number of employes and their salaries, and inaugurated other economical reforms, and I am of the opinion that the sum of $92,000 will cover all the above enumerated expense accounts and current expenses for the ensuing two years. The estimates for other items are all necessary and should be granted. The expense of lighting the school is enormous, owing to the high price charged for gas, $1,700 for 1876. I recommend an appropriation of $2,500 for the immediate erection of gas works, that this expense may be lessened.

The legislation of 1873 and the active efforts of the officers of the institute have secured the attendance of nearly all the children of the state who need its care, yet there are still some remaining in families and poor houses. The deaf, dumb and blind who grow up in ignorance become either imbecile or a permanent burden upon the community, and no parent has a right to permit it, especially when the State provides education, physical, mental and moral, free of charge for them. I believe it to be the duty of the State to compel by law the education of all children, but especially the deaf, dumb and blind. The system of instruction at our institution is constantly improving, the new method of "articulation" having just been introduced with marked success. The boys are taught a trade and the girls are instructed in housework and sewing. I commend this work to your kindly and thoughtful consideration.

### THE STATE PRISON.

Except in the fact that the prison is largely over-crowded its condition is unexceptionable. The report of the warden and board furnishes full details of the operations of the past year.

The convict earnings in money for the two years ending September 30, 1876, were $203,043 64. This in addition to the labor on State property, roads, sewers, lands, etc., is a very creditable showing.

The net earnings for the two years ending September 30, 1876, were over $20,000.

In view of the depression in business that has so generally affected all manufacturing industries, and none more seriously than prison work, the result has most agreeably surprised the prison officials. There is hardly a prison in the country that has paid expenses, and in many of them no labor at all can be procured for the convicts. The establishment of the State shop, in which the manufacture of brooms is conducted, has been of the greatest possible good. Its earnings have not been large, but it has furnished employment to the halt, lame and blind, to sickly and short term convicts, and relieved the prison yard of its idlers that were formerly so numerous and troublesome. Its effect upon the value of prison labor has been most marked.

The number of convicts September 30, 1876, was 835; in 1875, 788; in 1874, 703. Of the prisoners received in 1876, 30 had served a term in the House of Correction, 18 in the Reform School, and 11 in other prisons. Eighty-five per cent. of the convicts were committed for the first time. Seventy-seven per cent. were intemperate. Eighty-six per cent. were unapprenticed.

Is not the cause of the increase in crime shown by these statistics to be found in this large per cent. of intemperate and idlers?

The report of the warden and board of inspectors as to the workings of the good time and convict earnings law enacted by the last Legislature, express some doubt as to the amount of benefit to be derived from the latter provision. The experiment has not been tried long enough to realy tell its effect, and I should be loth to give it up as a failure. I am of the opinion, however, that the board should be given a larger discretion in the matter of amount and payment of a convict's earnings. Some provision should be made by which the condition and residence of a convict's family could be made a matter of record at the prison, and his earnings be paid directly to them instead of being hoarded or squandered as they so often are. I submit herewith, in accordance with law, a list of the pardons I have granted during the past two years.

### STATE HOUSE OF CORRECTION.

In accordance with the provisions of act No. 96, laws of 1875, I appointed Hampton Rich, of Ionia, Charles Kipp, of Clinton, and Westbrook Divine, of Montcalm, as a board of Commissioners for the new House of Correction at Ionia. A contract for two of the four cell blocks, officers' quarters, chapel, hospital, kitchen, boiler-house, and one shop was entered into September, 1875, with Knapp

& Co., of Detroit, who were the lowest bidders. The work has progressed favorably, though not as rapidly as it should, or as was agreed upon. It will be ready for occupancy by the 1st of May next. The entire cost of the building, including extras, superintendence, expenses of the board, etc., will not exceed the amount designated in the act, viz: $270,000. The overcrowded condition of the State Prison, and the House of Correction at Detroit, require that the new prison be fitted and furnished immediately.

The board has prepared estimates of the sum needed for this purpose, amounting to $29,458. The amount required to start a new prison of this magnitude is necessarily large, as it will not fill up gradually but at once, compelling the outlay to be made within a very short time. The new plan upon which it has been constructed and upon which it is to be conducted, viz: that all the employes are to live in the institution, will demand also a somewhat larger expenditure for furnishing, though the State will be repaid for it in the reduction of expenses in the first year of its operation.

The above sum, though asked for as fitting and furnishing, includes water and gas supply, horses, wagons, tools, fencing, steam engine, fire hose, etc., that are not to be classed as furniture, but that are necessary for the works of the prison. The original plan of the prison provides for 582 cells, 312 of which are in the present contract and are completed. Shop room for 150 prisoners is also in the present contract.

To complete all the cells and shops, enclosure wall, barn and stable, warden's residence, including heating the whole prison, and furnishing warden's residence, the board estimate will require an appropriation of $126,353.

The increase of crime, the number of prisoners in excess of cells in our other prisons, the statistics of which are given elsewhere, would seem to demand that the whole number of cells and shops be built at once. The enclosing wall must, of course, be erected immediately. I recommend, therefore, an appropriation of the amount estimated by the board, with a proviso that the construction of the cell blocks may be discontinued by the Governor, if at any time there should be such a decrease of convicts as would warrant him in so doing.

The report of the board gives full details of contracts and expenditures to December 1, 1876. Provision must be made for the pay of employes, fuel, lights, food, clothing, and other running expenses, until such time as some remunerative labor can be established. In the present condition of our manufacturing industries this time is of uncertain date. The inmates can most of them be employed on the building and grounds for some time, but this work will not pay expenses. I estimate the daily expenses with 300 prisoners at $100 per day. Authority should be given the management to procure advances from the treasury, with the approval of the Governor, for the deficit in current expenses, until the next session of the Legislature.

There were in confinement in the State Prison December 1, '76, 869 convicts—221 more than there are cells. At same date there were 533 inmates in the Detroit House of Correction, being 51 more than there were cells. At this date the number is still greater.

The establishment of the State House of Correction at Ionia will require legislation regarding its management; direction must be given as to the class of prisoners that shall be sent and confined there, and provision should be made for providing for the transfer of convicts from other prisons.

A certain class of prisoners, convicted of what is known as prison offenses, are now sent to the House of Correction at Detroit. The number of this class now in confinement there is 74.

This law should be repealed, and they should be hereafter sent to one or the other of the State prisons. The Detroit House of Correction is none too large for the use of Wayne county, and for what are known as county prisoners of other counties, and will gladly be relieved of them.

With the opening of the State House of Correction at Ionia, the Prison, Detroit House of Correction and Reform School, the State certainly has most excellent facilities for the classification and separation of prisoners, and it should no longer be delayed. The suggestion has been made of placing our three penal institutions under the control of one board, with an executive head whose whole time should be given to the duties of the position, and who, of course, would require a salary. Such a board would cost no more than the three now do, and in some regards the plan might be an improvement, and in others perhaps not.

I commend the suggestion for your consideration.

### THE POOR.

The public expense of caring for the poor of the State in 1875 was $572,000. Of this amount $207,000 was for maintaining the poorhouses. The amount of investment in poorhouses was $722,000. For this expenditure and as a return for the investment, the value of paupers' labor in 1875 was estimated at $8,000.

This financial exhibit, the increase of tramps and able-bodied paupers, the condition of our poorhouses, as described by the State Board of Charities, and many other reasons, induced the county superintendents of the poor at their last annual meeting, to adopt by a unanimous vote a resolution in favor of district work houses. That this system would decrease pauperism and save money cannot be doubted. Would it not be wise to provide by enactment that any number of counties may be empowered to unite for the purpose of erecting and conducting a district poorhouse or workhouse? It would enable some of the new counties that have not yet built their poorhouses to make the experiment.

NEW CAPITOL.

The work upon the new Capitol is not as far advanced as the Board of Commissioners wished and expected. The delay is from various causes, but chiefly from the change in the cornice, steps, etc., ordered by the Legislature. The brick and stone work on the building itself is completed, leaving only the porticoes, steps, and west boiler-house to be finished. There is no prospect of the building being completed at the time contemplated, and the work will need to be hastened to have it ready at the assembling of the next Legislature. The quality of the material and work is excellent, and does credit to the contractors, superintendent and board. During the past two years contracts have been entered into for the tin roof, stone cornice, steam heating, ventilating and the electric work. The total payments to September 30, 1876, have been $819,852.78. The Legislature of 1871 appropriated $10,000 for the preliminary expenses of plans, etc., for the capitol.

The act of 1872 appropriated $1,200,000 for the erection of the building, including services of the architect and plans, without amending or repealing the act of 1871; but the Auditor General construed the appropriation of 1872 to include the amount appropriated in 1871. This construction of the law will require an appropriation of the sum of $8,249.85, this being the amount expended by the board under the law of 1871. The board asks for the electric work and other necessary purposes that the sum of $25,000 or as much thereof as may be necessary, may be appropriated out of the building fund and made available during this year. The history of the construction of public buildings of this character fails to show any where so small an amount of extras or deficiencies as our capitol up to this time, and I commend this appropriation as one necessary and fit to be made. Full details of the operations of the Board of Building Commissioners will be found in their report, to which your attention is called.

The board have made, at my request, an estimate of the amount required to furnish the capitol with seating, desks, gas fixtures, mantels, grates, library, shelving, etc., together with fence, sidewalks, lamps, grading, and other necessary outside improvements. The amount required, the estimates being based on work and fixtures appropriate to the building itself, is $75,000. This estimate is for permanent fixtures that are part of the building and grounds, and is exclusive of furniture. For furniture for the different offices, matting, carpeting, desks, cases, tables, etc., no very close estimate can be made, but I am of the opinion that it will require from $60,000 to $80,000 for this purpose. I recommend, therefore, that an appriation of $75,000, or so much thereof as may be necessary, be made for the purposes first mentioned, to be expended by the Building Commission, and the same amount, or so much thereof as may be necessary, for furniture to be expended under the direction of, the Governor and Board of Auditors

The lot upon which the present Capitol building stands, with the building now occupied for state offices is worth from $80,000 to $125,000, and will go far towards re-imbursing the treasury for these appropriations.

The State also owns four and one-half blocks of land in the city, containing 54 city lots, and I recommend that the Commissioner of the Land Office be directed to plat the Capitol block and dispose of all the State lots at such prices and upon such terms as may be fixed by the Governor, treasurer, and himself.

The near approach of the completion of the new Capitol creates an imperative necessity for the appointment of a superintendent of public property. Such an officer could have saved the State his salary every year of the 10 years past in the care of its property, and with the increased demands in this direction, a good officer, under a good law, will be of great value. This duty is now performed by the Board of Auditors, and as they are absent most of the time, it devolves upon the deputy State officers. Supplies of paper for the printer, stationery for the different bureaus, fuel, etc., etc., are now issued without system or plan. The proposed officer should have (and in the new Capitol there will be abundance of office and storage room for him) all the supplies of every nature under his control, to be issued only upon requisitions and receipted for by the recipient. He should have control of all purchases made by the Board of Auditors, and see that supplies bought are duly received.

The new Capitol and grounds will require a number of employes, janitors, firemen and others, who should be under his superintendence and control. In a business, money-saving view, this office will be one of great importance and demand the entire time of a good business man. I recommend, therefore, the creation of such an office, to be filled by appointment of the Governor, and under his control, conjointly with the Board of Auditors.

RAILROADS.

We have in the State 35 railroad companies, operating 5,311 miles of road, 3346 miles of which are in the State, costing $154,532,665 72, and represented by $30,945 28 of debt and $27,046 84 of stock per mile of road. The large proportion of debt shows that railroads, like municipalities and iindividuals, maintain their fashionable character. The gross railroad earnings in this State for 1875 were $17,592,292, which amount was not sufficient to pay expenses, interests, and rents. Four roads paid no interest on their indebtedness in 1875; nine paid a portion only, and report $2,189,810 unpaid for the year. Two have been sold under foreclosure, and four are in the hands of receivers. One company only paid a dividend during 1875, in cash of two per cent., and one a stock dividend of 10 per cent. This condition of so great and important an interest, employing so large a capital, is very unsatisfactory, but it cannot be attributed to unfriendly legislation so far as Michigan is concerned. The roads have only themselves to blame, and the remedy is in their hands alone.

Our roads and equipment are in good condition. Of 10,716,227 passengers transported in 1875, not one was killed, and only six were injured from causes beyond their own control.

Twenty-three per cent. of the accidents were caused by trespassers on the track. It would seem that some steps should be taken to prevent this large loss of life and limb. There are a number of bridges over the roads of the State, which are not of sufficient height to allow the safe passage under them of men at work on the trains. Five persons have been killed and three injured by these bridges in the past three years. The commissioner should be authorized to compel the roads to raise all bridges to the height of 18 feet, and to prevent the erection in the future of any lower than this, and I respectfully recommend the passage of such a law.

In this connection, I desire to call your especial attention to what to my mind is a matter of very great importance to the State, viz: the manner in which the Lake Shore and Michigan Southern Railway makes its reports for purposes of taxation, and the very small amount of taxes it pays, compared to other roads similarly situated. This railway and the Michigan Central are organized under special charters; both of them are taxed by their charters three-fourths of one per cent. on the capital stock and bonded debt. In 1855, the Michigan Southern was consolidated with the Northern Indiana Railroad Company, and the act authorizing the consolidation provided for its taxation, as follows:

"Sec. 3. The said corporation so to be organized by virtue of this act shall continue subject to the same rate of tax as though such consolidation should not take place; and the amount of its capital and loans hereafter, upon which such taxation shall be paid, *shall be such portion of its capital and loans as is actually employed in the State of Michigan*, to be ascertained on or before the 1st of January in each year by the Auditor General of this State, from the annual report of said corporation, or from such other reports on oath as he may deem necessary for such purpose, to be ordered by him from the office of such corporation."

From that date until the present time their reports have been made up on the basis of $27,300 per mile of stock and debt, and the tax has been $205 per mile, or a gross amount of $35,544.30 per annum; the number of miles of road in this State being 173. The Central and Southern Roads are great trunk lines, and as through roads are of about equal value. The Southern reports the value of its road to be $98,295.59 per mile; the Central reports $111,298.04 per mile. The Central pays a tax of 597.42 per mile to the State; the Southern pays a tax of $205 per mile, a difference of nearly 300 per cent., while the difference in value from their own reports is only 12 per cent.

For purpose of illustration: In the year 1876 these two roads, under practically the same charters, both paying on the basis of the value of their property in the limits of the State, paid into the treasury $134,083.20 and $35,544.30 respectively.

Deducting the 12 per cent. difference in cost and value and the difference in mileage between the two roads, the Southern should have paid $90,951.29, showing a loss to our revenue in this year alone of $55,406.99.

| | |
|---|---|
| In 1872 this company reports to the Commissioner of Railroads that the proportion of its value in Michigan was | $16,509,318 |
| In 1873 | 17,339,882 |
| In 1874 | 17,046,036 |
| In 1875 | 19,455,913 |

Yet for all these years they have reported their road to the Auditor General for *taxation* at a valuation of $4,739,240.16 each year.

While the value and taxation of this road has remained stationary, other roads under the same provisions of law have reported an increased value and increased taxation each succeeding year. In the case of the Michigan Central the valuation and tax have nearly doubled in 15 years.

Which of these reports are we to believe? The reports of other roads—our own business judgment—the taxes paid in other States, are all evidences that the report made for taxation is incorrect. The total amount of taxes paid by the company in 1875 was $483,700. Of this amount $52,250 was paid in Michigan, or about one-ninth, though the proportionate value of the company's property in Michigan is about one-quarter of the whole. Our newer and poorer railway companies pay their taxes under the general railroad law. If the Lake Shore and Michigan Southern paid under the provision of this act, their tax would be $397.64 per mile of road, or nearly double what they are now paying. The fact seems to be that this company has selected the 173 miles of road in this State as its poorest and least valuable property, and paid taxes on it accordingly. I can see no reason in law or equity for this. A railroad must be valued as a whole; as a continuity; the mile built over a prairie at a slight cost is as necessary to its operation as the mile constructed on a bridge at great expense. I am of the opinion that the Lake Shore and Michigan Southern Railway Company should have paid the State in the last 10 years at least $300,000 more than they have; basing their taxation on a fair, equitable, honest basis under the law; and steps should be taken by the State to collect it. Able lawyers whom I have consulted assure me that it can be done. The State and company had some litigation years ago on this subject, and the valuation was then fixed by the court; the whole history of which can be found in the report of the Auditor General for 1874, pp. 66–72, to which I beg to call your attention.

I submit the matter for your consideration, believing that immediate action should be taken to secure payment of our just dues.

### RAILROAD GRANTS.

I regret very much to state that, even with the very liberal grant made by the Legislature of 1875, no action has been taken toward the construction of the Marquette and Mackinac Railroad.

The Board of Control entered into a contract in May last with the Marquette, Sault Ste Marie and Mackinac Railroad Company, for the construction of the road within the time specified in the act, but there seems to be no hope of its being built in the present depressed condition of railroad interests. The grant to the Menominee River Railroad Company made in 1875, of seven sections of swamp land per mile, has expired, owing to the failure of the company to construct the road within the time prescribed by law, and the land has reverted to the State.

### ST. MARY'S FALLS SHIP CANAL.

The tonage passing through this canal for the two years ending September 30, 1876, has been 2,573,728 tons, an increase over the preceding two years of 298,426 tons. The receipts for the same time were $80,514.37. The tolls were reduced in July, '73, from 4½ to 3½ cents per ton, and in July, '75, to 3 cents. There is standing to the credit of the Canal fund on the books of the State $54,611 54, and outstanding of the canal bonds, issued by the State, due in 1879, $49,000.

One set of new gates are in place, and the other will be ready on the opening of navigation. The mouth of the canal has been dredged, the piers and banks repaired, and canal-house and office put in complete repair. The Board of Control have ordered an extension of the pier at the east end, to be completed next season. The inventory of State property at the canal is $12,036. The repairs being so nearly completed it is hoped that a still further reduction in the tolls can be made the coming season.

The clerk of the canal absconded in August last, taking from the safe by means of a false key the sum of $1,114.77. The superintendent being responsible for the safe custody of the canal funds, he must pay the amount unless relieved by you. As he was in no wise to blame in this matter, the Canal Board agree with me in asking the passage of a joint resolution directing them to allow the amount to the superintendent.

### SPECIFIC TAXATION.

The assessment of specific taxes for 1875 was $577,995; for 1876, $573,533, a decrease for this year of $64,462. Of this decrease $26,000 was in the tax on life insurance companies, reduced by the Legislature in 1875, and $34,000 in the decreased earnings of railroads. Specific taxation on real property for State purposes is a system that combined in it more injustice to the people, more inequalities and irregularities, than any other system that was ever devised. It is unrepublican, because it divides the community into classes for purposes of taxation; because it is always and invariably lower than general taxation; because being in lieu

of all other taxes, it deprives our municipalities of their legitimate revenue. A careful analysis of the system in this State shows a disparity in the amount of taxes paid by those taxed under it, and other parties, that is simply astonishing. The total value of the taxable property of the State, as fixed by the State Board of Equalization, is $630,000,000. The total taxation levied in the State for all purposes is about $15,000,000, or 2⅜ per cent. on the valuation, though I believe our taxation is really about 2 per cent.

A hundred dollars in bank stock, farms, houses, lands or mechanical industry pays in Michigan $2 taxes; the telegraph property in Michigan pays 23 cents on $100; the street railroad pay 25 cents on $100; other railroads pay 27 cents on $100, taking their own valuation as a basis. The telegraph lines in the State are worth $1,000,000, and pay an annual tax of $2,366; the street railroads cost $785,406.27, and pay an annual tax of $1,421; the railroads of the the State are worth $150,000,000, and pay an annual tax of 400,000. If these corporations paid the same tax that other property does, they would pay over $2,000,000 annually, instead of $405,000. I can see no reason for this great difference. Arguments may be made that this or that business does not pay, but this is no cause for exemption or decrease of taxation. A farm may be unproductive, a store or house may be without a tenant, a manufacturer may not make a penny, but the taxation on these investments remains the same. There is no system of taxation that is fair, just, and equitable, except that which taxes all property exactly alike. Specific taxation should only apply to foreign corporations who, earning money in the State, have no property in the State, such as insurance companies and the like. Occasional exceptions, temporary in their character, may be made to this rule for the purpose of building up some new enterprise, or developing some new industry, but the well governed community is that where the burden of taxation, be it heavy or light, rests equally upon all property and its owners.

### INSURANCE.

In the creation of an Insurance Bureau the State recognized the fact that the business of insurance was of such public nature, that it demanded the supervision of the State, that its citizens might not be wronged. Under the faithful management of our commissioner the fire companies doing business in this State have been carefully weeded out, and I believe no losses have fallen upon our people from the failure of a fire insurance company in the past two years. We have not been so fortunate in the matter of life insurance. The recent failure of the Continental Life Insurance Company of New York City, in which our citizens hold policies amounting to $2,700,000, upon which they have probably paid $500,000 in premiums, ought to attract the attention of our law-makers to our present legislation upon the subject of life insurance. We have the power of examination and of prohibition from doing business in the State, and that is about all, and the commissioner informs me that the examination of a life insurance company is the work of months.

In the case of failure each policy-holder must look out for himself, and as each one's interest is small compared to the whole, the receiver or assignee disposes of the assets for the benefit of himself and the stockholders, if he sees fit so to do, and the policy-holder is left as chief mourner. But it is not only in case of failure that our citizens suffer.

Thirty-three companies of other States are authorized to do business in this State. These companies issue forfeiting or non-forfeiting policies—while companies organized under our own laws cannot forfeit a policy after one payment has been made. If this law is right as applied to ourselves, and it certainly is, we ought to apply it to all companies doing business in the State. The Supreme Court of Massachusetts has decided that no company, whether organized under the laws of that State or not, can forfeit a policy. Of the companies doing business in this State no two policies are alike in their provisions. The business, as conducted here, is something like this, *i. e.*, the insured is asked an average of about 25 questions, his physician about 20, some friend about 5; if after death there has been an error in the answer of these questions, the company may decline payment.

After this ordeal is passed the companies make the policies void in case of death as follows; Seven, if the assured commits a felony; thirty-one, for suicide; seventeen, if "suicide is committed while sane or insane"; six, "if voluntary or involuntary self-destruction"; fifteen, if death ensues from "intoxicating drink"; five, from "intemperate use of liquors"; six, from use of opium; ten, from "impairment of health by narcotics or alcoholic stimulants." Although the tables of mortality upon which the price of insurance is estimated, are made up of all deaths, including those from above causes, payments, in case of death, are made on a self-constructed basis to suit the company. A husband and father may pay his premium honestly and promptly for years, and by misfortune or financial disaster, miss a single

year; he may have lived a temperate and decent life for years, and by and by have fallen into temptation by strong drink; he may become insane by any cause, and in an asylum destroy himself; he may, after years of honest living, turn to evil ways and go to prison; and, should he die, wife and children, who may have deprived themselves of many a necessity to keep up his life insurance, are told that the policy is void; and if compelled to sue for it, our own courts are powerless, and they are driven to the United States Court, or a compromise.

Though there are honorable companies who do not take advantage of all these technicalities, yet our laws permit it to be done, if they should so choose.

I believe it to be the province and the duty of the State to designate a form of insurance policy, always non-forfeitable, free from all useless verbiage, as simple as a promissory note, protecting citizen and company alike, and to permit no other to be used in the State.

If foreign companies should not like it, there is no compulsory law to keep them here. In this connection I desire to call your attention to the report of Commissioner Kow for 1873, and to the report of Attorney General Marston for 1874 on this subject.

Our citizens hold life insurance policies amounting to $53,000,000 for which they pay over $1,600,000 annually, and we owe them a duty in this matter that we must not neglect.

## BANKS.

There are 26 banks in the State that are organized under its laws. Of these 11 are savings banks with a capital and surplus of $992,845, and deposits of $5,078,759; and 15 are banks of deposit and discount, with capital and surplus of $1,479,956, and deposits of $2,150,732.

I deem it my duty to again, for the third time, call your attention to the fact that our law on the subject of banking is extremely lax and of no earthly use in protecting our citizens from fraud and wrong if evil-minded persons see fit to take advantage of its defects. Our banks of to-day are well-managed and in good hands, but this is good luck and not good laws.

I again recommend that provisions, similar in their character to those of the National Banking act, in the establishment, surveillance and control of banks, be engrafted in our laws. No one objects to these provisions, and they give to the people not alone the sense of security, but security itself, while the banks themselves are more careful and conservative in their management. Banking is not a private business, however conducted. Calling oneself a banker carries with it, to the common mind, the idea of a public business, governed by legislation, and I am of the opinion that it should be so governed—not in a narrow and restrictive sense, but in a liberal, careful and protective manner.

Many of the counties and municipalities of the State have suffered heavy losses by the defalcation of their treasurers. There is something wrong in a system that allows these officers first to perpetrate, and then conceal for a long time, such frauds as some of these have been guilty of.

There should be a general law, applicable to every municipality in the State, mandatory in its provisions, compelling settlements at least four times a year, by the authorities with their treasurers. Such settlements should not be on paper simply, but should include an actual counting of the public funds in their hands. Under the present law, if a community feel that their treasurer is embezzling or misappropriating the public funds they have no remedy except to wait for the expiration of his term.

If the words "defaulter" and "defalcation" could be stricken out of our vocabulary, and the old fashioned plain English substituted, it would tend to make these crimes less common. This subject deserves your thoughtful consideration.

The provisions of law in the city charters of the State, relating to the taking of private property for public uses, are as varied in their character as the charters are numerous. Several of these have been pronounced unconstitutional by the Supreme Court, and it is fair to presume that others would share the same fate, if tested. The cities and individuals suffer alike from the effects of these decisions. Would it not be well to prepare a careful, general enactment, covering this subject, that should apply everywhere and to every one alike?

## MUNICIPAL TAXATION.

The gross amount of taxation levied in the State for all purposes is about $15,000,000. Of this about one-thirtieth part is the State tax, the balance is for city, town, village, school and highway purposes. So, if we grumble at our taxes, the State gets one-thirtieth, and the other forms of government twenty-nine-thirtieths of our maledictions. So too, if care in legislation is demanded for the State, how much greater care should be given to legislation affecting the different municipalities of the State. The framers of the Constitution recognizing this duty, have clothed the Legislature with the power to restrict in cities and villages the power of taxation, borrowing money,

contracting debts and loaning their credit. The table of municipal indebtedness, submitted herewith, showing a total indebtedness of $6,584,540, is abundant proof of the necessity and propriety of this provision of the constitution. If our cities and villages would follow the example of the State, and the dictates of prudence—remembering that out of debt is out of danger—that debt means taxation—that debt is a mortgage, on not only the property, but the industry of the people—they would be loth to incur indebtedness and would soon find a lighter tax-roll and increased prosperity,

Would it not be well to provide for the collection of taxes semi-annually, instead of annually? This plan has been adopted in several of the States, and works well. I can see no reason why the tax-payer should not have the use of a portion of his taxes for half of the year, instead of the municipality or its treasurer.

The experience of the States that have adopted this system proves that taxes are paid much more promptly, willingly and easily than under our system. The interest on $7,000,000 or $8,000,000, for six months is an amount worth saving to the people. The decreased amount of public funds in the hands of treasurers would partially remove the temptation to speculate with them, and there would be less losses from this source. It may be some trouble to inaugurate the system, but I am of the opinion that it would be a decided reform,

MILITARY.

The militia of the State is composed of three regiments of eight companies each. The First Regiment, under command of Col. W. H. Withington, numbering 600. The Second, Col. I. C. Smith commanding, numbers 615. Third, under command of Col. O. F. Lochhead, numbers 577—a total of 1,792 rank and file.

No more companies can be accepted, as the law of 1873 limits the companies to 24. I ordered an encampment of each regiment during the past summer for the purpose of regimental practice drill. The attendance was large, the discipline maintained excellent, and the officers and men a credit to the State whose uniform they wear, and whose soldiers they are.

Under the act providing for the transfer of all insane Michigan soldiers from the poor-houses of the State to the asylum at Kalamazoo, 26 have been so transferred. The expense of their maintenance is about $3,000 per annum. The National Soldiers' Homes have received, since their opening, 436 soldiers from Michigan.

In the two years ending September 30, 1876, 54 soldiers have been temporarily cared for at the Soldiers' Home in Harper Hospital, at an expense of $4,179.60 for maintenance, and $134.15 for transportation, clothing, etc. The number of soldiers requiring care in this direction is decreasing rapidly, and I recommend that the home be discontinued, and that, in lieu of it, the Military Board be authorized to provide for their temporary wants by payments of money direct. The expense of maintenance at the home being over $1 per diem, I am of the opinion that the system of direct payments would save the Military fund a large amount.

The balance of the Military fund September 30, 1876, was $17,111.78. The amount of tax for military purposes levied in 1876, was $22,142.30. No tax was levied in 1875.

The reports of the adjutant, quartermaster, and inspector generals furnish details of military matters, to which your attention is asked.

The Mexican Veteran Association of this State, at a meeting held in Jackson in June last, requested me to ask for them the passage of a joint resolution asking Congress to grant their prayer for pensions.

FISH CULTURE.

Since December 1, 1874, there has been hatched and placed in the waters of the State 12,400,000 whitefish, 1,470,000 salmon, and 150,000 lake trout. There are now in the two hatching houses 10,000,000 eggs to be distributed the coming spring. The total expense since July 1, 1873, has been $23,057.20—an amount considerably less than the appropriation. The inventory of property belonging to the Fish Commission is $4,000. Sufficient time has not yet elapsed to decide conclusively as to the success of this enterprise, but I am of the opinion that it will prove a success, and should be continued. It is the belief of those engaged in the work that every acre of water in the State can be made as valuable as an acre of land. As the appropriation expires July 1, 1877, if the business is to be continued, a new one will need to be made. The catch of fish in our great lakes, that has heretofore been a source of great revenue to our people, is decreasing very rapidly, and chiefly from causes that are within our own control, viz: the wholesale destruction of young fish by the present methods of fishing—catching in season and out of season—without any regulation on the part of the Government.

The attention of our Senators and Representatives in Congress should be called to this subject, as the General Government has exclusive power and control over it. Michigan has about 39,000 square miles of fishing grounds, and our interest in the business is one of great pecuniary magnitude.

CONSTITUTIONAL AMENDMENTS.

The amendments to the constitution, submitted to the people at the late election, striking out the clause that prohibited the granting of license for the sale of liquors, and permitting amendments to be voted upon hereafter at spring elections, were both adopted by a large majority.

It is to be regretted, that with the submission of this amendment there had not been some accompanying legislation equalizing and reducing the number of circuits. The inequalities of population, business and territory are very great. Gentlemen who have lately filled the position of judge in some of our circuits, have assured me that they could have transacted all the business with ease had the district been doubled. We now have 21 circuit judges and three special judges, who perform the duties of circuit judge. Wisconsin, with a population of 130,000 less than ours, has 13 circuits. Iowa, with a population 100,000 greater than ours, has 13 circuit and 13 district judges, but they have no probate courts, the circuit judges having jurisdiction in probate cases. Indiana, with a population 500,000 greater than ours, has 40 circuit and 5 special judges, but no probate judges. Wisconsin pays salaries of $3,000 per annum; Iowa $2,200; Indiana $2,500. Our judicial system as a whole is more expensive than any of the above mentioned. Would it not be wise to remodel it; consolidate some of our circuits, reducing the number,—pay our judges respectable salaries, and at the same time save expense? The expenses of stenographers in the State for 1876 was $22,000.

STATE LIBRARY.

Your attention in invited to the very full report of the State librarian. The library contains 52,819 books, maps, and pamphlets, valued at $100,000. The librarian asks an appropriation of $1,500 for each of the years 1877 and 1878, and I respectfully recommend that the request be granted.

In addition to the ordinary duties of the position, the librarian has entire charge of the sale and distribution of the Supreme Court reports, and this of itself is a work of much responsibility, occupying much time. Since the disposition of these reports has been placed in her hands the sales have greatly increased; the receipts for 1871–2 being $1,414.48, while in 1873–4 they were $8,896.55, and in 1875–76 they have been $15,319.93. The growth of the library and the increasing demand upon the time of the librarian, its prospective removal to the new capitol, make it necessary that the librarian should be empowered, with the approval of the Governor, to employ a competent clerk, and I recommend that such authority be granted.

There should be some definite action by your honorable body on the question of fire insurance upon State property. The value, as stated elsewhere, is very great, and the trustees of the different institutions should have instructions, from the law-making power, either to insure or not. There should be some harmony of action on this subject. As it is now some are insured and others are not.

STATE BOARD OF HEALTH.

The gratuitous labor of this board in behalf of the public health and well-being, though not as plainly perceptible as some practical work, I believe is of great value to the people. Their reports contain much useful information on the preservation of life and health, valuable alike to individuals, public officers and institutions.

STATE PIONEER SOCIETY.

The report of this society is submitted herewith. Of the appropriation made by the legislature of 1875, of $500 for each of the years 1875 and 1876, only half of the amount for 1875 has been drawn from the treasury. The society ask an appropriation of $500 for each of the years 1877 and 1878.

I submit herewith certain petitions and correspondence relative to affairs in the county of Manitou. They show that the laws of the State and the United States are violated with impunity, and that there is no safety or protection to persons or property in portions of the county. No courts have been held for years. The county offices are vacant a large portion of the time. There is no jail. Debts cannot be collected by process of law, nor are any of the forms of law complied with.

There is no power vested in the Executive to remedy this condition of affairs, and I recommend that the county organization be discontinued, and the territory be attached to the county of Charlevoix, which is in the same senatorial and representative district.

RELIEF FUND.

The relief fund remaining in my hands at the date of my last message was $310 75. I gave to the sufferers by the tornado in Detroit, in 1875, $200, and the balance, $110 75, to the Centennial fund for the erection of the Michigan building, at Philadelphia. I hold vouchers for these disbursements.

THE LIQUOR TRAFFIC.

The law of 1875, providing for the regulation and taxation of the liquor traffic, has

been in operation nearly two years. It was the purpose of the friends of this act not only to regulate, but to restrain the traffic in strong drink, that had grown to be, under other laws, the greatest evil of the day. For the purpose of ascertaining what has been accomplished under it, I addressed the treasurer of each county, asking for full details of the operations of the law in their respective counties. A tabulated statement of the replies, together with a report made to the auditor general for 1875, by the same officers, is published herewith. The information is somewhat incomplete, but is probably as near correct as could be expected. In 1875 the number assessed as reported to me, was 4,974; of these, 4,215 paid the tax, amounting to $461,462 92. It is altogether probable that those who have not paid have retired from the business. In 1876 the number assessed was 4,553; of these, 3,385 are reported as having paid the tax, amounting to $384,387.

The collectors of internal revenue report the number of persons assessed in 1876 by the General Government, as dealers in liquors, as 5,338, this includes druggists, who, as a rule are not assessed under the State law; while in 1874 the number assessed was 6,444, showing a decrease of 1,106 in two years. It is evident, therefore, that the act of 1875 has decreased the number of places where liquor is sold very largely.

As many of the persons assessed have retired from the business, and others have been assessed for periods less than a year, I estimate from the reports that there are about 4,000 places for the sale of liquor in the State.

The official reports of the police officers of the cities of Detroit, Grand Rapids, East Saginaw and Jackson, report 3,974 arrests for drunkenness in 1874, 3,232 in 1875, and 2,228 in for 1876. This decrease of drunkenness and of places where humanity is made barter of, and dollars traded for degradation, must be gratifying to every citizen. The reports show very generally that behind this law there stands a public sentiment that says, enforce it. There are counties, however, as shown by the reports of 1876, in which it has not been properly enforced. This is notably the case in Bay, Houghton, Ingham, Jackson, Kent, Lapeer, Marquette, St. Clair, Saginaw, and Wayne counties. Some of the officers whose business it is to enforce the law, have lost sight of the restrictive and restraining idea underlying it, and rather than close up the business, have fostered it by accepting monthly payments on account. I find this system in vogue quite extensively. There is no time fixed in the law for the collection by the sheriff, or for return of warrant by him. I suggest, therefore, that the law be amended, giving the treasurer a certain, specified number of days in which he may receive the tax, giving to the sheriff not exceeding 30 days in which to collect and five days additional in which to make his return. When his return is made he should be required to furnish a copy of it to the prosecuting attorney of the county, whose duty it should be to commence proceedings at once in all cases where the tax has not been paid. The treasurer should also furnish monthly lists of persons who have failed to file the bonds required under the law, to the prosecuting attorney for prosecution.

Summary process for the absolute removal of any officer neglecting his duties under this law should be provided for. These details of administration ought not to be needed, but there seems to be something peculiar regarding this business, and it requires tying up tight. The police regulations, in my opinion, should be so amended, as to prohibit the sale of any kind of intoxicating liquors on election day, and after 11 o'clock at night. There is a vast amount of liquor sold in drug and confectionery stores, without the payment of the tax. The only remedy that I can suggest is to place them under the provisions of the law and tax them. I believe that with these amendments the law will be found, year by year, more and more restraining in its tendencies, and more productive of good to the people. It has already closed over 2,000 places where liquor has been sold, and has put into the common treasury $1,000,000 from the traffic.

The spring is no higher than its source, and no law that has not the sympathy and sentiment of the people acting with it, will ever remedy an evil. If a community do not regard temperance, sobriety, and good morals as a necessity to their well-being, the law will do them but little good,—while to the friends of good order, public peace and private content, it will prove a blessing.

Intemperance is the danger of the hour. It feeds prison and poor house; destroys morals and manhood, and cancer-like, eats away the life of the individual and nation. Law will not stop its ravages, but it may be made an instrument that will lessen its evil work, and this, I believe, our present law is doing. It should be strengthened and improved, bearing in mind that its provisions should be kept within the pale of public sentiment, and within the range of the common sense of justice that so universally prevails in the minds of the people.

The sudden and severe illness in my family that calls me away, has prevented me from

preparing the report of the Centennial exhibit made by the State. I shall be compelled to defer it until my return, and ask my successor to transmit it to you.

SENATORS AND REPRESENTATIVES — In closing my official connection with the State I cannot refrain from expressing my sincere gratitude to my fellow-citizens of all opinions and parties for the kindly consideration they have always shown me. I shall bear it with me as a precious memory. I have faith that with good laws, equal justice and general education as the foundation stone, we shall build here a State that will in material wealth and in the moral and mental worth of her cituzenship, stand forever as the handiwork of a free people.

JOHN J. BAGLEY.

# LANDS.

The Entire Land Grant of this Company unsold, consisting of about 250,000 ACRES, is offered for sale.

## PINE LANDS.

Over 900,000,000 Feet well located mainly on the Rivers leading into Lake Michigan. The numerous streams and small Lakes surrounded with Pine timber along the line west of Reed City offer the best of locations for mills, where logs can be held safely, free of expense and free from the annoyance of Boom Companies. The Railroad direct to East Saginaw and Toledo offers the best source of supplies, and a never failing market for Lumber, Shingles, &c., which may be delivered anywhere on the line.

## FARMING LANDS.

As good as any in the world are to be found in abundance, and will be sold on the most favorable terms to actual settlers. Some level and heavily timbered with Oak, Beech, Maple, &c. Some rolling, with Beech, Maple, Rock Elm, &c. In fact, every variety of timber, soil and surface can be found.

The Railroad is complete to Ludington on Lake Michigan. CHEAP LAND AND RAILROAD FACILITIES are seldom offered together. And those who wish to secure homes will do well to apply early and take choice selections.

TERMS OF SALE.—One-Fourth down, in all cases—and balance may be paid in three equal annual payments.—TIMBER LANDS MUST BE PAID FOR, BEFORE BEING CUT. FARMING LANDS FOR ACTUAL SETTLEMENT will be sold on payment of one-fourth in cash and the balance in five equal annual payments.

Interest at the rate of seven per cent. on all unpaid balances, to be paid annually.

All Contracts and Notes are made payable at MERCHANTS' NATIONAL BANK, IN EAST SAGINAW.

Apply in person or by mail to

Land Office at East Saginaw, Mich. WM. L. WEBBER, Land Commissioner.

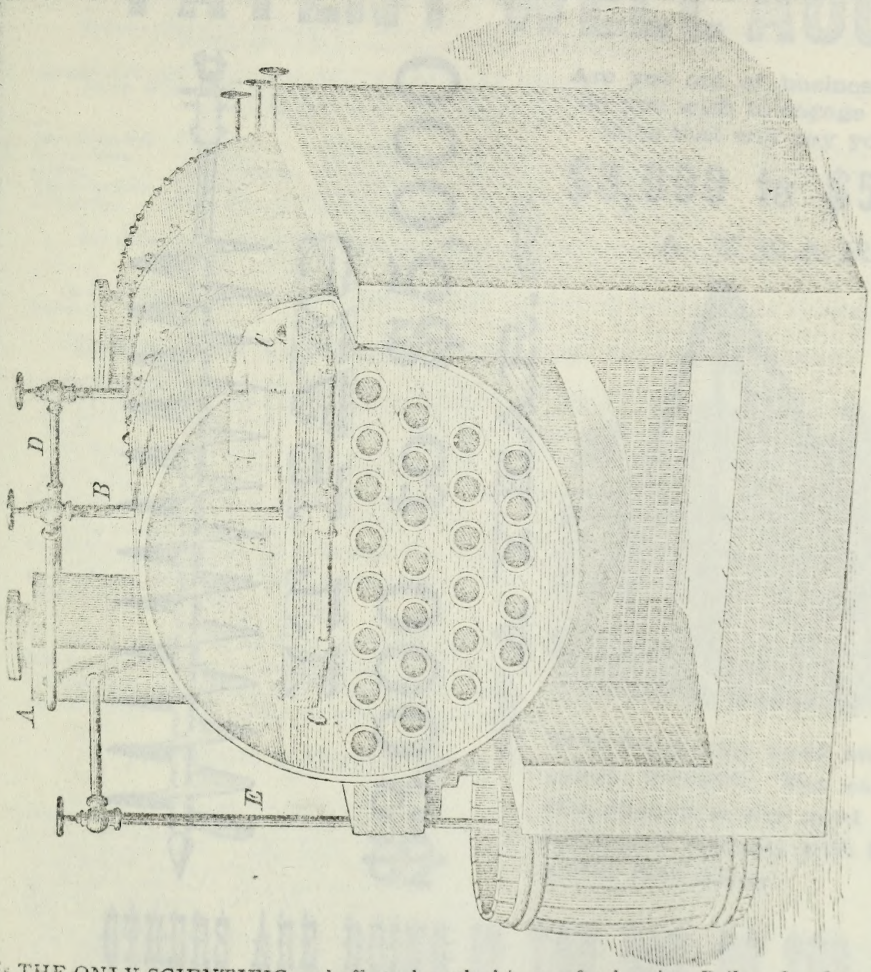
# KEMP'S IMPROVED

# BOILER CLEANER!



Is THE ONLY SCIENTIFIC and effectual method in use for keeping Boilers free from MUD, SCALE and SEDIMENT.

## IT IS WARRANTED TO DO IT.

**Without the use of Chemicals; Without cost, other than the first; Easily Attached, Always at work, removing Lime, Gypsum, Magnesium, Mud, Sand,** or any other of the many impurities held in solution by the water, and depositing them in a barrel (if desired) by the side of the arch. It is no trouble to the engineer; prevents foaming, establishes a circulation; CLEANS OFF OLD SCALES, PREVENTS NEW ONES FROM FORMING, and is WARRANTED to be JUST WHAT EVERY BOILER REQUIRES. It abolishes powders, gums, barks, acids and alkalies, and keeps the water as pure as condensed water, without a possible injury to the iron, and will last as long as the boiler itself. Many saw mills, salt blocks and manufactories on the Saginaw ver and elsewhere, are using it with unbounded satisfaction, Sent on trial, if desired. nd for descriptive Circular with testimonials.

PULLMAN PALACE SLEEPING CARS run over all the lines of the Chicago and Northwestern Railway Company, between CHICAGO and OMAHA, CEDAR RAPIDS, DUBUQUE, FREEPORT, MILWAUKEE, ST. PAUL, FOND DU LAC, GREEN BAY, and MARQUETTE. They connect at OMAHA with

## THROUGH SLEEPING CARS FOR SAN FRANCISCO.

This great corporation now operates over two thousand (2,000) miles of its *own* road, and has "running arrangements" over nearly eight hundred miles of road owned by other companies. Taking CHICAGO as its starting point, the various lines owned by this Company radiate north, northwest and west, like the fingers on the human hand. With one line its reaches MILWAUKEE, FOND DU LAC, GREEN BAY, and MARQUETTE. With another it runs through MADISON (the capital of Wisconsin), ELROY, and to ST. PAUL and MINNEAPOLIS. Another of its lines stretches far across Illinois, Wisconsin, Minnesota, and terminates in Central Dacota. Still another runs from Chicago, through ELGIN and ROCKFORD to FREEPORT, and with connections there for Galena, Dubuque, etc. Still another line of this corporation runs northwardly through JANESVILLE, FORT ATKINSON, WATERTOWN, to Fond du Lac, and beyond. However, the greatest and most important of the roads of this company is their Omaha and California Line, or, as it is called, "THE TRANS-CONTINENTAL ROUTE." This is the pioneer line between Chicago and the Pacific Coast, and was the first to connect with the great Pacific roads, and form the OVERLAND ROUTE. This line is the shortest rail line between Chicago and Omaha; the track is of the best steel rails, and is well ballasted, and as free from dust as a road can be made; the bridges are strong and durable; and all the appointments are first-class in every respect. The trains that run over this line are made up of elegant new Pullman Palace Drawing Room and Sleeping Coaches, *built expressly for this line,* luxurious, well lighted and well ventilated Day Coaches, and pleasant lounging and smoking cars—all built by this Company in their own shops. The cars are all equipped with the celebrated Miller Safety Platform, and Patent Buffers and Couplings, Westinghouse Safety Air Brakes, and every other appliance that has been devised for the safety of passenger trains. All trains are run by telegraph. In a word, this GREAT CALIFORNIA LINE has the best and smoothest track, and the most elegant and comfortable equipment of any road in the West, and has no competitor in the country. It is eminently the favorite route with Chicagoans traveling west, and is acknowledged by the traveling public to be the popular line for all points in Western Iowa, Nebraska, Wyoming, Colorado, Utah, Montana, Idaho, Nevada, California and the Pacific Slope.

**ALL TICKET AGENTS SELL TICKETS BY THIS ROUTE.**

Parker H J, wagonmaker.
Smith F Hart, stock dealer.
Smith G A, flour and saw mills.
Smith Brothers, general store.
Terpening H, hotel.
Vantine Charles, grocer.

## ADRIAN.

The city of Adrian is the county seat of Lenawee county, its central location and rapid development having induced the removal of the public offices from the older settlement of Tecumseh, in the year 1838. The site on which the city stands was purchased of the general government in 1825, by Addison J. Comstock, who the year subsequent settled upon the same, with his family and employees: building the first log house, and erecting the first rude saw mill,

Culver, Page, Hoyne & Co., Publishers of Legal Blanks,
Nos. 118 & 120 Monroe Street, Chicago.

within the territory now embraced in the corporate limits of a thriving city of at least 9,000 inhabitants.

The original village of Adrian was platted and recorded April 1st, 1828. In the fall of the same year, the first hotel was erected, by Isaac Dean. The first grist mill was erected by Messrs. Comstock and Dean, in 1829.

The first educational enterprise was a select school, inaugurated in a modest frame structure, in the year 1829. The city now boasts a college, located near the western limit, on a pleasant and commanding site, and five Public or Union schools, incorporated and maintained under the provisions of a special act, approved March 13, 1861. The old Central School building, a plain but capacious edifice of brick, was burned in 1866. The new structure, erected on a contiguous but more eligible site, was finished in 1868. It cost $70,000, is constructed of stone and brick, and is considered one of the model school buildings of the state. The aggregate cost of the four branch buildings, one being situated in each of the four wards into which the city is divided, was $35,000. They are all of brick, roomy and substantial. At present thirty-two teachers are employed, at an approximate annual cost of $15,000 in salaries; the entire cost of maintenance averaging $35,000, including interest and installments on the debt necessitated by the burning of the old building.

Adrian College is controlled by the Methodist denomination. It has an endowment of over $100,000, and the grounds, structures, and educational appliances, are valued considerably in excess of that sum.

The first house of worship was erected by the Presbyterians in 1832. The Methodists, Baptists, Congregationalists, Presbyterians, Irish Roman Catholics, and Lutherans, each now possess elegant and commodious houses of worship, substantially built of brick and stone. The Episcopalians and United Brethren have tasty frame structures, and the German Roman Catholics now have a fine brick structure in process of erection. There are one or two colored congregations also possessing places of worship.

Although surrounded by a rich agricultural section, toward supplying the wants of which its commercial energies are principally directed, Adrian has several important industries, the most flourishing at this time being the Illinois Manufacturing Works, devoted to making railroad car trimmings, lamps, and the more elegant qualities of bronzed and plated railroad supplies and brass work, affording employment to 200 men. (Since the above was put in type, these works have been totally detroyed by fire. There is every prospect, however, that they will be rebuilt.) The Lake Shore Ry car shops, and the car shops of the Adrian Car & Manufacturing Company adjoining, in prosperous times afford employment to some six hundred men. A paper mill has been recently erected, at a cost of $75,000, and contains machinery capable of an annual production of $250,000.

There are two planing mills, two machine and engine shops, and any number of private industries in the way of carriage and wagon factories, smithies, cooperage works, etc. There is also one National bank, one private bank, and two savings institutions, all possessed of ample capital and well managed.

Few cities of the same size can boast a greater number of elegant private residences, and at the same time an avoidance of the harsh contrasts sometimes to be seen between affluence and penury; an air of comfort and culture being discernible beneath the modest portals of the mechanics' cottage even as much as under the mansard roof of the more imposing mansion. The most pretentious public edifice is the Masonic Temple, erected at a cost of $75,000, now owned by the Michigan State Insurance Company.

A new jail edifice, for which $20,000 has been appropriated, was commenced in the fall of 1876, and promises to be a model of strength and security. The original court house was destroyed by fire March 14th, 1852, and a failure to replace it has caused one of the most pressing wants of city and county.

In addition to a fine public school library, and a large and costly collection of books belonging to the Ladies' Library Association, the literary wants of the community are met by one daily and weekly paper, two weeklies, and a college monthly, called the *Repertory*.

The *Times* and *Expositor*, issued daily and weekly, is the oldest paper, being the outgrowth of the pioneer paper of the interior of the State, the *Lenawee Republican and Adrian Gazette*, issued by R W Ingalls, October 22, 1834. This paper was afterwards called the *Watchtower*; in 1866 it was merged into *The Times*, which paper soon after absorbed its cotemporary, the daily *Expositor*, and later the *Raisin Valley Record*, a sprightly weekly at Tecumseh. The publishers are Applegate & Fee, the latter

D. A. ROSS & CO., LUMBER, LATH and SHINGLES, 70 Franklin Street, Detroit.

gentleman also holding the position of postmaster.

The *Press* was started in 1873. The daily was suspended in February, 1877, the weekly issue being continued by the founder, Mr. Wm. A. Whitney, a gentleman who has been identified with the place since 1828.

The *Journal*, weekly, is owned and edited by Japheth Cross, also one of the oldest citizens.

The leading hotels are the Central House, the Lawrence House, the Botsford House, the Gibson House and the Mineral Springs Hotel, all well kept hostelries. There are also several minor places of public entertainment.

The Opera House, built within the last ten years, has a fine stage and appurtenances, and an elegant auditorium capable of seating 1,200 spectators.

The city maintains a paid fire department, the apparatus comprising two powerful steamers, with hose carts, each having a crew of ten men, a mounted Babcock chemical engine, and a large hook and ladder truck. The water supply is somewhat defective, the only reliance being large cisterns and wells for fire uses. In order to obviate this the city has sunk an artesian well of large bore to a depth of 1015 feet, but without success. The introduction of water works, with the city's development, must become a matter of increasing importance.

Another metropolitan necessity, a sufficient and well paid police force, is also maintained, and though the streets are well lighted with gas and oil lamps, and bridges, avenues, sewers and public buildings well maintained, the annual tax levy for 1877, was only $32,000. The assessment is based upon one third the actual value of real and personal estate. The taxable valuation, as equalized for the same year, was as follows:

| | |
|---|---|
| First Ward | $361,496 |
| Second Ward | 455,725 |
| Third Ward | 378,849 |
| Fourth Ward | 481,131 |
| Total | $1,677,201 |

Situated on high and slightly rolling land, with a fertile, well drained country around it, Adrian cannot be surpassed as a place of residence, affording healthfulness, coupled with fine social and educational advantages, while an inviting field is accorded all legitimate business enterprises.

The city is in direct and easy communication *via* the Lake Shore & Michigan Southern Ry, with Lansing, the State capital, distant 83 miles, Chicago, 211 miles, Detroit, 73 miles, and Toledo, 33 miles.

## ÆTNA.

A small village or hamlet in the township of Denver, Newaygo county, 16 miles north of Newaygo the county town, and nine northwest of Morgan Station, on the Big Rapids Branch of the C. & M. L. S R. R. The White river, upon which the village is located, gives it a good water power; and a saw mill, shingle mill and grist mill are operated. Lumber, flour and shingles are the principal exports. Stages run to Morgan and Hesperia, and the place has a tri-weekly mail. It was settled in 1860. Population 75. C. A. Stone, postmaster.

BUSINESS DIRECTORY.

Anderson W A, flour and shingle mnfr.
Boone Frank, saw mill.
Pond G C, blacksmith.
**Stone C A**, General Store.

## AKRON.

A postoffice in the township of Akron, Tuscola county, 14 miles northwest of Caro, the county seat, and about 100 from Detroit. Vassar, 20 miles southwest on the Bay City branch of the M. C. R. R., is the nearest railroad point. It is on the stage route from Sebewaing to Vassar, by which it receives a daily mail. The surrounding country is adapted to farming, but as yet only lumber, staves and hoops are shipped. Richard A. Waldi, postmaster.

## ALABASTER.

A village of about 300 inhabitants in Iosco county. It is situated on the west shore of Saginaw Bay, 5½ miles south of Tawas City, 163 from Detroit, and 35 northeast of Standish, on the Mackinaw Div M. C. R. R., its nearest railroad point. Gypsum underlies the town in great quantities, and with staves, forms a leading article of export. Express, Holt's and American. Telegraph, Western Union. Stage to Standish daily during the winter. Mail daily, George R. Beard, postmaster.

BUSINESS DIRECTORY.

Bradley Mrs Mary, hotel propr.
Brennan Mrs N, hotel propr.
**Smith, Ballard & Co**, Plaster Works and General Store.

## ALAMO.

A small station on the South Haven division of the M. C. R. R. in the north western part of Kalamazoo county, eight miles from Kalamazoo, the county seat, and 152 from Detroit. The principal shipments are wheat, pork and apples. Daily mail. T. J. Congdon, postmaster.

BUSINESS DIRECTORY.

Barber C W, railroad agent.

Williams George W, hotel propr.

## ALBION.

A flourishing village on the Michigan Central railroad, 20 miles west of Jackson, and 12 miles east of Marshall. The Lansing branch of the L. S. & M. S. R. R. also passes through the place, by which route it is 22 miles north of Jonesville and 37 south of Lansing. Albion is in the eastern part of Calhoun county, in a fine agricultural region. Fruit and grain are the leading products marketed. The Kalamazoo river affords a good water power. The manufacturing interests of Albion embrace one extensive agricultural implement factory, which turns out 10,000 plows, 1,000 sulky horse rakes and 600 cultivators per annum; an extensive tannery, 2 flouring mills, 2 sash and door factories, and 1 wind mill manufactory.

The college, under the control of the Methodist Episcopal denomination, is the predominating feature of the village. This institution is now on a much stronger footing than formerly, having secured an endowment of $200,000. The college numbers about 200 students.

There are five union school buildings and six churches in Albion, and it supports two weekly newspapers, the *Recorder* (Republican), published by Hall, Thompson & Co., who also publish the *College Annalist*; and the *Mirror* (Democratic), published by L. W. Cole. There are two hotels, the Albion house and the Exchange hotel, one bank, the National Exchange, capital $100,000; and 2 private banks. There are offices of the Western Union Telegraph and United States and American Express companies here. Mail daily.

Martin Haven, postmaster.

## ALLEGAN.

The county seat of Allegan county, is a flourishing incorporated village, of about 3,000 inhabitants, situated on the Kalamazoo river, about 3 miles south of the center of the county. It is 25 miles northwest of Kalamazoo, 30 south of Grand Rapids, and 168 west of Detroit. Two railroads pass through Allegan, the M. L. S. R. R., extending from Battle Creek to Muskegon, and the G. R. branch of the L. S. & M. S. Ry. A third road is in process of completion from Mansfield, O., to Allegan *via* Coldwater and Battle Creek.

The village is situated mainly upon a peninsula, formed by a horse shoe bend of the Kalamazoo river. It is surrounded by high table lands, extending back into the country and having a productive soil. There are several spacious business blocks, built of stone and brick, and having fronts of good style and finish. Ample accommodations are thus furnished, not only for merchandising and other industrial pursuits, but for professional offices.

The manufacturing enterprises includes the Allegan Manufacturing Company, capital, $25,000, 3 flouring mills, 2 saw mills, 2 planing mills, 1 foundry, and 1 woolen mill. A fall of 8 feet in the river furnishes a splendid water power. There are 2 banks, the First National, capital $50,000, and a private institution. 2 newspapers are published, the *Journal*, (Republican), and the *Democrat*, both weeklies. Allegan has 8 churches—Adventist, Baptist, Congregational, Episcopal, Lutheran, Methodist and Presbyterian; 2 first rate hotels, and a flourishing Union school.

Holly water works, double machinery, driven by water power, supply the village with water.

Allegan was laid out in 1835, by the "Boston Company," an eastern land company, who improved the water power, built a saw mill, and procured the settlement here of a number of families. School houses, churches, hotels and manufactories sprang up, a bank was established, and everything was going on swimmingly when the panic of 1838 swept the foundations from the speculative structure, and for years after it suffered from the back-set. Prosperity was again assured by the opening of the Kalamazoo and Grand Rapids railroad, in 1868, since which the place has enjoyed a healthy growth in population and business. A stage runs to Monterey, semi-weekly. Express, United States and American. Telegraph, Western Union. Mail daily. George R. Stone, Postmaster.

## ALPENA.

A city of about 5,000 inhabitants, is the seat of justice for Alpena county. It is situated on Thunder Bay, at the mouth of Thunder Bay river, and is an important lumbering point. The surrounding country comprises pine and hardwood timber lands in about equal proportion. By a series of dams in the river here, excellent water power is obtained. There are 10 saw mills, producing in the aggregate about 100,000,000 feet of lumber annually, 4 shingle mills, 2 planing mills and 2 foundries and machine shops. Fishing also is an important interest,

Culver, Page, Hoyne & Co., Pubs. of Books and Blanks for Ins. Cos.
Nos. 118 & 120 Monroe Street, Chicago.

at least $100,000 being invested in this industry. An excellent mineral spring exists here, and is much resorted to by invalids. During the season of navigation regular lines of steamers connect Alpena with Detroit and Bay City. Distance to Detroit, 230 miles; to Bay City, 120, and to Standish, the nearest railroad point, *via* the Mackinaw division of the M. C. R. R., 90 miles; this during the close of navigation is the shipping route. Wheat, rye, barley, buckwheat, potatoes and other root crops are grown. Lumber, cedar posts, shingles, telegraph poles and fish are shipped. Telegraph, Western Union. Express, Holt's. Mail daily, W. D. Hitchcock, Postmaster.

## ANN ARBOR.

One of the finest and most healthy inland cities in the State is the seat of justice of Washtenaw county. The plat of the village of Ann Arbor was recorded May 25, 1824. It was incorporated as a city April 4, 1851. The population is about 8,000.

Its first settlers were John Allen, Esq., of Virginia, and Elisha W. Rumsey, Esq., of the State of New York, who with their families located here in 1824. They first built an arbor, composed of oak poles, covered with boughs, and the name of each of their wives being "Ann"—the new settlement was at first called "Ann's Arbor"; from whence the city derived its present name.

The city is situated on both sides of the Huron river on the Michigan Central rail-

road, 38 miles west of Detroit, and on high, picturesque and fertile grounds, originally covered with groves of oak timber. The Huron river furnishes first class water power, used for manufacturing purposes. The streets are wide and clean, and regularly laid out, crossing at right angles, and handsomely bordered with shade-trees, and lighted with gas. It is one of the most orderly cities in the State and has an efficient police force.

THE UNIVERSITY AND PUBLIC SCHOOLS.

Ann Arbor is especially known as the seat of the University of Michigan, with its departments of Literature, Science and the Arts, the Medical and Law departments, its schools of Mining and Civil Engineering, and its extensive laboratory of Chemistry and Pharmacy. The several departments contain 1,100 students, 100 of whom are ladies, who are admittted into all the departments upon the same terms and conditions as gentlemen. In its complete and thorough courses of study, and in the numbers of students, who annually flock here for thorough culture from every part of the world, and in the number and size of its buildings and extensive and beautiful grounds, the university ranks among the first in the United States. Through the liberality of the Legislature, a new building was erected in 1871, known as "University Hall," at a cost of $120,000, containing a chapel, the President's and Steward's offices, several commodious recitation rooms and a hall for public exercises, 80 by 130 feet, elegantly frescoed, and having a capacity for seating 3,000 persons. Among the most recent and important additions to the university is the hospital. Two buildings were erected in 1875 for a public hospital at a cost of $10,000. They are fully equipped, and ample provision has now been made for patients from this and other States. There are accommodations for 100 patients.

The city is also favored with the most efficient and prosperous union school in the State. Students in large numbers from this and other States attend the high school while preparing for admission to the University. The Ann Arbor High School furnishes yearly a much larger number of students to the University than any other institution of learning. In addition to the high school building, which alone cost $60,000, there are five ward schools for the younger portion of resident pupils.

CHURCHES.

The Churches in the city will compare favorably with those of any other town of equal size in the West. Among the largest of these are the Methodist Episcopal and the Presbyterian churches, each of which will seat 1,200 persons. New and elegant stone churches have been recently erected by the Episcopalians and Congregationalists, each of which will seat 700 persons. There are also one Baptist, two Lutheran, one Catholic, one Unitarian, one German Methodist, one colored Methodist and one colored Baptist church.

TRADE AND MANUFACTURES, ETC.

Ann Arbor is also favored with a large and flourishing trade and has suffered less than many other cities from the financial depression of the past 3 years.

It contains many fine stores besides manufactories of flour, agricultural implements, book publishing, furniture, machinery, leather, boots and shoes, carriages, lumber, sash, doors and blinds, marble, paper, and woolen goods, and 3 breweries. There are 3 printing and publishing houses, each of which issues a weekly newspaper, well known as the *Ann Arbor Courier*, the *Ann Arbor Register*, and the *Michigan Argus*.

The principal hotels are the Gregory House, the Cook House and the Leonard House. The first two will accommodate 120 guests each, and the latter about 100 guests.

There are two chartered banks. The First National with a capital of $150,000, and the Savings Bank with a capital of $50,000. The American Express Co. transacts the express business, and telegraphic facilities are afforded by the "Western Union" and "American" lines.

The fire department consists of two fire companies and three first class hand engines with 1,600 feet of hose and a hook and ladder company. Small reservoirs in the central portion of the city have furnished the principal supply of water for fire purposes, but the university grounds have been recently supplied with water for all purposes from a neighboring spring, which furnishes an abundant supply and a large surplus. The water is conveyed through pipes into a reservoir having a capacity of 1,500 barrels, which stands on the university grounds adjoining the laboratory. It is expected the city will soon be supplied with water for fire purposes from the same source, as the water

Fine English Suitings, At SOL. S. BATESON & BROS., Merchant Tailors, Detroit, Mich.

can be conveyed in pipes from this reservoir through the city at a small expenditure for pipes and hydrants.

Like some other towns of Michigan, Ann Arbor contains fountains of health in the shape of mineral springs, whose waters are highly impregnated with iron, sulphur, magnesia and other minerals. A large building for the accommodation of patients has been erected, where all, seeking relief from disease and pain, will find first-class accommodations.

SOCIETIES, ASSOCIATIONS, &c.

Of secret and other societies it can truly be said that the supply has been equal to the demand. Of masons, there are two subordinate lodges, one chapter and one commandery; of odd fellows there is one subordinate lodge and one encampment; a good templars lodge; a lecture, and a young men's christian association; a ladies' library association with 2,500 volumes in their library; a German laboring men's association; a turn verein, a schuetzenbund and relief park association. Each of the last three, above named, have purchased and fitted up parks for physical improvement and social enjoyment. These parks cover an area of 17 acres in beautiful groves of native trees.

The grounds of the Washtenaw County Agricultural Society with suitable buildings are also within the city limits.

WHAT THE CITY NEEDS.

The principal wants of the city are water works, a new court house, and the completion of the Toledo, Ann Arbor and Northern railroad. These enterprises have engaged the attention of its citizens from time to time during the past 10 years.

The successful water works and abundant supply of water at the university may bring about a solution of the problem of supplying at least the central and business portions of the city with water. The prospect of a new court house within another year is excellent. The citizens of Ann Arbor have already voted to raise $20,000, to be expended on the building, provided the people of the county at the special election of 1877 shall vote to raise $40,000 for the same purpose. There appears to be but little opposition to the project, and it will doubtless succeed.

When the financial troubles began in 1873 the bed of the railroad above named was nearly ready for the ties and rails from Ann Arbor to Toledo. The grading was mostly completed, the bridges all built and the ties delivered. The work stopped for want of funds, and through the failure of the directors to complete any arrangement for the iron and rolling stock. Nothing has since been done except that the entire property has been sold to its principal creditor at a public sale by order of the Court of Bankruptcy.

The completion of this road to Toledo would open another direct route to New York and other centres of trade and commerce, South as well as East, and the city would also be much benefited by having another line to compete with the Michigan Central railroad for freights. If this road was finished to Ann Arbor it would eventually be extended northward, and furnish direct communication with the Saginaw valley and the pine forests.

It is expected this road will be completed on the revival of business and the reappearance of good times, which seem near at hand. The road bed and all property belonging to the road can be purchased very cheap by any company, which will complete it and send the iron horse over its track.

Whitney B T, general store.
Woodman T J, justice of the peace.

## BATTLE CREEK.

The largest and most prosperous city of Calhoun county. It is located in the northwestern part of the county, at the junction of Battle creek with the Kalamazoo river. It is the point of intersection of the Michigan Central and the Chicago and Lake Huron railways, being 121 miles west of Detroit, 163 from Chicago, 45 southwest from Lansing and 13 west of Marshall, the county seat. The place was first settled about 40 years ago, was incorporated as a village in 1850 and as a city in 1859. The corporation is two miles square and is divided into four wards. The population, which has increased during the past two years, is now reckoned at 7,000.

Battle Creek is essentially a manufacturing point. Besides three flouring mills, an extensive patent fruit packing house and two furniture factories, there are the Nichols & Shepherd Manufacturing Co., builders of

**Culver, Page, Hoyne & Co.,** Pubs. of Blanks and Books for Railroad Cos., Nos. 118 & 120 Monroe Street, Chicago.

threshing machines, capital $300,000; the Battle Creek Machinery Co., capital $30,000; the Upton Manufacturing Co., agricultural implements, capital $100,000; two carriage manufactories, besides other manufacturing concerns in various branches.

Battle Creek is the headquarters of the Seventh Day Adventist denomination; and here they have a college building, costing $35,000, and a publishing house with a capital of $100,000, from which emanate several periodicals, besides tracts, books and pamphlets, printed in five different languages and circulating in all parts of the world. The Adventists are an exceedingly prosperous and happy people.

There are two banks, the First National, capital $100,000, and the City Bank, capital $50,000. The leading hotel is the Potter House, kept by Henry Potter. The Briley Hotel, formerly the Morse House, is a well kept hotel. The public halls are the Opera House, Centennial Hall and the City Hall. Battle Creek boasts of the finest school building in the State, its cost being about $80,000. There are some nine churches, the leading ones being the Congregational and Presbyterian, the Methodist, the Baptist, the Episcopal (St. Thomas), the Seventh-Day Adventists, the Catholic and the Dutch Reformed. There is also one daily newspaper, the *Journal*, and three weeklies.

The country around Battle Creek is moderately undulating with a good soil, producing wheat, corn and all kinds of fruit. Wool also is a staple product. These with flour and live stock, are largely exported; the shipments of apples alone for the past season being 50,000 barrels. The river and creek furnish a valuable water power. The American Express and the Wesern Union, Atlantic & Pacific and American telegraph lines have offices here. Stages run to Bedford daily, to Athens tri-weekly and to Nashville semi-weekly. Wm. Wallace, postmaster.

## BAY CITY.

ITS INCEPTION AND PROGRESS.

Bay City, the county seat of Bay county, is situated near the mouth of the Saginaw river, at the head of the Saginaw bay, and is a most remarkable example of rapid growth in a permanent direction. In 1837, Bay City was a hamlet, of but a half dozen buildings, of a temporary character. So late as 1859, the county of Bay was finally organized out of territory detached from Saginaw and Midland counties, comprising within its boundaries a population as shown by the government census of 1860, of but 1,519 souls, 700 of whom were residing in the village of lower Saginaw, or Bay City, which obtained its charter as a village in 1859.

At this time several saw mills had been established within the limits of the village, and upon the river banks contiguous to it. This industry combined with that of the manufacture of salt, has constantly increased, forming the foundation of that remarkable growth, which has culminated in giving to the city a population numbering in 1865, when the village was transformed by the Legislature into a city, of about 5,000 souls, which at the taking of the census of 1870 had increased to 7,064, nearly doubling in the succeeding four years From the most reliable data obtainable, we feel justified in claiming for 1877, a population of between 17,000

English Cassimeres, Our Own Importation, 1,800 Designs.
SOL. S. BATESON & BRO.

and 18,000. Unlike many other cities of rapid growth, its progress is still onward, and its increase of population so steady as to warrant the belief that the census of 1880 will show Bay City to rank third among the cities of Michigan, in point of population.

The city occupies the east bank of the Saginaw river, extending over a distance of nearly five miles, north and south, by an average depth of nearly two miles, east and west, covering a tract of fully 5,000 acres.

The business portions of the city are substantially built of brick. The public buildings and business houses being of a character which are excelled by those of but few of the older cities of the nation, in point of architectural beauty, and imposing solidity. The private residences partake in a goodly degree of the same characteristics. The city was originally laid out with all the streets running at right angles to each other, a system which has been adhered to in all subsequent additions of territory. The main avenues of the city are 80 and 100 feet in width, none of the streets being less than 60 feet, the blocks generally comprising twelve lots, of 50 feet by 100 feet each, an alley of 20 feet dividing the lots of each block. Several of the streets are improved with wooden pavement, the city owning the royalty of the Wycoff patent for paving, and having laid an aggregate of fully three miles of white cedar and pine blocks. The city is located on a plateau, high above the river level, affording ample drainage, as a result of which but few localities in the state can boast of greater healthfulness, or lower death rate.

### THE WATER WORKS.

The city is supplied with pure water, from the Saginaw Bay, four miles distant, by means of the Holly system of water works, the water reaching the pumps within the city limits by means of a conduit 30 inches in diameter, at an average depth of sixteen feet below the surface of the ground. It is then forced through 18½ miles of piping, traversing the streets of all the more thickly settled portions of the city; 16,500 feet of this pipe being of iron, and about 80,000 feet being of wood, strongly banded, a manufactory of which is established in the city. The cost of the system has been about $350,000.00, which comprises the great bulk of the city's indebtedness, bonds having been issued having from fifteen to forty years to run from their date and bearing interest at the rate of 8 per cent. per annum.

### STREET TRANSIT ROAD.

A street railroad, laid with T rail traverses nearly six miles of the water front of the city, operated by day with horses, and at night by a dummy engine transferring cars from the Flint & Pere Marquette Ry., and the Jackson & Lansing and Detroit branches of the Michigan Central R. R. to the various mills which line the river bank.

### BRIDGES.

Three bridges connect Bay City with the villages of Wenona and Salzburg on the west bank of the Saginaw river, one of which is a railroad bridge built by the Michigan Central R. R. Co.

### INDEBTEDNESS AND TAXATION.

The bonded indebtedness of the City at the close of 1876 approximated $421,000.00, divided as follows:

| | |
|---|---|
| Schools | $ 41 000 00 |
| Water works | 377 000 00 |
| Other bonds | 41 320 00 |
| Total, | $459 320 00 |

The assessment of city property for 1876 was: For real estate and personal, $1,718,175, while taxes were levied for city contingent, schools, highways, bonded interest and all other funds to the amount of $88,000,00.

Assessments are made upon a supposed basis of one-fifth the cash value of the property, but unquestionably it is in fact more nearly one-eighth, which would show a true valuation of fully $13,000,000.00.

### RELIGIOUS INTERESTS.

The religious interests of the city are represented by seventeen churches of the various denominations, nearly all of which possess comfortable church edifices, while several of them boast of edifices which will vie with those of any city in the land.

### SCHOOLS.

The schools of Bay City occupy seven school buildings, of which four are of brick, erected at a cost varying from $10,000 for the Ward schools to $75,000 for the High School building, the present valuation of school buildings being about $135,000. The school census embraces 4,400 scholars, of which number about 2,800 are in attendance on the schools. The expenses for the school year, embracing 1876–7 were $26,000.

### PUBLIC LIBRARY.

The city enjoys the advantages of a public library of 5,500 volumes, belonging jointly to the Board of Education, and an association of citizens. Efforts are now being made for obtaining an act of incorporation, placing the library under the charge of trustees.

### BANKS AND BANKING.

The city enjoys the financial benefits afforded by two National and two State chartered banks, with a combined capital of $750,000, beside surplus accumulations.

SECRET AND OTHER SOCIETIES.

The secret societies of the city consist of three lodges F. & A. M., one chapter Royal Arch, and one commandery K. T. Masonry, with a membership of about 600. The Odd Fellows have six lodges and one encampment; the Good Templars two lodges, while there are eighteen miscellaneous organizations of a public and private character, beside Co. D. 3d Regiment State Troops.

POLICE AND FIRE DEPARTMENT.

The city is guarded by one chief of police and nine patrolmen. The city Recorder acts as Police Justice, and has jurisdiction over all offences in violation of the ordinances of the city. The fire department consists of four hose companies, controlling about 6,000 feet of hose. The department consists of one chief engineer, with two assistants, one foreman, one driver, and five pipemen to each hose reel. The carts are handled by horses, and the department enjoys the advantages of 15 alarm boxes, connected with a complete system of Pond's patent fire telegraph.

MANUFACTURES.

The business of the city is at present principally confined to the manufacture of lumber and salt; the mills of the city having cut, in 1876, 236,000,000 feet of lumber, while the product of salt reached 500,000 barrels. Other manufactures are rapidly being introduced into the city, which, with the development of the farming interests of a fertile, surrounding country, give to the city fair prospects of a rapid and solid growth.

THE PRESS.

The press of the city consists of the Daily Evening Tribune (Ind., issuing a tri-weekly edition), the Weekly Chronicle (Rep.), Weekly Observer (Dem.), the Michigan Odd Fellow, semi-monthly; the Lumberman's Gazette, weekly, and the "Growler," weekly, with no particular end or object.

**Parsons Chester,** Lumber Dealer.

## BENTON HARBOR.

A thriving village of 1,500 inhabitants, located at the mouth of the Paw Paw river, on Lake Michigan. It is the center of the great fruit growing district, and the most important fruit shipping point on the lake; 200,000 basket of peaches, 150,000 crates of berries, and 50,000 barrels of apples, having been shipped during the season of 1876. The village is situated in Benton township, Berrien county, and is on the C. & M. L. S. R. R., 16 miles northwest of Berrien Springs, 23 north of New Buffalo, 60 by water, or 100 by rail from Chicago. Excellent water power is afforded by the Paw Paw river, applied to 1 flouring mill, 1 saw mill, and 1 bung factory. The place has also one wash board factory, three fruit package factories, one canning factory, and an Alden fruit evaporator. The neighboring country embraces one of the most productive and densely populated portions of the state, abounding in excellent timber for building or manufacturing purposes. There are 3 handsome churches, representing the Baptist, Methodist and Universalist denominations, a fine union school building, and numerous tasteful private residences. A ship canal, costing $50,000, and other public works are evidences of the enterprise and culture of the citizens. Telegraph, Western Union. Express, American. A steamboat runs to Chicago daily during the season of navigation. J. P. Thresher, postmaster.

## BERTRAND.

A village of 300 inhabitants, on the St. Joseph river, in the township of Niles, southeast corner of Berrien county, 3½ miles due south of the city of Niles, and 15 south of Berrien Springs, the county seat, on the road to South Bend. The South Bend branch of the M. C. R. R. passes through Bertrand. It is in a good farming country, grain and potatoes being the staple products. An extensive brickyard is carried on here, and brick forms the leading article of shipment. It takes its name from Joseph Bertrand, a Frenchman who settled here at an early day. No intoxicating liquors are sold in Bertrand. Mail, daily. D. C. Higbee, postmaster, brick manufacturer and grocer.

ABSTRACT of TITLES

WILL BE FURNISHED ON SHORT NOTICE.

Examinations made and Conveyancing attended to Promptly, by

WILLIAM H. MARSTON,

*Register of Deeds for Berrien County,*

BERRIEN SPRINGS, - - MICHIGAN.

Hertzer J August, physician.
Hubbard Seth, blacksmith.
Kirby David, wagonmaker.
Rogers Benjamin, lumberman.
Thompson Jonathan, hotel propr.
**Utley Wm S,** Notary, Land and Insurance Agent.
Webster James M, physician.

## BIG RAPIDS.

A city of 3500 inhabitants, and one of the most important lumber markets in northern Michigan, is the county seat of Mecosta county. It is located on the Muskegon river, 56 miles north of Grand Rapids, 102 northwest of Lansing, and 12 south of Reed City, and is reached by the G. R. & I., the Big Rapids branch of the C. & M. L. S., and the J. L. & N. railroads. The site on which the city stands, with a large tract of land adjoining it, was purchased from the government in 1854, by Frederick Hall, of Ionia; and in 1855, George B. Warren and Chauncy P. Ives, of Troy, N. Y., bought the site, and platted it in 1859 as the village of Big Rapids.

The village grew rapidly until in 1869 it was incorporated a city by the Legislature. The corporation extends over an area of 6 square miles and contains excellent farming lands lying high and dry on both

BUILDERS, SEND FOR ESTIMATES TO
D. A. ROSS & CO., 70 Franklin St., Detroit.

sides of the river which runs diagonally through the city in a southeasterly course and furnishes a water power second to none in the State. Mitchell creek enters the corporation on the west, and empties into the river a little above the center of the city.

Aside from its extensive manufactories of lumber, lath, shingles, etc., Big Rapids has a large iron works, manufacturing castings, machinery, etc., a large furniture factory, a saw manufactory and other industries. The churches are Baptist, Catholic, Episcopal, Methodist and Presbyterian, the latter costing $12,000, is a beautiful edifice.

The Exchange bank was organized in 1867, and incorporated in April, 1871, with an authorized capital stock of $150,000.

The Northern National Bank was organized in June, 1871, with a capital stock of $75,000.

Two weekly newspapers are published here, the *Pioneer Magnet* and the *Big Rapids Herald*.

There are several hotels, of which the Mason House, the Montreal House, the Europe and the Pacific are among the best.

The city is supplied with water for fire protection and private use by means of the Holly water works, put in by the city in 1871, at a cost of $65,000.

Nearly all branches of trade and industry are represented, and the city is surrounded by a rich country, with many old and well improved farms.

Both the American and United States Express Companies have offices here.

The Western Union Telegraph Company and the G R & I R R Co's line furnish telegraphic facilities. Charles D. Crandell, postmaster.

R., its shipping point. It has one saw mill; and lumber is the only shipment. Population about 30. Mail once a week. Rufus J Carpenter, postmaster.

BUSINESS DIRECTORY.

Brender J, lumber mnfr.
Carpenter R F, hotel propr.
McClure D E, teacher.
Rasen Rev F (Union).

## BIRMINGHAM.

The locality in which Birmingham is situated was first settled in 1819, but it was not until several years later that the embryo settlement assumed the form of a village. It is situated on the D. & M. R. R., in Bloomfield township, Oakland county, 18 miles northwest of Detroit, and 8 southeast of Pontiac, the county seat. The surrounding country comprises a splendid agricultural and stock raising region, from which grain, apples, cattle, sheep and hogs are shipped. The manufactures are a grist mill and a foundry. It has Baptist, Methodist and Presbyterian churches, a good graded school with five teachers, a neat soldiers' monument, a lodge of Grangers. Stages run tri-weekly to Franklin and Southfield. Telegraph, Western Union. Express, American. Birmingham was incorporated in 1865, and has a population of 700 or more. It is on the river Rouge, but is without water power. Mail, daily. J. Allen Bigelow, postmaster.

BUSINESS DIRECTORY.

Baldwin John, blacksmith, Mill.
Beattie James O, livery stable.
Bigelow J Allen, grocer, insurance and express agent.

Nos. 118 & 120 Monroe Street, Chicago.

## BLACKMAR.

A postoffice and flag station on the F. & P. M. Ry., in Taymouth township in the southeastern part of Saginaw county. It has a saw and a shingle mill, the products of which form the only shipments. About fifty families obtain their mail here. Distance from East Saginaw, 12 miles; from Detroit, 93 miles. Mail daily. Levi Bronson, postmaster.

## BLACK RIVER.

A station on the C. & M. L. S. R. R., 65 miles above New Buffalo, and 4 north of Grand Junction the crossing of the K. & S. H. R. R.

## BLAIR.

A settlement and postoffice in the town of Castleton, Barry county, 5 miles due north of Nashville, its nearest railroad shipping point, to which a stage runs 4 times a week, and 30 miles from Lansing. It is in a farming country, the staples of which are wheat and corn. Maple sugar, wood and wheat are shipped. Mahlon L. Cooper, postmaster.

## BLENDON.

A postoffice in the southeastern part of Ottawa county, 23 miles from Grand Haven, the county seat and 7½ from Jennisonville station on the Grand Rapids branch of the C. & M. L. S. R. R. Mail, semi-weekly. Angus McDonald, postmaster.

## BLISSFIELD.

This village is situated on the river Raisin, by which it is divided into nearly equal parts, in the township of Blissfield, Lenawee county, 10 miles southeast of Adrian, the county seat, 22 miles northwest of Toledo and 65 from Detroit. It is on the main line of the L. S & M. S. Ry., 2 miles east of the crossing of the Chicago and Canada Southern. The river here affords water power for 1 grist and 1 saw mill, the balance of the manufactories being run by steam. These consist of 1 flouring mill, 1 stave factory, 1 saw mill, 1 tobacco factory, 1 handle factory, 1 foundry and machine shop, furniture factory, carriage shops. The *Blissfield Advance*, a weekly paper, is published. The public buildings consist of 2 good halls, 2 churches—Methodist and Presbyterian—and 2 good graded schools. Some fine business blocks and dwellings have been erected, a fire department organized, a steam engine purchased and an engine house provided during the past two years.

Blissfield claims to have the finest half-mile training race course in the State. The adjacent farming lands are of excellent quality and adapted to the various crops common to this portion of the State. Staves, broom handles, barrels, lumber, grain and fruit form the principal shipments. Population about 2,000. Telegraph, Western Union. Express, American and United States. J. R. Stearns, postmaster.

## BRYAR HILL.

A station on the Chicago & Canada Southern R. R., 10 miles west of Trenton. There is no postoffice there.

## BUCHANAN.

The most extensive manufacturing town in Berrien county, is pleasantly located on the M. C. R. R., in the township of Buchanan, 6 miles west of Niles, and 87 east of Chicago. It has a population of about 2,800. The surrounding country, which comprises excellent agricultural lands, is adapted to the growth of every class of farm products, especially fruit. The McCoy creek and the St. Joseph river forming a junction here, afford a good water power. The manufacturing interests include Day & Rough's wagon works, employing 80 hands; the Buchanan Manufacturing Co., Black & Willard's and Charles S. Black's extensive furniture factories, Rough & Pear's flouring mills, the Zinc Collar Pad Co., the only manufacturers of the kind in the country. There are also 3 saw mills, 1 foundry and machine, and several other manufacturing interests. The public school building, which is one of the finest in the State, was erected at a cost of $40,000, and is located in a beautifully shaded inclosure of 6 acres. Buchanan has 6churches—2 Adventists, 1 Christian, 1 Methodist, 1 Presbyterian, and 1 United Brethren. The First National Bank was organized in 1872, with a cash capital of $50,000 and a liberal surplus. The aggregate business done by this institution in 1876 was over $6,000,000. Many of the private residences are models of elegance and refined taste. The Berrien County Record, published by John G. Holmes, and the Himes Journal (monthly), are the local papers. Telegraph, Western Union. Express, American. Norris H. Merrill, postmaster.

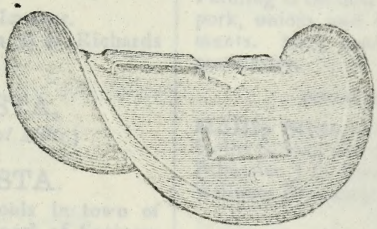
# ZINC COLLAR PAD COMPANY,

Sole Proprietors and Manufacturers of

# Curtis' Patent Zinc



# COLLAR PAD

**Warranted to prevent Chafing, and to cure the worst cases of Sore Neck, the Medicinal and Cooling Properties of the Zinc Metal being a sure Guarantee against Chafing.**

## MANUFACTORY,

## BUCHANAN, - MICHIGAN.

**Communications will receive Prompt Attention.**

THE ZINC COLLAR PAD is fully warranted to cure any chafed or galled neck, if directions for use in the hands of dealers are followed.

They must be kept clean by scouring the part that wears on the animal's neck, whenever they become coated over with matter from the sore, or with sweat and dirt. Ashes, fine sand or anything that will clean them without scratching will answer. They must also be "COVERED" over the "TOP" with "CLOTH" or "LEATHER" sufficient to fully SHADE them. These directions are indispensable in the use of the pad.

The medicinal virtue of the Zinc is lost if coated over with other matter, and they become heated when exposed to the rays of the sun.

The chemical action of sheet Zinc, with the acid and saline constituents of moist sores, results in a mild astringent, acting more speedily on the edges of the wound, and by its smooth surface and cooling tendency, quickly produces a cure.

An American surgeon in Europe, in speaking of the treatment of the wounded with ZINC FOIL in the French and German hospitals during their war, says the result from this mode of treatment seemed perfectly marvelous, leaving always a clean, healthy, granulating surface. The Zinc seems to act through the oxide which it forms in contact with pus, and exerts a most healthy influence upon the wound. These are facts, and stubborn things. This, with five years' experience, and the use of over a million of our Zinc pads, have fully demonstrated that Zinc has no equal in Metal in safe, curative properties on the horse. There can be no danger with Zinc on the most irritated sores, while there is with other soft metals. And we are safe in saying, very few things ever met with such general favor, or gave such general satisfaction, until they have become a standard article of Saddlery Hardware, and are kept for sale by most of the leading Saddlery Houses in the United States, taking the place of all substitutes that have been brought out to compete with them. All we ask is, that horsemen favor us by following the directions for use. We fully warrant the rest.

N. B.—NO TERRITORY FOR SALE.

**Calkins Burton,** General Store.
Drice George, hotel propr.
Robinson Rev John R.

## CALUMET.

A large mining village, located at the site of the famous Calumet & Hecla mine, in Calumet township, Houghton county. It is reached from Hancock by the Mineral Range railroad, being 13 miles distant. Another railroad, 5½ miles long, belonging to the mining company, connects it with Torch Lake. The village has a population of about 4,000, nearly the whole of whom are directly or indirectly connected with the mine. The streets are straight and wide, and the buildings, mostly of wood, are neat and attractive. For so large a place there are but few stores, shops or factories. There are five churches, Catholic, Congregational, Finnish, Lutheran and Methodist, and a large and handsome union school of brick and stone, capable of accommodating some 1,200 children, has been erected by the munificence of the mining company.

The mine, the richest in the world, is worked in a vein of conglomerate, dipping to the west at an angle of perhaps 38°. The vein is eight or ten feet in thickness, and is uniformly productive. Eight shafts penetrate the vein to a depth of some 1,500 feet; the different shafts being connected by galleries or levels. Work is prosecuted night and day, and about 1,800 hands are employed. The machinery used for elevating the oar to the surface and crushing it, and for pumping and condensing air for the drills, is all on an immense scale and of the most perfect description. The oar is carried by rail to Torch Lake, where are located the extensive stamps of the company. The product of the mine for the past year amounted to the enormous aggregate of 13,200 tons, approximating in value $5,000,000, and there is no falling off in the product possible for years to come. The capital of the company is nominally $2,000,000; but the $25 shares sell readily in the market at from $120 to $160 each. The general superintendent of the mine is Mr. J. N. Wright, a gentleman of great executive ability.

The Mineral Range Telegraph Company affords telegraphic facilities. Express, American. A. T. Streeter, postmaster.

## CARSON CITY.

A rising village of 1,000 inhabitants, in Bloomer township, in the southeast corner of Montcalm county. It is 20 miles southeast of Stanton, the county seat, 13 north of Pewamo, its shipping point on the D. & M. R. R., and is on the line of the proposed Marshall, Coldwater & Mackinac R. R. Water power is derived from Fish creek; and flour, lumber, shingles, barrels, doors, sash, oars and siding are manufactured. These with farm products form considerable shipments. Carson City has 3 churches, Adventist, Baptist and Congregational, and a graded school, 2 banks and 1 weekly newspaper. Principal hotel, the Exchange. It was settled in 1864 and is improving rapidly, upwards of 50 good, substantial dwellings

# The Tuscola Advertiser,

CARO, TUSCOLA CO., MICH.

A thirty-two column paper, published every Thursday, at the county seat of Tuscola County, a lively commercial center. The most paying subscription list, the best and lowest advertising medium found among the country papers of the State.

THE REPRESENTATIVE PAPER OF TUSCOLA COUNTY.

H. G. CHAPIN, Proprietor.

having been erected during the past two years. Express, American. Stages to Pewamo and Hubbardston daily. E. C. Cummings, postmaster.

## CASSOPOLIS.

A flourishing village of 1,000 inhabitants, is the county seat of Cass county. It is located in LaGrange township, nearly in the center of the county, and has excellent railroad facilities, being at the intersection of the Air Line division of the M. C. and the C. & L. H. lines. It is 14 miles east of Niles, 37 southwest of Kalamazoo, and 89 west of Jackson. It has no water power, though there is an abundance of water near by, the village being located just on the bank of Stone lake, and only one mile west of a beautiful sheet of water known as Diamond lake. In the center of this lake is a cosy little island, a favorite locality for picnics, etc. This lake and islands are also rapidly becoming a popular summer resort. A planing mill, a foundry and machine shop, and a wooden bowl factory constitute the manufacturing interests. The churches are 3—Baptist, Methodist and Presbyterian. These, with a good wooden Union school house, and the county buildings, embracing a wooden court house, a brick jail, and fireproof offices, constitute the public buildings. Two weekly newspapers are published here —the National Democrat, owned by C. C. Allison, and the Vigilant, by Shepard & Mansfield. The first settlement was made here in 1829. In 1832 the place became the county seat, but its isolated position kept it in the back ground until the completion of its two railroads in 1870, since which it has enjoyed a healthy growth. Telegraph, Western Union. Express, American. Mail, from all points, daily. Joseph Harper, postmaster.

## CEDARVILLE.

A village in Menominee county. (*See Cedar Forks.*)

## CENTRAL LAKE.

A postoffice in Central Lake township, Antrim county, 27 miles northeast of Elk Rapids, the county seat, and about midway between Traverse City and Little Traverse. It is situated on Intermediate lake. The country is rolling, the soil good and some of the finest scenery in the State is here enjoyed. Wheat, corn, oats and potatoes are cultivated, and lumber, hoops and nursery stock are shipped. Central Lake has a weekly mail. Stage to Mancelona, Traverse City and Boyne Falls. James M. Wadsworth, postmaster.

Culver, Page, Hoyne & Co., Retail Stationers,
118 & 120 Monroe Street, Chicago.

BUSINESS DIRECTORY.

Green Prof Caleb, teacher.
Johnson Wm W jr, farmer and printer.
Vinton ——, general store.
Wadsworth James M, lumber mnfr.

## CENTRAL MINE.

A village at the location of the Central mine, in the town of Sherman, Keweenaw county. It lies 7 miles back from Eagle River, the county seat, and 5 miles frem Eagle Harbor. The place was first settled in or about the year 1857, and now numbers a population of about 1,000. Copper mining is the leading industry of the place. The ountry around is slightly broken and heavily timbered. Hay and potatoes are the principal agricultural productions. Copper alone is shipped. The production of the Central mine for 1875 was about 1,150 tons, and it was surpassed in product only by the Calumet and Hecla and the Quincy mines. Ship by water to Eagle Harbor. Its nearest railroad point is Calumet. T. B. Dunstan, postmaster.

## CENTRE.

A small village, locally known as Hoyt's Corners, in the township of Roxand, northern part of Eaton county, 15 miles northwest of Charlotte, the county seat, 9 south of Grand Ledge, its railroad point on the D. L. & N. R. R., and 110 from Detroit. Settled, 1837. Population, 100. Country level and soil productive. Wheat, corn, butter and eggs are shipped. Mail, weekly. Henry A. Hoyt, postmaster.

BUSINESS DIRECTORY.

Hallenback & Crane, general store.
Hallenback & Sadler, sawmill.
Hoyt H A, physician.
Hoyt H A & Son, general store.
McCormick A D, teacher.

## CENTREVILLE.

Delta county. (*See Lathrop.*)

## CENTREVILLE.

The seat of justice of St. Joseph county, is situated in the township of Nottawa, on the Air Line division of the M. C. R. R., 6 miles east of Three Rivers, 75 south of Grand Rapids, and 64 west of Jackson. The first settlement dates from 1830, and the village expects a charter of incorporation during the present spring (1877), it contains a population of about 1,000, and is a pleasant and healthy town.

Hog creek, or Prairie river, as it is interchangeably called, affords a passable water power, susceptible of greater improvement.

The manufacturing enterprises consist of the Centreville Knit-Goods Manufacturing company, a grist mill, a saw mill, 2 foundries, and a cabinet shop. The public buildings consist of a fair wooden court house, brick fire proof offices, and a good brick jail. 4 churches represent the Baptist, Methodist, Reformed and United Presbyterian denominations, the first being a neat brick structure. The school building is of brick, and cost $22,000. A weekly newpaper, the *St. Joseph County Republican*, of which H. Egabroad is proprietor, is published. Leading shipments, wheat, corn, flour, peppermint oil and fruit. A stage runs to Nottawa, 4½ miles east daily. Telegraph, Western Union. Express, American. Mail, daily. Henry C. Campbell, postmaster.

## CHADWICK.

A village of 130 inhabitants, on the Detroit, Lansing & Northern railroad, 51 miles northwest of Lansing, 136 from Detroit, and 8½ southeast of Greenville. It is in Orleans township, Ionia county, 13 miles from the county seat, and is within a mile of Flat river, but is substantially in a farming region. Settled, 1844. Mail daily. Charles Chadwick, postmaster.

BUSINESS DIRECTORY.

Blakeslee George, blacksmith.
**Chadwick Charles,** Grocer and Railroad Agent.
Hurlbutt Alfred, carpenter.
Spencer J R, general store.

## CHAMPION.

A mining village of some 600 inhabitants, in the township of Ely, Marquette county, 31 miles west of Marquette, and 460 by water from Detroit. It is on the Marquette, Houghton & Ontonagon railroad, and is near the head of the beautiful lake Michigamme. The Champion hot blast furnace, owned by the Morgan Iron Company, and burnt in 1874, was located here. It has not yet been rebuilt. The Champion Mine, owned by the Champion Iron Company, is located a mile south of the village. It is doing well. The company having shipped an annual average of about 65,000 tons of ore for the last six years. The Keystone mine is just east of the Champion, the total product of this mine for three years has been 19,000 tons. Hay, oats, potatoes and vegetables are cultivated, but iron and ore are the only shipments. The village has a Roman Catholic church and graded school. Settled, 1868. Telegraph, North Western. Express, American. Mail daily. Christopher A. McRae, postmaster.

## CHAPIN'S CROSSING.

Ingham county. (*See Eden.*)

## CHAPPLE'S CORNERS.

A postoffice on the Big Sauble river, in Victory township, Mason county, 14 miles northeast of Ludington, the county seat, and about 260 from Detroit. Some farming is carried on here, but lumbering is the chief pursuit; and lumber, tan bark and wood are the only exports. Settled, 1864. Population about 25. Stage to Ludington and Manistee daily, and daily mail. Edmund C. Chambers, postmaster.

BUSINESS DIRECTORY.

**Chambers E C,** Justice of the Peace and Physician.
Elliott John, carpenter.
Jeffers C T, justice of the peace.

# St. Joseph County Republican,

*H. EGABROAD, Editor and Proprietor.*

The only paper published at Centerville, the County Seat of St. Joseph County, Michigan. It has the largest circulation in the county. Advertising done at reasonable rates. Established in 1869. Particular attention given to all kinds of

JOB WORK.

Pardee, Cook & Co, lumber mnfrs and general store.
Sprague G H, carpenter.
Wiant Rev James (Methodist).

## CHARLESTON.

Delaware township, Sanilac county, is a settlement of 50 population, begun in 1855. It is 4 miles back of Forestville, its shipping point on lake Huron, to which it has a semi-weekly stage line, and is 32 miles north of Lexington, the county seat. A flouring mill and a saw mill are located here. Exports, flour, wheat, cordwood, cedar posts and lumber. Mail, semi-weekly. Thomas L. Ward, postmaster.

BUSINESS DIRECTORY.

Ball Moritz, shoemaker.
Harrison H H, flouring mill and justice of the peace.
Hartz John, tailor.
Mahon George, carpenter.
Marriott Alfred, engineer.
**Ward Thomas L**, General Store and Saw and Grist Mills.

## CHARLESWORTH.

A postoffice in Hamlin township, Eaton county. It is on the Lansing division of the L. S. & M. S. R'y, 22 miles southwest of Lansing, and is 14 southeast of Charlotte, the seat of justice, and 5 south of Eaton Rapids. Settled, 1873. Population, 50. It has one saw mill and a stave factory. Shipments, lumber, staves, wheat and fruits. Mail, daily. Alfred Barber, postmaster.

BUSINESS DIRECTORY.

Bowman Wm, blacksmith.
Harris David, cooper.
**Loomis J W**, General Store.
McCarthey Timothy & Brother, tinners.
Snyder B B, mason.
Toles W M, saw mill.

## CHARLEVOIX.

The county seat of Charlevoix county, is situated on the shore of lake Michigan at the entrance to Pine lake, about equidistant between Traverse City and Mackinac. It is in Charlevoix township, in the extreme western part of the county, 16 miles west of Petoskey, its nearest approach. Charlevoix was settled in 1866, and has a population of 500. Among its interests are one or more sawmills, 2 churches—Methodist and Presbyterian—a weekly newspaper—The Sentinel—a hotel, and several stores. Wood, bark and lumber are the chief shipments. During the season of navigation steamers of Buffalo and Chicago lines touch here several times a week. A stage runs to Petoskey daily, affording a daily mail. Telegraph, Western Union. Willard A. Smith, postmaster.

Tilden Rev William L (Methodist).
Wood Rev George W (Presbyterian).
Wood James E, saddles and harness.

## CHARLOTTE.

Charlotte is a city of 3,000 inhabitants, situated in the center of the county of Eaton, one of the most flourishing counties in the State, of which it is the seat of justice. It is built upon a beautiful prairie skirted with woods, a lovely spot, and the

"Loveliest village of the plain."

The Grand Rapids Division of the Michigan Central R R, crosses the Chicago & Lake Huron R R, at this point, affording competition in traffic both east and west. No finer stores are to be found in any city of its size in the west, and its business men are live, active and thriving.

Charlotte has 2 excellent hotels, 2 banks, 2 newspapers—the *Republican* and *Leader*—5 churches, excellent school buildings, and some fine residences. In the manufacturing line it has two flouring mills, a large handle factory, which has also recently commenced upon an extensive scale the manufacturing of Willard's patent double stave barrels. The Charlotte Manufacturing Company, with a capital of $25,000, do an immense business in manufacturing staves. The Gipson fanning mill is also made here. There

Culver Page, Hoyne & Co., Wholesale Stationers,
Nos. 118 & 120 Monroe Street, Chicago.

are three foundries and machine shops, and three extensive planing mills and sash, door and blind factories. The city has also a valuable public circulating library, managed by an efficient board of directors, and generously patronized by the people. The Eaton County Agricultural Society grounds are within the city. They are nicely arranged and one of their most marked features is a grove of about ten acres through one corner of which flows Battle Creek river. The county jail, situated here, is the admiration of all who see it.

Charlotte became a city in 1871, and elected Hon. E. S. Lacey its first mayor, to whom it is much indebted for the excellence of its governmental regulations. During that year many public improvements were made, and the like have steadily increased to the present time. It has a steam fire department and one of Silsby's third size engines, and one of the most expensively uniformed and well trained cornet bands in the State.

No healthier place can be found and its inhabitants are moral and cultivated.

The Western Union Telegraph and American Express furnish telegraph and express facilities. F. E. Leiter, postmaster.

## CHASE.

The former county seat of Lake county, is a village of 200 inhabitants, situated on the Marquette river and on the F. & P. M. R'y. It is 12 miles east of Baldwin City, the county seat, 40 east of Ludington, and 148 from Detroit. Chase was first settled in 1860, and contains 2 saw mills, a Congregational church, and a good public school. The country around comprises fine beach and maple lands, adopted to the usual grain and root crops of northern Michigan. Lumber, shingles and some farm products are shipped. Mail, daily. N. Clark, postmaster.

BUSINESS DIRECTORY.

Hall Rev —— (Methodist).
Joiner C W & Son, general store and saw mill.
Messenger William, blacksmith.
**Mullen S F,** Boots and Shoes.

## CHEBOYGAN.

The county seat of Cheboygan county, is situated on the south shore of the straits of Mackinac, at the mouth of the Cheboygan river, where there is a good harbor and steamboat dock. The river is spanned by a draw-

Culver, Page, Hoyne & Co., Counting House Stationers,
Nos. 118 & 120 Monroe Street, Chicago.

bridge, and by slack water, by means of a lock having a rise of 10 feet, is made navigable for over 30 miles, connecting Mullet and Burt lakes with the straits of Mackinac. It will be the northern terminus of the J. L. & S. R. R. when the latter is completed, and will no doubt become a place of considerable importance The first settlement was made here in 1846, and the place incorporated in 1871. Present population about 2,500. It has 6 sawmills, cutting annually 50,000,000 feet of lumber, 2 shingle mills, 1 foundry and machine shop, 1 planing mill, 1 furniture factory, 1 grist mill, and 1 handle factory. There are 3 handsome churches, a $10,000 Union school building, several hotels —the Spencer House being the principal one. Two weekly newspapers—the Cheboygan Free Press and the Northern Tribune—are published. Lumber, lath, shingles, broom handles, hemlock extract, and fish are shipped. Telegraph, Western Union. Express, McClure & Co.'s. Mail, tri-weekly. A boat during the season of navigation plies between Cheboygan and Mackinac. Cheboygan is becoming one of the most fashionable summer resorts on the lakes. Calvin A. Brace, postmaster.

## CHELSEA.

This village is situated on the M. C. R. R., 17 miles west of Ann Arbor, 21 east of Jackson, and 56 west of Detroit. It is in the township of Sylvan, Washtenaw county, in a fine region of farming country, of which wheat is the staple. It has no water power, but manufacturing is fairly represented by a foundry and machine shop, a large brick and tile factory, a planing mill, a barrel and stave factory, a cider mill, a pump factory, a marble factory, a carriage shop and some others. There are five church buildings, representing the Baptist, Catholic, Congregational, Lutheran and Methodist denominations. A Union school, under the management of Prof. J. K. Davis and 5 assistants, is in successful operation. The *Herald*, a weekly newspaper, under the management of A. Allison, is published here. Telegraph, Western Union. Express, American. Mail daily. George J. Crowell, postmaster.

*H. G. Hoag, Proprietor,*

CHELSEA, - - - MICHIGAN.

Good Sample Rooms on First Floor. This House is located in the business portion of the town, convenient to the Depot. Rates Reasonable.

## CHESANING.

A flourishing lumbering village on the Shiawassee river, also a station on the Saginaw division of the M C R R, in Chesaning township, Saginaw county, 15 miles north of Owosso, 21 south of Saginaw and 100 from Detroit. The river affords good water power at this point. A grist mill, saw mill, shingle and planing mill and a stave factory comprise the industries. There are three churches, Methodist, Lutheran and Evangelical, and two public schools. The surrounding country is largely devoted to agriculture, the timber having been cleared off for a circuit of 10 to 12 miles, the soil is a sandy loam and is very productive. Lumber, staves, hoops, grain and general farm products are shipped away. Incorporated as a village 1871. Population about 1000. Telegraph, Western Union. Express, American. Mail daily. Thomas L. Greene, postmaster.

## CLINTON.

A village of about 1000 inhabitants, located in the northern part of Lenawee county, on the Jackson branch of the L. S. & M. S. railway, 15 miles from Adrian and 29 from Jackson. The river Raisin runs through the village, and furnishes good water power. The manufacturing interests are represented by an extensive woolen mill, a flour mill, a planing mill, a foundry, a cider mill and several wagon and carriage shops. It has a good school, and 5 churches of the following denominations: Baptist, Catholic, Congregationalist, Episcopal and Methodist. The principal shipments are fruit, grain and wool. Express, United States. Samuel B. Rose, postmaster.

Haynes C, general store.
Niles D, blacksmith.
Niles R, boots and shoes.
Pharis M D, millwright.
Pharis William, carpenter.
**Phillips J E,** General Store.
Van Culbrock A, boilermaker.

## COLDWATER.

The county seat of Branch county, is, with the exception of Adrian, the largest town in Michigan on the line of the L. S. & M. S. Ry. It is 132 miles west of Detroit, 155 east of Chicago, and 65 southwest of Lansing.

The first house was built in 1829, and the town laid out in 1832, under the name of Lyons, which was in the following year changed to Coldwater. The L. S. & M. S. R'y was completed to this point in 1851, and it became the county seat in the same year. It was incorporated as a village in 1837, received a city charter in 1861, and now has a population of 7,000.

The city is located on a rich, level prairie, and with its fine public buildings and beautiful private residences, made more attractive still by nicely laid out and well-worked streets, will pass for one of the pleasantest towns in Michigan.

It has been built up and derives its support from the rich farming country that lies about it. Wheat, corn, live stock, and wool are staples for which Coldwater is a noted market. The manufactures are agricultural implements, wheelbarrows, staves, windmills, furniture, sash, doors, blinds, window shades, cigar boxes, etc. There are three foundries and three flouring mills, and numerous smaller industries.

Two weekly newspapers are published here, the *Republican* and the *Reporter*. There are 2 national banks and 1 private bank, 7 churches—Baptist, Catholic, Episcopal, Presbyterian, Methodist Episcopal, Wesleyan Methodist, and Lutheran. The city is lighted with gas, has good hotels, and a spacious public hall.

Culver, Page, Hoyne & Co., Publishers of Blanks and Books for Banks,
Nos. 118 & 120 Monroe Street, Chicago.

The greatest attraction of Coldwater is the art gallery of the Hon. Henry C. Lewis, on which he has expended in pictures and statuary alone some $75,000. With the buildings, his outlay has not fallen much, if any, below $100,000. It is open only on Saturdays, when the public are invited from far and near, to visit it without charge.

No philanthropic citizen, however, should visit Coldwater without paying a visit to the State Public School recently established here. This school was founded by the State for the care and education of the children who had previously been brought up in wretchedness in the various county poor houses. It has a capacity for 150 pupils. Proposals for the enlargement of its capacity are already under consideration. The institution cost $100,000.

Coldwater has stage communication with Union City and Girard daily, with Fremont, Ind., and Kinderhook tri-weekly, and with East Gilead and Bethel weekly. Telegraph, Western Union. Express, United States. Mail, daily. Julius S. Barber, postmaster.

## COLON.

A village having about 500 inhabitants, located on the air line division of the M. C. R. R., in the township of Colon, St. Joseph county. It is 12 miles east of Centreville, the county seat, an equal distance west of Union City, and 53 west of Jackson. A good water power is furnished by Swan creek, the outlet of Palmer lake, which lies just to the southeast of the village. The soil of the surrounding country is a rich, sandy loam. The manufacturing enterprises consist of a large flouring mill and a saw mill driven by water power, and 2 foundries, 2 steam planing mills, a tannery, a barrel factory, an Alden drying establishment, and some others. The Baptists and Methodists each have organizations, but the former only have a church building. The school facilities are excellent, embracing a commodious Union school building, with three teachers. Wheat, pork, wool, clover seed, apples, butter, eggs, etc., form considerable shipments. Settled 1831. Telegraph, Western Union. American express. Mail daily. Edward C. Wellesley, postmaster.

Wonsey Henry, meat market.

## COLUMBIA.

A small place on the South Haven division of the M. C. R. R., in Columbia township, Van Buren county, near its northern line. It is 1 mile east of Grand Junction, and 4½ from Breedsville. There is a saw mill here, but the place is at present without postal facilities. It is also known as Saddle Lake.

## COLUMBIA.

A small village of perhaps 150 inhabitants in Columbia township, in the southeast part of Jackson county, 3 miles due west of Brooklyn the nearest shipping point.

## COLUMBIAVILLE.

A village and station on the Bay City division of the M. C. R. R., in Marathon township, Lapeer county, 10 miles northwest of Lapeer court house, 18 northeast of Flint, and 70 from Detroit. The settlement was established in 1857. Present population about 400. Flint river affords abundant water power, utilized by 1 saw mill, and 1 flouring mill. These with a steam planing mill constitute the manufacturing interests. Grain and lumber are shipped. Telegraph, Western Union. Mail, daily. D. G. Lawrence, postmaster.

## CONDIT.

A station on the Lansing branch of the L. S. & M. S. Ry., 4 miles south of Albion. It is in Albion township, Calhoun county, and has no postoffice.

## CONGER.

A station on the G. R. & I. R. R., 3 miles above Howard City, and 38 north of Grand Rapids. It is in the northwestern corner of Montcalm county.

## CONNER'S CREEK.

A small settlement on the Gratiot road, 6 miles northeast of Detroit. It is in the township of Grosse Point, Wayne county, and takes its name from a small stream which flows into the Detroit river just above the city of Detroit, at the crossing of which stream it is situated. The locality was first settled about 1832. (For business directory see index to names received too late for insertion in proper place).

## CONSTANTINE.

One of the oldest villages in southern Michigan, is situated at the confluence of the Fawn and St. Joseph rivers, in the southwestern part of St. Joseph county. It is a station on the Kalamazoo division of the L. S. & M. S. railway, 4 miles north of White Pigeon, 8 south of Three Rivers, and 10 southwest of Centreville, the county seat. The settlement was begun in 1828, and the village, which is incorporated, now claims a population of 2000. The surrounding country is fine, and the general features of the town are very good. Both rivers furnish excellent water power, that of the St. Joseph being equal to any in the state. The present manufactories are two flour mills, a saw mill, a furniture and a chair factory, a foundry and machine shop, and two carriage and wagon shops. One of the finest school houses of southwestern Michigan may be seen here. It cost some $32,000, and gives employment to one principal and 6 assistant teachers. The other public buildings are 4 churches, Methodist, Presbyterian, Lutheran and Reform. There are two good hotels and 2 newspapers, The *Weekly Journal*, Wm. A. DeGroot & Co., publishers, and the St. Joseph County *Advocate*, of which L. T. Hull has been editor and proprietor for over a quarter of a century. Express, United States. Telegraph, Western Union. Mail, daily. T. H. Calam, postmaster.

## CORNELL.

Ionia county. (*See Sebewa*).

## CORNING.

Isabella county. (*See Broomfield*).

## CORUNNA.

An incorporated city of 1,500 inhabitants, is the county seat of Shiawassee county. It is situated on the D. & M. railroad, 75 miles northwest of Detroit, 22 west of Flint and 30 north of Lansing, the latter city being reached by the Saginaw division of the M. C. R. R. from Owosso, 3 miles west. The Shiawassee river, which at this point is a beautiful stream, runs through the heart of the city, affording the most valuable hydraulic power that can be found along its entire length. The surrounding country is one of the best agricultural sections in this part of the state, and it has in its immediate vicinity some of the finest farms in the county. The principal manufactures are flour, lumber, staves, spokes, moldings, sash, doors and blinds, woolens, fanning mills, castings, etc. The most important interest, however, is the developement of the coal mines just east of the city. These mines are owned by the Corunna Coal Co., and are destined to make Corunna one of the most important manufacturing points in the state. By the first of May, 1877, the company expect to be able to ship 50 tons a day and in the course of 2 years 200 tons a day. Corunna has 1 National Bank, a printing office—the Shiawassee *American*—and five church edifices—Presbyterian, Methodist, Baptist, Universalist Roman Catholic, and Episcopal. Its societies are—Masonic lodge, Chapter, Commandery and Council—Odd Fellow's lodge, and Encampment—Grange, Patrons of Husbandry—and Ladies Library Society, with over a thousand volumes. Express, American. Mail, daily. John N. Ingersoll, postmaster.

A village of 220 inhabitants, located at the mouth of St. Mary's river, in Warner township, Chippewa county, 60 miles south of Sault de Ste. Marie, the county seat and 305 north of Detroit. Its chief importance is as a wooding station for boats in the lake Superior trade. The inhabitants are pioneers and Indians. Fish, raspberry jam, cedar posts and cordwood are the shipments. Settled 1856. Mail twice per week. C. L. Newell, postmaster.

BUSINESS DIRECTORY.

Church & Newell, general store.
**Newell C L,** Hotel Propr.

## DETROIT.

The early history of Detroit having been given in former editions of this work, we deem it unnecessary to repeat it in the present volume, and shall confine ourselves to a description of the city as it is at present, its commerce, finances and general progress.

Detroit is one of the growing cities of the West, with a large and increasing commerce. It occupies a frontage of about four miles on one of the handsomest streams that the earth has, and extends back about three miles, making a total area of 13½ miles. The business part of the town is substantially built of brick and stone. The residences are mostly of wood. There is plenty of land out doors, and it has been the practice of the business man, the mechanic and the clerk to purchase a lot and erect a house according to his means. Thus Detroit, to an unusually large extent, is peopled by house-owners who sit in the shadow of their own vines and fig trees. Situated upon a slope, the drainage is perfect, and the good health of the citizens assured, the death-rate for 1875 showing only 20 to the 1,000.

In 1810 the town had 770 people; in 1820, 1,442; in 1830, 2,222; in 1840, 9,102; in 1850, 21,019; in 1860, 45,619; in 1870, 79,570; in 1875, 101,225; and from the most reliable data obtainable, we feel fully justified in estimating the population on March 1st, 1877, at 120,000. It will be seen that its greatest stride has been made in the last 15 years. In that period the grandest buildings of the town have been erected, and all the machinery for municipal government arranged.

CITY FINANCES.

We have shown how the people of Detroit have increased in numbers. We may add that the material growth of the town has been equal to that of its population. In 1876 the cash valuation of the city was $94,570,905, with a total tax levy of $971,628.18, a trifle over one per cent. Of the amount thus appropriated, $456,108 were devoted to general city purposes; $216,235.35 to the schools; $29,700 to highways; $18,270 to the sewer fund; $130,000 to the police; and $106,606 to the fire department.

THE CITY GOVERNMENT.

The city is now governed by the Common Council, with the Mayor at the head, and the various municipal boards which are subject to the Common Council.

English Cassimeres, Our Own Importation, 1,800 Designs.
SOL. S. BATESON & BRO.

THE BOARD OF PUBLIC WORKS.

The Board of Public Works consists of three men appointed by the Mayor and confirmed by the Council. The construction of pavement and repairs of streets; the care of the public grounds and buildings; the construction and care of wharves, bridges, sewers and water courses; the erection of gas lamp posts, and ornamental fountains; the construction of all public buildings and works of the corporation or of any board thereof, are matters over which the Board of Public Works have entire control. Last year they had charge of 13 parks, aggregating 40½ acres; paved 7 86-100 miles of streets at a cost of $158,643.86. The total length of paved streets in the city is 65½ miles. 8 miles of public sewers have been constructed at a cost of $147,808.27; and 8⅓ miles of lateral sewers at a cost of $26,900. The total length of sewers in the city to date, public and lateral, is a fraction over 136 miles.

THE BOARD OF HEALTH.

The Board of Health is composed of the senior alderman of each ward, two of the city physicians, and two physicians designated by the council. The Board has power to enquire in respect to nuisances; to guard against the spread of infectious diseases; to establish a quarantine; to make sanitary suggestions to the common council, and to possess and close buildings when necessary to promote public health, or abate a nuisance. The board also has control of the pest houses and hospitals.

THE BOARD OF EDUCATION.

The Board of Education has charge of the schools, and is composed of two inspectors from each ward. The entire public school expenses for 1876 aggregated $170,358; of which $132,183 was to the superintendent and teachers, $11,472 to the janitors, armorer, carpenter, etc., and $9,512 for fuel. There are 26 school buildings containing sittings for 12,222 pupils. The total school property is valued at $772,042. The High school building contains 450 seats and is valued, with the lot on which it stands, at $119,180. At the close of 1876 there were 655 pupils belonging to the High school, 2,606 to the graded, and 6,864 to the primary schools, a total of 10,125, with a daily attendance of 9,099. There were 226 teachers employed. The number of pupils of lawful age at the last school census was 35,172. The public library comes under supervision of this board and has 33,604 volumes. During the past year, this great literary store was removed to the new Public Library building on Gratiot street which was erected at a cost of $125,000.

THE WATER COMMISSIONERS.

The Board of Water Commissioners consists of five members, and has exclusive control of the water works. These works now send water through 198 miles of pipe, of which 102 are of wood, and 96 of iron. The January report of 1877 shows that the number of families served with water is 20,466. Besides these, 394 hotels and boarding houses, 556 offices, 1,392 stores, 171 factories, 823 shops, 57 public buildings, 55 churches, 4 theatres, 32 breweries, 4 distilleries, 555 saloons, 65 stables, and many other establishments were supplied by the City Water Works, The assessment for the year is $208,891.50. In 1861 it was $60,507; in 1865 it was $77,212; in 1870, $130,301; and in 1876 it was $208,891, when 4,065,334,470 gallons were distributed, a daily average of 101.8 gallons a day for a population of 109,152 people. In 1875 the board purchased 60 acres of land on the river near Jefferson avenue, and commenced new and more extensive works to keep pace with the rapid city growth. These works are now in progress and will be completed the present year.

THE BOARD OF REVIEW.

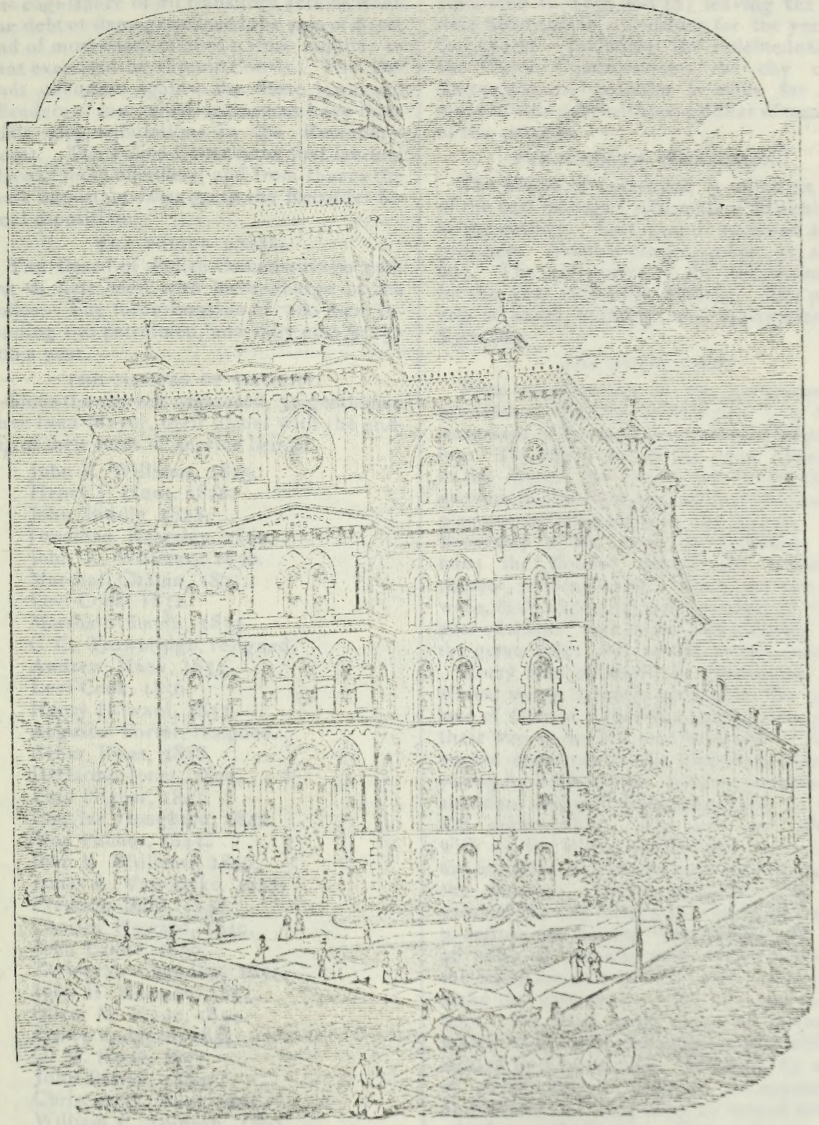
The Board of Review, as its name intimates, has the review of the assessments, with power to amend by reduction, if necessary; but they cannot increase them without notifying the persons whom it is intended shall be so benefitted.

THE BOARD OF ESTIMATES.

Of course the City outgrew the old popular gathering known as the citizens' meeting, and the Board of Estimates, for the authorization of taxation became a necessity. This Board is composed of two members from each ward, and five from the city at large. The President of the Council, the Chairman of its Finance Committee, the City Controller, City Counselor, the Presidents of the various Boards and Commissions, and the Senior Inspector of the House of Correction, are *ex officio* members of the Board, but are not entitled to a vote. All taxes in support of the several city funds, except the interest and sinking funds, must be submitted for the approval of the Board, who may reduce, but may not increase the estimates submitted for their consideration.

THE BOARD OF FIRE COMMISSIONERS.

The Board of Fire Commissioners, composed of four prominent citizens of Detroit, who receive no compensation for their services, have exclusive control of the Fire Department. The force consists of 115 men, all told, and the apparatus consists of 8 steam fire engines, equipped with companies,



NEW HIGH SCHOOL BUILDING.

one extra steam fire engine, two two-horse chemical fire extinguishers with company and equipment, two hook and ladder apparatuses, with company and equipment, one extra hook and ladder truck, one extra hose cart with hose, and one supply wagon. The running expense of the Department for the past year has been $78,022.59. The estimated valuation of the property of the Department is $340,000. The force is a uniformed body, and is governed with strict military discipline.

### THE COURTS.

The litigants of the city are served by the Wayne Circuit Court, which finds most of its work from city belligerents. The Superior Court, is, however, a city tribunal which

has cognizance of all transitory actions when the debt or damages exceed the sum of $100, and of most cases of civil nature similiar to that exercised by Circuit Courts. The Detroit offenders against the State laws, and offenders of municipal ordinances have their trials and tribulations in the Recorder's Court. The Police Court is the first landing place of these offenders, and from thence the more important cases go to the Recorder for final diposition.

THE POLICE BOARD.

The Board of Police Commissioners consist of four men who have charge of the police. The force consists of 160 men, including 130 patrolmen, and they cost $115,000 a year.

THE MAYORS OF DETROIT.

Since the city was organized, 31 gentlemen have been Mayor, their names with the ending of their term of service being:

John R. Williams, 1825.
Henry J. Hunt, 1826.
John Biddle, 1828.
Jonathan Kearsley, 1829.
John R. Williams, 1830.
Marshall Chapin, 1831.
Levi Cook, 1832.
Marshall Chapin, 1833.
C. C. Trowbridge, resigned.
Andrew Mack, 1834.
Levi Cook, 1836.
Henry Howard, 1837.
Augustus Porter, resigned.
Asher Bates, 1838.
DeGarmo Jones, 1839.
Zina Pitcher, 1841.

Charles Howard, 1849.
John Ladue, 1850.
Zachariah Chandler, 1851.
John H. Harmon, 1853.
Oliver M. Hyde, 1854.
Henry Ledyard, 1855.
O. M. Hyde, 1857.
John Patton, 1859.
Christian H. Buhl, 1861.
William C. Duncan, 1863.
Kirtland C. Barker, 1865.
Merrill I. Mills, 1867.
Wm. W. Wheaton, 1871.
Hugh Moffat, 1875.
Alexander Lewis, 1877.

THE CITY DEBT.

The debt of the city exclusive of the debt of the Water Commissioners, was on the 1st of February 1877, $1,179,900. The [illegible] fund and other means of paying the [illegible] amounted to $299,400 38; leaving the net debt $880,499.62, a decrease for the year of $13,574.21. Including the indebtedness of the Water Commissioners, the city owed $2,730,900, and provision is made for payment of this debt without a dollar of taxation of the citizens.

THE HOUSE OF CORRECTION.

The House of Correction is noted as one of the best managed reformatory institutions in the country. Last year it received 2,272 prisoners. Number remaining Dec. 31, 1876, 695. The net profits of the establishment for the year 1876 were $19,164. The property is worth, buildings and appurtenances, $300,000.

THE SOCIAL VIEW.

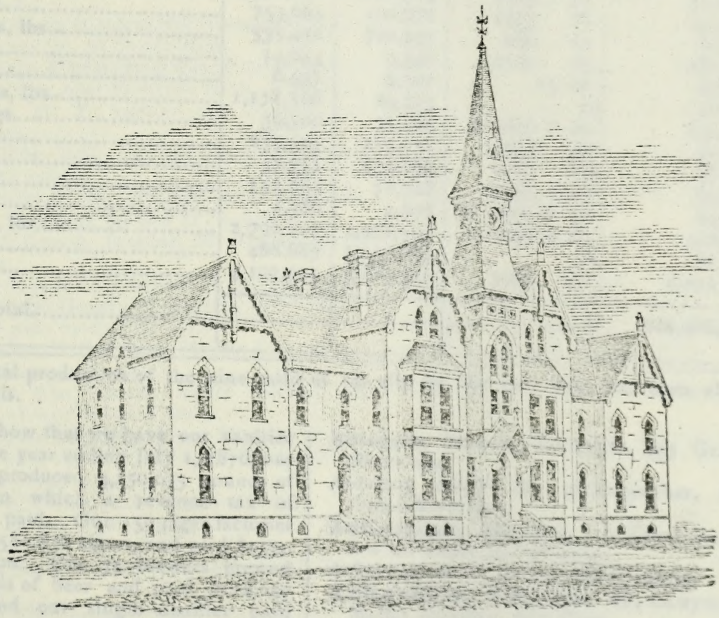
From consideration of the governmental branches of the city we will pass to a brief statement of its social and commercial standing. The city is one of the most beautiful in the West. Its streets are broad, shady avenues in the older parts of the town, broad, pleasant and attractive in the newer. The Broadway of the town is Jefferson avenue; the Bowery, minus the beershops thereof, is Woodward. Each are 120 feet wide, each beginning with a crowd of "palaces of trade" and miles away, fading into the green fields and woods of the country.

Every race on earth is represented, and almost every language spoken by the populace of Detroit. Over 60 church spires point their way to heaven, and hundreds of teachers are employed in our schools to train the young for useful lives. Library facilities are abundant and well patronized, and art finds full appreciation. The poor are always with us, but with a charity that never fails, the favorites of Fortune care for and supply the destitute. Luxury abounds. The iron veins of the city bring gas to light and water to refresh our homes. Our people ride over 40 miles of tramway over seven routes by the cheap facilities of the street cars, which make the extremities of the city near neighbors. We have 225½ miles of streets, of which 65½ miles are paved, and which are lighted by 1,720 lamps. We have 63 miles of public sewers built at an expense of $1,748,000, and 74½ miles of lateral sewers, which cost $438,467. Nine railways start us from Detroit, and with their connections take us to any habitable point on the globe. The floating palaces which swim our magnificent river takes the pleasure seeker on the tour of the great lakes. On August 31st, 1809 the "Michigan Essay," the first paper in Michigan issued its first number. Now, daily papers tell us, morning and night, of the latest news brought from all portions of the world by the busy telegraph.

Prominent among the public buildings erected during the past two years are the Wayne County Savings Bank, the Public Library building, the hall of the Harmonia Society, Whitney's Opera House, and the High School building, located on the site of the old State Capitol, all of which are rich and elegant specimens of modern architecture.

TRADE AND MANUFACTURES.

Commercially, Detroit makes a splendid record. Situated on the Detroit river, she is at the gateway of the lakes, and the white winged craft flit past her almost every minute, calling, as they go, to pay some tribute to the favorite city. Fifty years ago, we had but one dock, but it accommodated all our trade, and not a vessel that navigated the lakes was owned in Detroit. Now, Detroit owns 170 sailing vessels of 27,721 tons, and 40 barges of 9,686 tons. In 1820 the Walk-in-the-Water, the first steamer that ever came upon the river, visited Detroit, astonishing the Indians who gathered upon the bank of the stream, frightened at the monster which, they explained, breathed out of his back. Now, Detroit owns 127 steamers, carrying 39,875 tons. Fifty years ago, the arrival of a vessel was an event of interest. To-day, a sail or steam craft passes the city once in six minutes during the season of navigation, and over 30 steam craft are frequently in sight from the deck of the ferry in mid-stream. Fifty years ago, six or seven



HOME OF THE FRIENDLESS.

stores transacted all our mercantile business. Now, we have over 1,400 stores in the various branches of trade, while the exports of this port for the year ending July 1, 1876, amounted to $2,645,375, and the imports to $1,456,342.

We have four banks of discount with a capital of $2,200,000, several private banking firms, and five savings banks, with a capital of $575,000. The thrift of our people is shown by the fact that these savings banks hold over four and a-half millions of money chiefly belonging to laboring peop[le]

Our manufactures are extensive, and to [be] credited with much of the prosperity of t[he] city. There are 171 manufactories of vari[ous] kinds, including the great works, such as are connected with stove, furniture and car making, and 823 shops, where smaller enterprises are carried on. The wholesale trade is estimated at over thirty millions annually, while the produce trade is about $25,000,000 a year. Iron and lumber enter largely into our manufactories, and some of the heaviest operators in each branch are located here. The iron work of this vicinity comprises about 20,000 tons of rolled, and 20,000 tons of pig iron, annually. The receipts of iron aggregate 13,137,888 pounds, [the] shipments 8,006,364. Of the 28,000,000 feet [of] lumber cut yearly in Michigan, a large [pro]portion is the operation of Detroit capital.

The report of the Board of Trade shows the total receipts and shipments of grain and produce for 1876 to have been as follows:

| ARTICLES. | Receipts. | Shipments. | Average Price. | Aggregate Value of Rects. |
|---|---|---|---|---|
| Flour, bbls * | 338,522 | 303,234 | $7 00 | $2,369,654 |
| Wheat bu | 4,693,324 | 3,524,368 | 1 39 | 6,523,720 |

*The total production of the nine mills of the city for the past year has been about 400,000 barrels.

Statistics show that we have our vanities also. For the year ending July 1, 1876, our tobacconists produced 4,150,075 pounds of tobacco, upon which a revenue tax of $996,017 was paid. Our 150 cigar factories produced 26,581,830 cigars, and paid $159,490.98 thereon. Our 33 brewers brewed 112,057 barrels of beer and paid $112,057 thereon. And our single distiller paid $107,886.60 on 119,874 gallons of whiskey he distilled.

Thus it will be seen that while it took two centuries to lay the foundations, it has required but another 50 years to bring this little settlement of 1826 up to a great, prosperous metropolitan city.

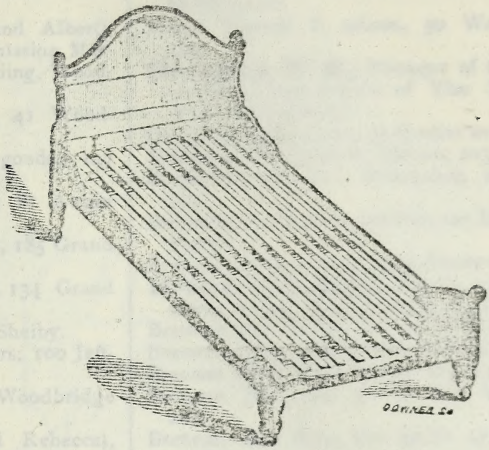
# M. J. MURPHY & CO.,

MANUFACTURERS OF THE

DUNKS'



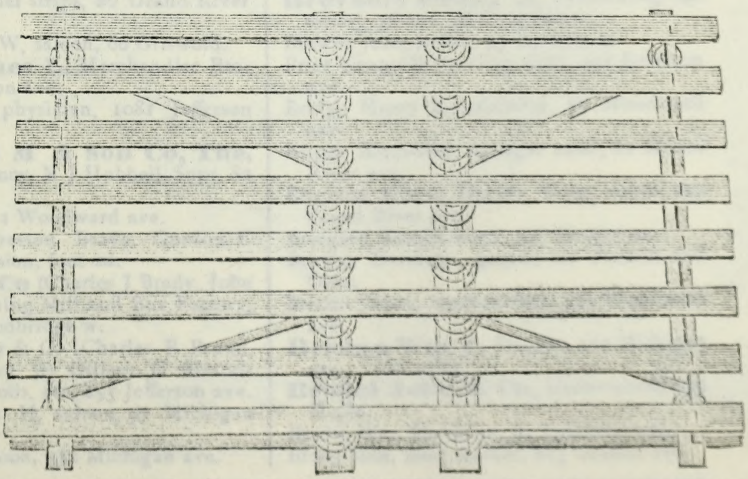
NOISELESS

# BED BOTTOM,

Superior to any Bed in the market. Recommended by Furniture Dealers and Hotel keepers as the cleanest, easiest and most durable.

## THE "U. S." SLAT BED.

A good low priced Bed Bottom, excels anything at the same price in the market.



Its Cheapness recommends it.

We also manufacture the "ALL WIRE" Bed, with 140 to 154 Bessemer Steel Springs, which we sell lower than any other house. Send for Price Lists and discounts.

M. J. MURPHY & CO.,

BERKSHIRE

# Life Insurance Company,

OF PITTSFIELD, MASS.

Incorporated 1851. Twenty-five years successful Business. One of the Oldest and Most Reliable Companies in the Country.

**Why Should You Insure in the Berkshire Life Insurance Company?**

Because it is a First-Class Company in every respect.

Because, in addition to being sound and responsible, its policies are absolutely non-forfeitable. Because under the laws of its organization, policy-holders are secured against loss in the event of a failure to pay premiums when due.

**FOR EXAMPLE.**

Policy No. 5869. Bernard O'Grady, of Detroit, Mich., insured October 7, 1867, for $3,000. Life, 10 payments. Premium $173.10.

This policy lapsed for non-payment of premium, October 7, 1868. Mr. O'Grady died at Detroit, Aug. 18, 1871, and the Company paid the claim less three premiums and interest. Mr. O'Grady would have remained insured until December 3, 1871.

Policy No. 4717. Lawrence Byrnes, of Boston, Mass. Insured Jan. 2, 1867, for $5,000. Endowment 15 years.

This policy lapsed for non-payment of premium January 2, 1871. Mr. Byrnes died at Worcester, Mass., March 20, 1874, and the Company will pay the claim, when due, less four premiums and interest. Mr. Byrnes would have remained insured until November 10, 1886.

For the detailed financial statement of the Company, and circulars containing full description of its plans, address as below.

## J. F. LOBDELL, Agent for GAFF, FLEISCHMANN & CO.,

# Compressed Yeast.

GAFF, FLEISCHMANN & CO.'S COMPRESSED YEAST,
Is the best article for all kinds of Bread Baking in the World.
FIRST PREMIUMS Awarded at all Points in the UNITED STATES, where Exhibited.

KEEP COOL AND DRY.

Farmers, or Suburban Residents can return this Yeast fresh and reliable, by immersing in water, using a small glass jar, or vessel. The Yeast particles precipitate, and water covering, prevents air spoiling the Yeast. Keep the water fresh on the Yeast. Set vessel in cellar, or lower it into the well or cistern, attached to a string. When Yeast is desired for use, pour water off, take out what is needed with a spoon, and pour fresh water over the Yeast. In this manner it will keep for months.

FACTORIES—Riverside, Hamilton Co., O.—Blissville, Queens Co., L. I.—Cincinnati, O. 25th Ward.

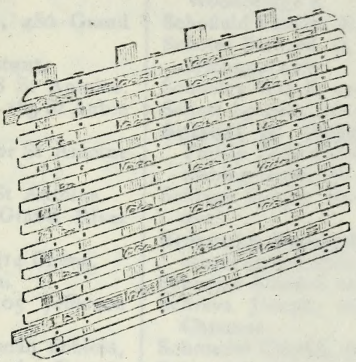
# MENZIE'S

1877



1877

# CENTENNIAL BED BOTTOM.

PATENTED OCT. 31st, 1876.

This Bed Bottom is superior to anything in use for the following reasons:

FIRST—It is the only Bed Bottom made wherein each and every spring is thoroughly fastened with a bolt, making it perfectly silent.

SECOND—From its peculiar and superior manufacture, it is the only Bed Bottom in the market securing perfect ease and comfort to the sleeper.

THIRD—It is the most durable Bed Bottom manufactured.

FOURTH—Its Cheapness brings it within the reach of all—rich or poor.

FIFTH—It is handled, and becoming very popular among Furniture Dealers from the fact that it is Cheap, Durable, and just the article to suit the time.

## READ THE FOLLOWING RECOMMENDATION:

THIS IS TO CERTIFY— DETROIT, MICH., July 29th, 1876.

That the undersigned, Furniture Dealers of the City of Detroit, have sold and are selling MENZIE'S CENTENNIAL SILENT STEEL-SPRING BED BOTTOM, and do pronounce them far superior to any in the market as to Durability, Cheapness, and the most comfortable, and have always been found satisfactory by the sleeping public. [Signed,]

## DETROIT JUNCTION.

Locally known as Grand Trunk Junction, a suburb of Detroit, at a point just west of the city, whence six different railroad lines radiate, 5 of the 6 running into Detroit from thence over the M. C. R. R. track. The various roads are the Canada Southern, the L. S. & M. S. R'y, the M. C. R. R., the D. L. & N. R R, the Bay City Division of the M. C. R. R. and the Grand Trunk railway of Canada. The number of trains passing and repassing this point daily is enormous, and as all stop here, this is one of the busiest railroad centers in the west. The cheapness of land hereabouts is fast luring manufacturers from the city. Considerable property has lately been platted and sold, and the junction is destined ere long to become a populous and busy quarter of Detroit. A postoffice has been established under the title of Detroit Junction. Ferdinand Amos postmaster.

BUSINESS DIRECTORY.

## DEVEREAUX.

A postoffice and railway station in a thickly settled farming country, in the township of Parma, Jackson county. It is on the Lansing branch of the L. S. & M. S. R'y, 6 miles north of Albion, 31 from Lansing and 20 west of Jackson, the county seat. The nearest express and telegraph offices are at Springport, the next station north. There is a settlement of about 100 people about the depot. Wheat, live stock, pork, poultry and apples are shipped. Mail, daily. L. H. King, postmaster,

## DE WITT.

A village claiming 400 inhabitants, on the Looking Glass river, in DeWitt township, Clinton county. It is 14 miles south of St. Johns, the county seat, and 9 due north of Lansing. The locality was settled in 1833 and comprises a region of good farming land. The place has 2 churches, Baptist and Methodist, 2 steam saw mills, a flouring mill, a foundry and some minor industries. Daily stage to Lansing, and daily mail. Jonathan A. Sweet, postmaster.

BUSINESS DIRECTORY.

## DEXTER.

This attractive village is located on the M. C. R. R., in the township of Scio, Washtenaw county, 9 miles northwest of Ann Arbor, the county seat, and 48 west of

D. A. ROSS & CO., 70 Franklin Street, DETROIT,
Ship Lumber to all Parts of the State.

Detroit. It is located at the junction of the Huron river and Mill creek, on a high and dry gravelly soil, rendering its streets almost equivalent to a pavement and easy to be kept in repair. The town is well laid out and contains a number of handsome residences. It has 4 neat churches, representing the Baptist, Catholic, Methodist and Presbyterian denominations, that of the Catholic being a fine brick structure recently built. Ample educational facilities are afforded by a large graded public school. The manufacturing interests of the place consist of 2 flouring mills, 1 plaster mill, 1 saw mill, 1 planing mill and sash and blind factory, 2 wagon works and some others. The town has one local paper, the Dexter *Leader*, independent republican in politics, published by A. McMillan.

Dexter was settled about 1823, by Hon. S. C. W. Dexter, from Boston. For a long time it was the frontier settlement in this State, beyond which all was wilderness, traversed only by Indian trails. It now has a population of about 1,500. The Michigan Central was opened to Dexter on July 4th, 1841. Telegraph, Western Union. Express, American. Mail, daily. James T. Honey, postmaster.

A small place in Dexter township, Washtenaw county. *(See Base Lake.)*

## DOWAGIAC.

The flourishing village of Dowagiac is situated on the stream from which it takes its name, at the intersection of the four townships of Silver Creek, Wayne, Pokagon and LaGrange, in Cass county, 10 miles northwest of Cassopolis, the county seat. It is on the M. C. R. R., 12 miles east of Miles, 179 west of Detroit, and 105 from Chicago. It was settled in 1848, on the completion of the M. C. R. R., and incorporated as a village ten years later. It was burned down in 1864, but speedily rebuilt. The population now numbers about 2,500. The country around consists of prairie and oak openings. Wheat, corn, potatoes, fruit and live stock are raised. Water power is derived from Dowagiac creek for manufacturing purposes, 3 flouring mills, 1 planing mill, 1 saw mill and a foundry being ope-

Fine English Suitings, At SOL. S. BATESON & BRO., Merchant Tailors, Detroit, Mich.

rated at various points in the vicinity. Besides the above, there are 2 steam saw mills, 1 planing mill, 1 brewery, and 1 basket factory, the latter turning out 90 dozen baskets daily. It also has a national and a private bank, 2 hotels, 1 newspaper, the *Cass County Republican*, Baptist, Catholic, Congregational, Methodist and Universalist churches; good schools, a public library, a ladies' library association, and various other society organizations. The leading articles of export are flour, wheat, wool, live stock, baskets and fruit. Telegraph, Western Union. Express, American. Mail, daily. David W. Clemmer, postmaster.

## EAST RIVERTON.

A postoffice and settlement containing a population of about 150 within a circuit of 2 miles. It was formerly known as Indian town, and is in Riverton township, Mason county, 11 miles southeast of Ludington, the county seat, and usual shipping point. Potatoes, cabbages and saurkraut are exported. Settled 1863. Mail once a week. Samuel Hull, postmaster.

## EAST SAGINAW.

East Saginaw is situated on the right or east bank of the Saginaw river, about 16 miles above its mouth. It is 200 miles from Detroit by river and lake and 98 by rail.

This city, the site of which was a wilderness 25 years ago, contains a population of 17,084 within its chartered limits, and from 3,000 to 5,000 more in the suburbs connected with it. The city extends along the river, nearly north and south, a distance of three miles or over, and at points extends over a mile back, covering an area of four to five square miles, and is now pretty well built over. There are some very fine streets, many of which are paved with wood pavement or substantially planked.

PUBLIC IMPROVEMENTS.

Among the most important features in this line are the water works, known as the "Holly System." The water is taken from the Tittabawassee river, three miles above the business centre of the city, and is distributed through about 26 miles of iron pipes, furnishing an abundant supply for all public and private purposes. Over 150 fire hydrants are provided, which furnish efficient protection from the devouring element. The total cost of the water works was about $375,000.

The sewerage system of the city is another most important feature. At present there are over five miles of substantial brick and pipe sewers, which furnish good drainage and add largely to the good health and convenience of the people. The cost of sewers up to the present time has been about $173,000.

No city of its size is probably better provided with school facilities than East Saginaw. There are twelve school houses, under the control of the Board of Education, with a seating capacity for 3,000 scholars. The expenditures for school purposes for the year 1876 were upwards of $63,000, and the cash value of the school property is put at about $200,000. The public library contains about 3,500 volumes.

The assessed valuation of the city is $3,500,000, and its total bonded debt is about $730,000.

BUILDINGS, ETC.

East Saginaw has no public buildings except such as have been built by its municipal authorities or by private enterprises. Among the former are the water works buildings, two large brick and four frame fire department buildings, and the public school buildings, six of which are brick.

In the way of churches, the Baptist, Congregationalist, Methodist, Lutheran, Presbyterian and German Methodist societies have substantial brick edifices, and the Episcopalians and colored Baptists have frame buildings.

The very large number of elegant private

In Domestic Goods We handle only the finest grades. SOL. S. BATESON & BRO., Merchant Tailors, Detroit.

residences is a most notable feature of this place.

The business portion of the city is mostly of brick three and four story buildings, having a substantial appearance. There are several fine stone structures, such as the Merchants' National Bank, the new Hoyt Block, and the railroad buildings.

There are two places of amusement, the "Academy of Music," one of the pleasantest and neatest public halls in the State, capacity for seating 1,800 people, and the "Opera House," which is smaller, both situated on Washington street.

East Saginaw is well supplied with good hotels, among them the far famed Everett House, the Bancroft House, the Lloyd House, Stauber's Hotel and others.

There are about twenty saw and shingle mills within the city limits, among which are some of the most complete in the State.

MANUFACTURES AND TRADE.

East Saginaw is the principal center of the immense lumber trade of this section of the State, which aggregates over 500,000,000 feet of pine lumber annually, besides lath, shingles, etc., and a large quantity of oak timber and staves, and a large product in butternut, walnut, cherry and ash. The manufacture of salt has increased very largely, the total product for 1876 being over 1,000,000 barrels, fully one-half of all produced and marketed in Saginaw county. Many of the heaviest lumber and salt operators reside here, and direct their operations from this point, and this makes East Saginaw not only the center of an immense lumbering supply trade, but its general wholesale trade reaches for long distances out upon the railroad lines and up the lake Huron shore to Mackinaw.

Four extensive planing mills, three cabinet factories, four breweries, two flouring mills, four foundries and machine shops, one brass foundry, two lime kilns, one large car shop, and three ship yards, comprise the leading manufacturing interests.

RAILROADS.

The following are the lines of railroad now in operation and centering here: The F. & P. M. from Toledo to Ludington; the Saginaw division of the M. C. R. R. from Jackson to Otsego Lake, and Saginaw Valley and St. Louis; the Chicago, Saginaw and Canada railroad in process of construction, which will give a direct route eastward, now greatly desired.

MISCELLANEOUS.

East Saginaw has the usual quota of associations and societies, among which are the Masonic, in its several degrees and subdivisions, the I. O. O. F., the German clubs and associations, Good Templars, etc.

Two daily newspapers are published here, the *Republican* and the *Courier* (Dem.), and one German paper, the *Weekly Zeitung*.

The government is now engaged in improving the navigation of the river, which has been somewhat obstructed by bars, and it is anticipated, a good channel with ten feet of water will be opened the whole length of the river.

There are two hospitals, one built by the city, and one under the management of the "Sisters of Charity." The "Home for the Friendless," is a worthy benevolent institution.

East Saginaw has three National banks, and a savings bank organized under the State law. The capital engaged in this department is considerably in excess of $1,000,000.

Among the public institutions of the place are its splendid driving park and the fair grounds. These are beautifully situated and have a track one mile long and level as a floor.

The East Saginaw Lumber Exchange, the Young Men's Library Association, the German Lyra Musical Association, are among other local institutions of prominence and note.

## EAST TAWAS.

This flourishing village is situated on Tawas bay, 1¼ miles northeast of Tawas City, from which it is separated by the Tawas river. It is in Baldwin township, Iosco county, and is 155 miles from Detroit, 50 by water from Bay City, and 40 northeast of Standish on the Mackinaw division of the M. C. R. R., its shipping point by rail. It has a fine harbor, capable of floating the largest vessels, and during the season of navigation has a daily boat to Bay City. East Tawas was settled in 1864, and now has a population of about 1200. Its manufacturing interests are 3 saw mills, 1 salt works, 2 foundries and machine shops, and 2 planing mills and sash and blind factories. The surrounding country consists of good farming land interspersed with sandy plains. Salt, lumber, shingles, cedar posts, fish and whortleberries constitute the exports. Telegraph, Western Union. Express, Holt's and American. Mail daily. Wm. Locke, postmaster.

## EAST UNADILLA.

Livingston County. (*See Unadilla.*)

## EATON RAPIDS.

A village of some 2,500 inhabitants, in the township of the same name in the southeast corner of Eaton county. It is situated at the intersection of the G. R. div. of the M. C. R. R., and the Lansing branch of the L. S. & M. S. Ry. On the former road it is 24 miles west of Jackson, and on the latter 20 north of Albion, and 17 south of Lansing. It is 10 miles southeast of Charlotte, the county seat. Grand river flows through the village and furnishes power for one large flouring mill. Besides this there are a carding mill, 2 planing mills, a foundry, one or more saw mills, and a stave and heading factory. There are a number of stores, and the place enjoys a fine trade with the surrounding country. But the village is chiefly famous for its mineral waters, it claiming indeed the appellation of the Saratoga of Michigan. Artesian wells are sunk a few hundred feet, when the waters possessing strong magnetic properties flow from the surface in copious streams. They are slightly cathartic in their effects, and are highly extolled for their cures in cases of dyspepsia and also rheumatic affections. The village has Methodist, Congregational, Baptist and Episcopal churches, good schools and other features, making it a desirable place of residence. It is reached by both the American and U. S. Express Co's. Telegraph, Western Union. Horace M. Hamilton, postmaster.

Withington Norris J, agt L S & M S R R and U S Express.
Withington Wm, sawmill, 2 miles north of village.

## ESCANABA.

The county seat of Delta county, is an incorporated village of 2500 inhabitants. It is beautifully situated on a point of land that divides the waters of Green Bay from those of Little Bay de Noquet; the latter forming one of the best harbors on the whole chain of lakes. It is very easy of approach, having an entrance 3 miles in width, and a depth sufficient to float the largest vessels. Escanaba is reached by the C. & N. W. Railway, by which it is 356 miles north of Chicago, 271 from Milwaukee, and 76 south of Marquette. It is one of the three shipping points for the upper peninsula iron ore, and rivals Marquette in the extent of these shipments. It has two extensive iron docks, erected at a cost of $400,000, with facilities for receiving and shipping 700 loaded cars of ore per day. There are 1,950 of these cars employed between the iron mines and Escanaba, and each carries 7½ tons at a load. Twenty-five vessels can be loaded every 12 hours. An iron furnace that cost $250,000 to build, and the finest on the upper peninsula is located here. The other material interests are a planing mill, a brewery, 3 hotels, 3 churches, 2 school buildings, a young men's reading room, and a weekly newspaper, the Escanaba *Tribune*. Good farming and hardwood timber land lies within a few miles of the village, and the Escanaba river, which rises in the iron region, and here flows into the lake, furnishes water power. The village was first settled in 1863. Express, American. Telegraph, Northwestern. E. P. Royce, postmaster.

BUSINESS DIRECTORY.

Adler Siegmund, dry goods.

## FENTON.

Genesee County. (*See Fentonville.*)

## FENTONVILLE.

An incorporated village of 2500 inhabitants in the township of Fenton, Genesee county. It is on the D. & M. railroad, 5 miles west of Holly, the junction of the F. & P. M. Ry, 28 east of Owosso, and 50 northwest of Detroit. It is surrounded by an excellent rolling farming country, producing grain, hay, and general farm products. There is located here a large high school, and two seminaries for both sexes, one under the supervision of the Baptist denomination of Michigan, and the other non-sectarian, The principal manufactories are 1 woolen mill, 1 flouring mill, 2 planing mills, 1 pump factory, 1 drill press factory, 1 foundry and machine shop, 1 agricultural implement factory, and some smaller industries. There are 2 local newspapers, the *Gazette* and *Independent*. There are 6 churches, Baptist, Methodist, Catholic, Episcopal, Presbyterian and Universalist, the two former being beautiful edifices. The north branch of the Shiawassee river flows through the town and furnishes good water power. Wheat, wool, pork, butter, eggs and apples form the principal shipments. A beautiful lake, about two miles from the village, is becoming a popular resort of pleasure seekers. Abundance of excellent fish are found in its waters. Express, American. Telegraph, Western Union. William Guest, postmaster.

A station on the D. L. & N. R. R., in Howell township, Livingston county, 5 miles west of Howell, the county seat, and 57 from Detroit. It is the center of a good farming country. Population, 75. Mail, daily. Lucina Park, postmistress.

BUSINESS DIRECTORY.

Bushnell O H, notary public and druggist.
Clark Rev C B (Methodist).
Fox G W, grocer.
Lake N, grocer.

## FLINT.

A thrifty and attractive little city of about 7,000 inhabitants, is the county seat of Genesee county. It occupies an elevated site on the Flint river, at the intersection of the F. & P. M. Ry. and the Chicago & Lake Huron R. R., 66 miles west of Port Huron, 64 northwest of Detroit, 49 northeast of Lansing and 34 south of Saginaw. The site of the present city was first settled about the year 1820, the village platted in 1831, and the act incorporating it as a city passed in 1855. The principal business interest of Flint is the manufacture of lumber, for which there are 9 mills in operation. The total capacity of these mills is about 100,000,000 feet of sawed lumber per annum, besides large quantities of lath and shingles. An extensive business is also done in dressed lumber, sash, doors, blinds, etc., 10 or more establishments being engaged in this line. There are 2 foundries and machine shops, that of Messrs. Kimball & Co. being largely engaged in the manufacture of malleable iron castings, machinery of all kinds, steam engines, etc. There are also 2 flouring mills, 1 paper mill, 1 stave mill, 3 breweries, 3 furniture factories, 3 brick-yards and several carriage and wagon factories, besides a number of other establishments of minor importance.

The educational advantages offered by Flint are not surpassed by any city in the State. It has a commodious central high school building, erected at a cost of $100,000 and 5 ward schools, with 1,600 enrolled scholars. The Roman Catholics also have a large brick school building. The state institution for the education of the deaf, dumb and blind is located here. It is a handsome structure, surrounded by about 40 acres of beautiful grounds. Among the public buildings the Court House is a beautiful and costly edifice. The churches are 1 Baptist, 1 Free Will Baptist, 1 Congregational, 1 Episcopal, 1 Evangelical, 2 Methodist, 1 Presbyterian and 1 Roman Catholic, all of which are fully in keeping with the other institutions of the city.

It has a good jail, a well organized fire department, a ladies' library association, incorporated in 1853, and a scientific institute incorporated in the same year.

The press is ably represented by 5 weekly newspapers, the *Democrat*, the *Sunday Democrat*, the *Wolverine Citizen*, the *Journal* and the *Flint Globe*. A daily paper will, doubtless, be started soon. There are 2 banks of issue—the Citizens' National and the First National—also one savings bank and several good hotels. Telegraph, Western Union. Express, American. Washington O'Donoughue, postmaster.

One of the most thrifty towns in Newaygo county, is located on the line of Dayton and Sheridan townships and on the C. & M. L. S. R. R., 23 miles northeast of Muskegon and 32 southwest of Big Rapids. It is 9 miles northwest of Newaygo, the judicial seat of the county. There are here 5 saw mills, 1 flouring mill, 1 handle mill, 1 stave mill, 1 planing mill, 1 shingle mill, a large tannery, 2 churches, Methodist and Congregational, a flourishing weekly newspaper, the *Fremont Times*, of which W. S. Platt is publisher, 8 or 10 general stores, several groceries, hardware, jewelry and other trades. A foundry and machine shop is one of the chief wants of the village and would doubtless do well. The population of Fremont Center is now 1,100. Stages run to Hesperia and Newaygo daily. Telegraph, Western Union. Express, American. Mail daily. W. S. Platt, postmaster.

## GOOD HARBOR.

A small postoffice in Leelanaw county, 10 miles south of Leland and 24 southwest of Northport, the county seat. It has a semi-weekly mail.

## GOOD HEART.

The postoffice at Middle Village, a settlement of about 100 people, three-fourths of whom are Indians, in Cross Village township, Emmet county. It is on the shore of lake Michigan, 13 miles north of Little Traverse, the county seat, and 18 from Petoskey, the nearest railroad point. A Catholic church, an Indian school and a store are the chief interests. Mail is received weekly. Wood is the only shipment. Mrs. Julia Cole, postmistress.

BUSINESS DIRECTORY.

Bode & Cole, general store and blacksmiths.
McNeil W, justice of the peace.
Schlotzer George, physician.

## GOODISON.

A flag station on the B.C. div M.C.R.R., in Oakland township, Oakland county. There is a small village here containing about 40 inhabitants. The people of the vicinity are farmers. It has a grist mill and ships flour and some farm produce. Distances—from Detroit 30 miles, and from Pontiac 12 miles. Mail daily. William Goodison, postmaster.

BUSINESS DIRECTORY.

Cline E W, grocer.
Goodison Wm, flouring mill.
Lacy Mrs, weaver.
Toms Wm, boot and shoe maker.
Townley Wm, blacksmith.

## GOODLAND.

A postoffice in Lapeer county, 5½ miles due north of Imlay. It has a tri-weekly mail.

## GOODRICH.

A village of 300 population, in Atlas township, Genesee county, 8 miles east of Grand Blanc, on the F. & P. M. Ry., 15

D. A. ROSS & CO., Lumber, Lath & Shingles, 70 FRANKLIN ST., DETROIT.

southeast of Flint and 60 from Detroit. Water power is supplied by Kearsley river. A grist mill, a foundry, a hotel and 3 stores are among the chief interests. There are 3 churches,—Methodist, Baptist and Congregational. Flour and farm products are shipped. A stage runs to Grand Blanc and Hadley daily, carrying mails. Express, American. S. B. Pixley, postmaster.

BUSINESS DIRECTORY.

Bushaw A, hotel propr.
Campbell J W & Co, general store.
Duestor J B, carriage and wagon maker.
Egleston A, express agent.
Hart S H, carriage and wagon maker.
Horton S T, harnessmaker.

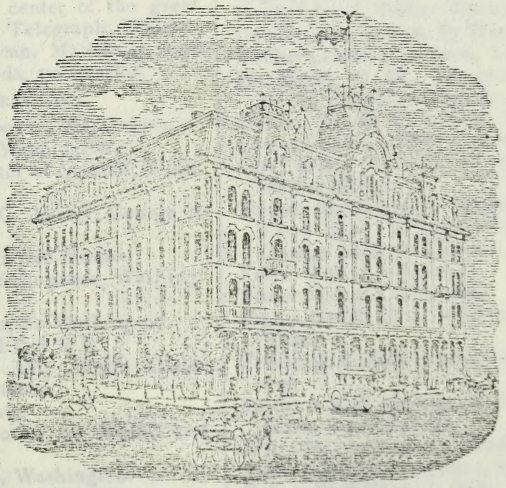
Parsons & Crapser, grain and produce.
Perry & Mathews, general store.
Slaight Andrew, physician.
Taylor J, shoemaker.
Wescott E, shoemaker.

## GRAND HAVEN.

One of the most important ports on the eastern shore of lake Michigan, is situated at the mouth of Grand river, in the northeast corner of Ottawa county, for which it is the seat of justice. It is the western terminus of



CUTLER HOUSE, GRAND HAVEN.

the D. & M. R. R., 31 miles west of Grand Rapids and 189 west of Detroit. It is also a station on the M. L. S. R. R., and is 9 miles west of Nunica, the junction of the D. & M. and the C. & M. L. S. railroads, by which route it is 118 miles north of New Buffalo and 185 from Chicago. Besides its excellent railroad facilities it is accessible by the following lines of steamers: Engleman's day and night line from Milwaukee; Goodrich's daily line from Chicago; Engleman's daily line from Manistee, Pentwater, Ludington and Muskegon, and by Ganoe's daily line from Grand Rapids.

SETTLEMENT, ETC.

The first white settler established a trading post here in 1825 and the village was laid off ten years later, about which time it had a population of 200. The act incorporating it as a city was passed in 1867 and its present population numbers about 6000.

MANUFACTURES.

Lumber is the principal article of manufacture. There are several mills which turn out an aggregate of 1,500,000 feet per week, an extensive shingle mill with a capacity of 250,000 per day, a new stave factory, capacity 40,000 per day, an agricultural implement factory, a sash, door and blind factory, a foundry and machine shop and others of smaller note.

PROMINENT BUILDINGS.

Within the corporate limits are 11 churches, 2 good ward schools, and a fine Union school building, which cost $50,000. The Cutler House, erected at a cost of $200,000, is a beautiful structure, and a hotel first-class in all its appointments. The Kirby House,

erected in 1874, at a cost of $50,000, is a substantial and well kept hotel.

NEWSPAPERS.

Two weekly newspapers are published here, the *Grand Haven Herald*, republican, by C. H. Du Bois, and the *News & Journal*, democratic, by Lee & Hitchcock.

ATTRACTIONS AS A SUMMER RESORT.

One of the most attractive features of the place, and one which tends to make it more widely known, is its celebrated Magnetic Mineral Spring. Thousands of persons visit Grand Haven every year for the benefit of these health-giving waters. Spring lake, which lies adjacent, is a beautiful sheet of water, nine miles in length; it affords fine opportunities for fishing and sailing. In addition to these attractions, and to the broad area of lake Michigan, with its surf-bathing, Grand Haven is in the center of the great fruit-belt of Michigan. Telegraph, Western Union. Express, American. Mail daily, from all points. Asa Reynolds, postmaster.

## GRAND LEDGE.

Is a prosperous incorporated village of 1,500 population located on the line of the D. L. & N. R. R., 14 miles west of Lansing, 24 southeast of Ionia, and 97 from Detroit. It is in Oneida township, on the northern border of Eaton county, 16 miles north of Charlotte, the county seat. Grand river, upon which it is located, furnishes first class water power, utilized by grist, saw and planing mills. A good farming country, well cultivated surrounds the village, and valuable beds of building stone and coal, but little developed, as yet, are in the immediate vicinity. Lumber, staves, flour, grain, live stock and some fruit are shipped. Grand Ledge was first settled in 1837 and incorporated in 1871, and from its eligible position, and natural advantages must become a place of considerable importance. It has five churches, embracing the Baptist, Congregational, Lutheran, Methodist and Presbyterian denominations and an efficient school system. The American express and Atlantic and Pacific telegraph companies have established offices here. Mail daily. J. S. Holmes, postmaster.

## GRAND RAPIDS.

The city of Grand Rapids had 25,989 inhabitants when the State census was taken in 1874, and to-day doubtless contains 30,000 people or more. The increase from 1870 to 1874 averaged 2,369 per year, a rate that has probably held good since the latter date.

Its chief natural advantages are water communication with lake Michigan by means of Grand river, on which steamers run at all seasons of the year except when the river is frozen over; the immense water power afforded by the rapids in the river, surpassing any other in the State; the great agricultural resources of the country surrounding it; the immense quantities of pine and hard wood timber on the Grand river and its tributaries, which find a natural market here; and the extensive beds of gypsum or plaster in and near the city.

In addition to these natural advantages, it is the center of a system of railroads which enter it from eight different directions, throwing open to its manufactured products the markets of the world.

Its site is one of great natural beauty, lying on both sides of the river, (here some 800 feet wide), between the high bluffs which stand nearly two miles apart, and from whose summits the eye takes in a beautiful panorama of hill, vale and river. The eastern bluff is now nearly covered with residences, and the reservoir occupies its highest point. The city is well laid out with wide streets, most of which are now in good condition, being either paved or well graveled.

### WATER POWER.

The water power furnished by the rapids in Grand river is brought into use by means of two canals, one on each side of the river. The east side canal is half a mile long, 140 feet wide at the guard gates and 30 at the lower end; best head of water, 12 feet; height of dam, 6½ feet. This canal is completely lined with factories from one end to the other. The west side canal, completed by W. T. Powers in 1869, is 3,300 feet long, 100 feet wide at the upper end and 50 at the lower; amount of fall, 15 feet; height of dam, 6½ feet.

**Fashionable Gents** in Oxford Patronize the Leading Merchant Tailors, SOL. S. BATESON & BRO.

RAILROADS.

The Detroit and Milwaukee railroad, which passes through the north part of the city, extends from Detroit to Grand Haven, a distance of 189 miles, at which place it connects with lines of steamers to Milwaukee and Chicago.

The Chicago and Michigan Lake Shore railroad runs between New Buffalo (a station on the Michigan Central railroad), and Grand Rapids, running through trains to Chicago.

The Grand Rapids and Indiana railroad is among the longest roads in the United States, being 358 miles in length, reaching from Petoskey, near the northern extremity of the lower peninsula of Michigan, and Traverse City, on Grand Traverse Bay, to Fort Wayne, in Indiana.

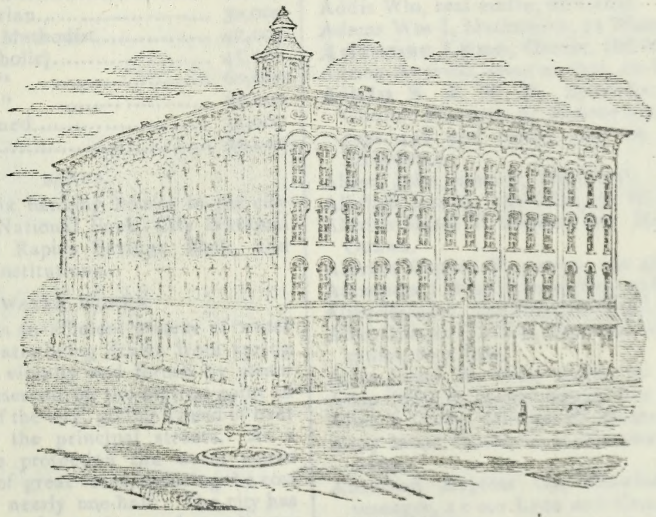
The Grand Rapids, Newaygo and Lake Shore railroad extends 48 miles northwest to Morgan, a station on the Chicago and Michigan Lake Shore railroad, between Muskegon and Grand Rapids, and will eventually be extended to lake Michigan.

The Michigan Central (Grand Rapids division) extends from Jackson to Grand Rapids.

The Lake shore and Michigan Southern railway (Kalamazoo division), extends from White Pigeon to Grand Rapids, and is important as giving this city connection with the main line of that road.

MANUFACTORIES.

Grand Rapids is particularly noted for the extent and variety of its manufactures of furniture and different varieties of wood work. The value of furniture, alone, manu-



SWEET'S HOTEL.

factured during the year preceding the State census was $1,100,000, since which time the principal factories have added considerably to their productive capacity.

The manufacture of lumber in Grand Rapids averages about 75,000,000 feet per year.

SCHOOLS, LIBRARY, ETC.

The city is well supplied with school buildings, nearly all of them built of brick in the most substantial manner. The principal of these structures are the Central School building, valued at $85,000 and the Union School building on the west side of the river, $40,000.

The city has a public library of nearly 7,000 volumes, located in elegantly furnished rooms in one of the finest blocks of the city, where it is readily accessible to all.

STREETS.

The total length of streets now opened in the city is over 131 miles, of which are:

| | | |
|---|---|---|
| Graded and paved with wood, | 0.15 | miles. |
| Graveled and paved with wood and stone | 2.68 | " |
| Graveled and paved with stone | 1.55 | " |
| Graded and graveled and gutters paved | 21.56 | " |
| Graded and graveled | 29.50 | " |
| Graded | 8.02 | " |
| Un-improved | 67.66 | " |
| Total | 131.12 | " |

NEWSPAPERS.

Grand Rapids has four daily newspapers: The Grand Rapids Eagle, Grand Rapids Democrat, Grand Rapids Times and The News Item, a penny daily started December 1876. The weekly newspapers are eight in number, viz: Eagle, Democrat, Times, Saturday Evening Post, Vrijheids Banier, (Holland), De Standaard (Holland), Staat Zeitung (German) and The Greenback, just started.

CHURCHES.

The following is a list of the most important church buildings together with an estimate of their value:

| | |
|---|---|
| Park Congregational Church | $65,000 |
| St. Mark's (Episcopal) | 65,000 |
| Division Street Methodist | 45,000 |
| Baptist | 80,000 |
| First Presbyterian | 30,000 |
| Second Street Methodist | 42,000 |
| St. James (Catholic) | 45,000 |
| St. Mary's, " | 60,000 |
| St. Andrews, " | 65,000 |
| Second Reformed | 35,000 |
| Universalist | 20,000 |

BANKS.

There are six banking houses in the city —The First National Bank, City National Bank, Grand Rapids Savings Bank, and three private institutions.

WATER WORKS.

The city has an efficient system of water supply, the water being drawn from spring brooks in the vicinity and forced by steam pumps to a reservoir on the highest point of the hill east of the city, giving a head of over 150 feet on the principal streets. As a means of fire protection the water works have proved of great value, reducing the cost of insurance nearly one-half. The city has also three steam fire engines and a well supplied and thoroughly disciplined fire department

BUILDINGS.

The principal building material used on the business streets is a beautiful white brick manufactured in the city, which preserves its color for years, owing to the fact that but little soft coal is consumed. Most of the stores and shops have plate glass fronts.

U. S. BUILDING.

A United States building for the use of the postoffice and the United States Courts and other offices is now in process of erection, the basement having been completed last year. It will be of brick and occupy a whole square near the business center.

SUBURBS.

Just south of the city are the Kent county fair grounds, among the most extensive and best arranged in the State, being fitted with extensive buildings for the use of the State fair. Two miles east of the city is Reed's lake, a charming body of water, on the shores of which the wealthier citizens of Grand Rapids have built numerous summer houses, and which is a favorite resort for all classes. Telegraph, Western Union, Express, American and United States. A. B. Turner, postmaster.

# READ THIS! HEALTH FOR YOU!

What is Wealth, or Fame, or Life—without Health.

# Dr. Aikin's Remedial Institute

FOR THE CURE OF

## Eye, Ear, Throat, Lung, Nervous, Chronic, and Surgical Diseases.

The Doctor's location is most eligible, central, and convenient, at

**57 Monroe St.** Opposite (above) Rathbun House, opposite (below) Aldrich's Bank, and a few doors from the Union Ticket Office, with an entrance at

**91 Ottawa St.** (Hall exteuding through the Block.) ☞ Parlor for Ladies, and separate rooms for the convenience of all different patients. Those from abroad should come at once to the office on arriving in the city, and arrange treatment before other business.

**Office Hours,** from 9.00 A. M. to 4 P. M. Sundays, 10 to 2.

Most families have one or more with life embittered by needless suffering—seldom free from pain, always conscious of diseases or disability. Yet they can be cured by the skilful Specialist.

☞ Established here in extensive practice since 1869 (at St. Louis in '65; San Francisco during '73), enjoying a wide and merited reputation as a most successful Physician, and having thorough qualifications, insight and aptness for the Healing Art, with a complete supply of instruments, appliances, and all the best means and remedies known to the Profession, a constant succession of cures still attends Dr. Aikin's practice, and consequently the number of his patients is ever on the increase.

## DR. AIKIN,

*The well known Specialist, now permanently located in Grand Rapids, Mich. His Improved Remedies and Treatment have made him Celebrated for his Extraordinary Success. All classes of Patients Treated with Equal care and Skill. Hundreds attest the Great Efficacy of the Treatment. Hearing and Sight Restored. Lung, Throat, and other Chronic Diseases cured; and Broken Down constitutions built up and Reinvigorated. Serious, complicated Diseases, that for Many Years Resisted the Treatment of Numerous Physicians, are Speedily cured by Dr. Aikin.*

## A DOCTOR TO HAVE FAITH IN.

A lady writes to Dr. Aikin: "I am so soon and easily well by your treatment that my faith in you is unbounded, and shall recommend you to all my friends as a most reliable physician." "Must have help, or die, or go insane I concluded," writes a man of 26, in poor health for years, who, after a short treatment by Dr. Aikin, further states: "Your remedies are having a remarkable effect. I can sleep better, am gaining flesh, and my health is improving in all respects." DR. AIKIN has given the public sufficient evidence to convince the most skeptical and incredulous that his method of treatment is peculiarly successful in every department of his Great Specialties, especially such cases as have defied the skill of other and justly celebrated physicians; No ONE SHOULD DESPAIR that is afflicted with seemingly incurable disease, but cherish a hope of being relieved of suffering, if not entirely cured, by his experienced skill and care.

## BLINDNESS! DEAFNESS!!

All Diseases and Affections of the Eye and Ear successfully treated by mild remedies. Cross Eyes Straightened. Artificial Eyes inserted that look natural. No pain.

## CATARRH, CONSUMPTION.

Asthma, Bronchitis, and all Throat and Lung Complaints (which, in this country, are the greatest enemies to Health and Life,) when change of climate and all else fails, are cured by Dr. Aikin's Improved Inhaler and Constitutional Restorative Treatment.

## LINGERING OR CHRONIC, AND SURGICAL DISEASES.

Scrofula, Rheumatism, Dyspepsia, Piles, Goitre, Dropsy, Gravel, Constipation, Tape-Worm, Liver Diseases, Cancers, Tumors, Fistula, Hare Lip, Club-Foot, etc., remedied by the most approved methods.

**St-Stuttering,** Stammering, and Impediments in speech that daily and hourly vex and mortify, and practical method—the cause removed, and cure permanent and positive.

**LADIES,** Married or single, confidently consult the Doctor on any delicate derangement of health, as he is doubtless the most skilful Ladies' Physician in the World. Do not suffer from Pain, Weakness, Whites, Ulceration, Suppression, or other diseases, and drag out a miserable life when you can be certain of easy, safe, and speedy cure in any case by applying to DR. AIKIN.

Stirpiculture—few, healthy children, or none. Trusses, Supporters, Preventatives, Syringes, etc., supplied.

**EPILEPSY.** Palsy, Chorea or St. Vitus Dance, Neuralgia, etc., cured where other means fail.

## GENTLEMEN! YOUNG, MIDDLE-AGED & OLD MEN.

Suffering the sad effects on body and mind of Self-Abuse, Excesses, Disease, or Defect, whatever read or doctored in vain, let not despair or false modesty be your ruin, but call, or send at once. ☞ The only sure, rational lasting cure for Spermatorrhœa, Seminal Weakness, Nervous Debility, Impotence, etc. No quackery or deception. Friendly advice and reliable aid. It is well known that Dr. A. always effects a cure. His treatment includes ALL—you need never look elsewhere. Those about to marry should not fail to consult him.

SURE, quickest and mild remedies for all private diseases or old symptoms. Gleet, Syphilis, Strictures, Defects, Phimosis, Hydrocele, Varicocele, etc., radically cured. No mercury used. Private Rooms. No "getting prescriptions." Travelers promptly supplied. While many innocent victims suffer the terrible effects of certain diseases neglected or badly treated by physicians in general (they should not be intrusted with these cases,) it is right and proper to use plain terms that the indiscrete or unfortunate may know where to get help, and no offense can be taken by pure minded persons—See Titus I-15.

## CONFIDENTIAL.

Every patient (either sex) may freely state all particulars of their case to Dr. Aikin, either in person or by letter, reposing to his trust any delicate personal, or family matter, and can always rely upon the strictest confidence and secrecy. ☞ *DR. AIKIN guarantees better, safer treatment (and for less money) in all Special Cases than can be had elsewhere.* He is easily accessible from all points.

**The Most Difficult Cases Solicited.**—*Consultation Free. Terms Always Reasonable.* Come prepared to arrange needful, thorough treatment. *Satisfaction Guaranteed To All. Medicines Furnished.* Patients, visited, in city, or any distance, in serious cases.

**Life is too Short to be Miserable.**—If YOU have any serious, obstinate disease or annoying symptoms, no matter how discouraged or how often disappointed, stop useless doctoring and delay and apply to the Doctor. Sufferers for years or a lifetime be cured in a few weeks. All the afflicted who come to him will find the aid they seek.

**Cured at Home.**—Persons at a distance may be cured at home by addressing letter to Dr. Aikin, stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, by enclosing $10 in registered letter, P. O. order, or Express.

Call, or address N. J. AIKIN, M. D., 57 Monroe St., Grand Rapids, Mich.

**Remember,** DR. AIKIN is the only qualified, experienced, reliable Specialist here; treats his patients honorably, gives the

## GRAND TRUNK JUNCTION.

(*See Detroit Junction.*)

## GRANDVILLE.

Grandville is a village of 700 inhabitants on Grand River, a few miles below Grand Rapids. It is in Wyoming township, Kent county, and is a station on both the Grand Rapids branch of the C. & M. L. S. R. R. and the Kalamazoo division of the L. S. & M. S. R. R., being in each case 6 miles from Grand Rapids.

(For business directory, see index to places received too late for insertion in proper place.)

## GRANT.

A postoffice in Grattan township, Kent county, near its eastern line. It is 7 miles from Kiddville on the D. L. & N. R. R. 24 east of Grand Rapids and 11 north of Lowell, to which a stage runs tri-weekly, carrying the mail. Wm. C. Slayton, postmaster.

## GRANT.

A village in Newaygo county. (*See Ashland*).

## GRANT HOUSE.

Benzie County. (*See Homestead.*)

## GRASS LAKE.

A prosperous incorporated village of about 700 inhabitants on the M. C. R. R., 65 miles west of Detroit and 10 east of Jackson. It is in Grass Lake township, in the eastern part of Jackson county, in a level country, well settled and improved. Wheat and wool are the staple products of the neighborhood. A large flouring mill has been erected lately and flour, wheat, wool, pork and live stock constitute the leading articles of shipment. Grass Lake has three churches, Methodist, Baptist and Congregational, all handsome buildings. The place was first settled in 1829 and was incorporated as a village in 1871. Express, American. Telegraph, Western Union. L. Dwelle, postmaster.

BUSINESS DIRECTORY.

Cogswell L H, station agent and produce and lumber dealer.
Richardson S, general store.

## GREENVILLE.

A flourishing little city and a manufacturing point of considerable importance on Flat river, in the southeastern part of Montcalm county. It is reached by the D. L. & N. R. R., by which it is 21 miles northwest of Ionia, 55 from Lansing and 141 from Detroit. Stanton, the county seat, is 18 miles northeast. It derives water power from the river, and includes among its manufactories 4 saw mills, 2 flouring mills, 2 machine shops, a woolen mill, 2 sash, door and blind factories, 2 planing mills, a tannery and 4 shingle mills.

The city contains a population of 3,500, and became incorporated in 1870. It has a number of fine business blocks, a National bank, 2 weekly newspapers, 3 commodious school buildings, one of which cost $30,000, 5 churches—Baptist, Catholic, Episcopal, Methodist and Presbyterian. There are lodges of Masons, Odd Fellows, and Knights of Pythias, an efficient fire department and a beautiful cemetery. The city is lighted with gas, has an organized fire department with a new engine house, and several handsome brick stores have recently been erected. It is surrounded in part by good farming lands, but lumber, shingles, lath and flour constitute the great bulk of the exports. Telegraph, Atlantic and Pacific. Express, American. Stages run to Langston, Lakeview and Lowell daily. Hiram B. Fargo, postmaster.

## GREENWOOD.

A village of Edwards township, Ogemaw county, 1½ miles from Greenwood station, on the Mackinaw division of the M C R R., and 45½ miles above Wenona. This is a new town in the midst of a pine and hemlock forest, and contains one saw mill, and about 50 people. G. W. Hotchkiss, postmaster.

BUSINESS DIRECTORY.

Hotchkiss & Codding, lumber mnfrs.

## GREENWOOD CENTER.

A postoffice in Greenwood township in the northwest part of St Clair county. It is 12 miles north of Emmet, on the C & L H R R, in a level and heavily timbered country. J. A. Vincent, postmaster.

BUSINESS DIRECTORY.

Adel Charles, general store.
Ransom Rev Phillip (Methodist).

## GREENWOOD FURNACE.

A station on the Marquette, Houghton & Ontonagon R R, 22 miles west of Marquette, and 7 west of Ishpeming. It is in Ely township, Marquette county, in a rough and rocky section of country, growing only root crops. Iron is the only product shipped..

## GREENWOOD STATION.

Oceana county. (*See Malta.*)

## GRINDSTONE CITY.

A settlement of 200 persons in Port Austin township, Huron county, on the shore of lake Huron, 22 miles northeast of Bad Axe, the county seat, and about 90 north of Port Huron. The place settled about 1850, takes its name from extensive quarries of very superior stone for grind and whet stones found here. There are factories of scythe and grind stones and a sawmill in operation here. Grind stones, scythe stones, building stone and cedar posts are shipped. Stages run to Port Huron and Bay City. Telegraph, Western Union. Express, Ryan & Co's. The place has a daily mail. George Robertson, postmaster.

BUSINESS DIRECTORY.

Green James, telegraph operator.
Kay Rev John (Presbyterian).
Kinch Samuel, hotel propr.
Lake Huron Stone Co, grindstone mnfrs and general store.
Worthington & Sons, grindstone mnfrs and general store.

## GROSSE ISLE.

A large island in the Detroit river, 20 miles below Detroit. It is crossed by the Canada Southern R R, and is fast becoming a popular summer resort. A number of merchants and professional gentlemen doing business in Detroit have their residences here. There are three hotels, one Catholic and two Episcopal churches on the island. Grapes and other fruits are extensively grown, and the river on all sides affords excellent fishing grounds. Grain, hay, wood, stone, grapes, apples, pears and white fish are staple articles of shipment. Population, about 700. Telegraph, Western Union. Express, American. Mail daily. A. M. Edwards, postmaster.

BUSINESS DIRECTORY.

Alexander George W, propr Alexander House.

## GROSSE POINT.

A somewhat fashionable suburb of Detroit, situated in the township of Grosse Point, Wayne county, on the shore of lake St Clair, 8 miles northeast of the city. There are perhaps 900 inhabitants in the village, which is somewhat scattered. John B. Gravier, justice of the peace.

## GROSVENOR.

Also known as Blissfield Junction, a postoffice at the crossing of the L S & M S and the Chicago & Canada Southern railways, 1¼ miles of west Blissfield. It is in Palmyra township Lenawee county, 9 miles southeast of Adrian. Its only importance is as a place of transfer between the two railroads. Mail daily. George Sparrow, postmaster.

BUSINESS DIRECTORY.

Carpenter Albert, railroad agent.
Harrison Alfred, baggage man.
Smith Miss Frank, teacher.
Sparrow Geo, express agent and restaurant.
Willetts Isaac, hotel.

## GROUT.

A postoffice in Grout township, Gladwin county, 3 miles from Gladwin, the county seat, 15 northeast of Loomis station on the F & P M Ry and 160 northwest of Detroit. First settled 1863. Population of township 180. Mail once a week. W. Grout, postmaster.

BUSINESS DIRECTORY.

Grout, Sackett & Co, lumber mnfrs.
Rockwell E A, physician.

## GROVELAND.

A postoffice of Groveland township, Oakland county, 20 miles northwest of Pontiac and 47 from Detroit. Holly, on the D & M R R, 6 miles southwest, is its shipping station. It has a tri-weekly mail. Ira H. Marsh, postmaster.

## GULL LAKE.

A postoffice and village in Prairieville township, in the southwest corner of Barry county, 14 miles northwest of Kalamazoo, its railroad point and 22 from Hastings the seat of justice. It is in a fine, gently undulating country with a productive soil. Wheat is the great staple crop. A flouring mill, a steam saw mill and a cider mill comprise the manufacturing interests. Stage to Kalamazoo tri-weekly. Mail daily. George Thomas, postmaster.

BUSINESS DIRECTORY.

Geiger Peter, wagonmaker.
Haak James, miller.
Hamlin F A, general store and harness-maker.
Hamlin Mrs F A, dressmaker.
Hass Benjamin, carpenter.
McAllister H, saw and cider mills.
Roach Thaddeus, mason.

Porter W W, express and station agent.

WE IMPORT ALL OUR OWN GOODS.
SOL. S. BATESON & BRO., Merchant Tailors, Detroit

## HANCOCK.

This large and flourishing village is situated on the northern shore of Portage lake, in the northern part of Houghton county. It is directly opposite, and 1 mile south from Houghton, the county seat, with which it is connected by steam ferry.

Hancock was platted in 1858, since which its growth and prosperity has been steady and rapid. It is the location of the famous Quincy Copper mine, one of the most prosperous in the Upper Peninsula, it being second only to the wonderful Calumet and Hecla. The Franklin and the Pewabic, operated under one management as the Franklin-Pewabic mine, are within the village limits. The amount of capital invested in these mines, with the dividends paid and the products for 1875 have been as follows:

| | Capital invested. | Total dividends paid. | Product for 1875. |
|---|---|---|---|
| Quincy | $200,000 | $1,990,000 | 1,763¾ tons |
| Franklin | 380,000 | 240,000 | 745¼ " |
| Pewabic | 240,000 | 400,000 | 398 " |

Like Houghton, Hancock is situated on a side hill which rises to a height of 500 feet above the lake. It contains the extensive stamping mills of the Quincy mine, and 4 other stamp mills belonging to different mines in the vicinity, one large foundry and machine shop, copper smelting works, 2 steam saw mills and 4 churches, Congregational, Methodist, Catholic and Lutheran, and a large graded school.

Hancock is the southern terminus of the Mineral Range railway, a narrow or 3 foot guage road, 12½ miles in length extending to Calumet, and a road, which for its financial success, has hardly been equaled by any railroad in the country.

Hancock contains a population of about 3,000. It is 36 miles northwest of L'Anse, the terminus of the M. H. & O. R. R., and about 100 from Marquette. Mail daily. Telegraph, Northwestern. Express, American. Thomas. N. Lee, postmaster.

## HASTINGS.

A thrifty little city of nearly 3000 inhabitants, is the county seat of Barry county. It is located on the Thornapple river, in Hastings township, a little north of the geographical center of the county, and is reached by the G. R. division of the M. C. R. R. It is 32 miles southeast of Grand Rapids, 62 northwest of Jackson, 40 southwest of Lansing and 138 west of Detroit. The place was settled in 1837, and was named in honor of E. P. Hastings, Esq., formerly a well-known citizen of Detroit. The railroad was opened to it in February 22, 1869, since which its growth has been very rapid. It has fine water power on Thornapple river and Fall creek, and numbers among its manufacturing interests several saw and flouring mills, a foundry and machine shop, an agricultural implement factory, a sash, door and blind factory, etc. The surrounding country consists of oak openings and timbered lands. Grain and potatoes are the leading agricultural products, and wheat, potatoes, pork, poultry, cattle, etc., the chief items of shipment. Hastings is handsomely laid out and well supplied with churches, schools, etc. Two weekly newspapers, the *Banner* (Republican) and the *Home Journal* (Independent) are published here. Express, American. Telegraph, Western Union. John Roberts, postmaster.

## HAVANA.

A station on the G. R. & I. R. R., 146 miles above Grand Rapids. (*See Westwood.*)

## HAZEL GREEN.

Shiawassee County. (*See Henderson.*)

## HAZEL GROVE.

A settlement of about 50 persons in the township of Greenwood, Oceana county, 18 miles west of Newaygo, and 14 east of Whitehall. Holton, 5½ miles south, is its nearest railway station. Hazel creek, a branch of the White river, here affords a splendid water power, a head of 16 feet being attainable, There is an extensive saw and shingle mill here, and lumber, shingles and wheat are shipped. Settled 1868.

## HAZELTON.

A postoffice and hamlet of 70 people, also known as Hazeltonville, in Hazelton township, Shiawassee county, 12 miles northeast of Corunna, the county seat, 12 from Vernon station on the D. & M. R. R. and 75 from Detroit. It has 1 grist mill and 1 saw mill and ships farm products. Stage to Flushing and mail semi-weekly. William Stage, postmaster.

BUSINESS DIRECTORY.

## HERSEY.

The county seat of Osceola county is a prosperous and growing village of 700 inhabitants on the line of the F. & P. M. Ry, in the township of Richmond, in the southwest corner of the county. It is on the Muskegon river, which is here joined by the Hersey. The famous grayling fish are taken in the latter stream. Hersey was first settled in 1867, and incorporated in 1875, it now does a thriving business, particularly in the manufacture and shipment of lumber, there being 7 saw and shingle mills in the immediate vicinity of the village. It has also a large flouring mill, a weekly newspaper, a public

Bush W S, boot and shoe maker.
Daily M, hoop mnfr.
Hilliards Brothers, lumber mnfrs.
Munsell E W, railroad agent.
Woodhams F & J H, general store.

## HILLSDALE.

A thriving city of about 4,500 inhabitants is the county seat of Hillsdale county. It is situated at the junction of the D. H. & S. W. R. R. with the L. S. & M. S. Ry, 91 miles from Detroit, 30 south of Jackson, 65 northwest of Toledo and 178 east of Chicago. The St. Joseph river passes through the city, but as it has its rise only 2 or 3 miles above it affords little or no water power. The country, as the name of the county and town indicate, is pleasingly diversified with hills and dales. The city derives much of its importance from its being the center of one of the best agricultural counties in the state. The wheat trade particularly is very large. The manufacturing interests of the town, which are not extensive, consist of 2 flouring mills, 2 foundries, 2 sash and blind factories, an extension table factory and an edge tool factory.

The city schools are first-class, consisting of a good Union and four ward schools.

One of the chief interests of the town is the Free Will Baptist college located here, and known as Hillsdale College. This institution, the only one this society has, was originally located at Spring Arbor, eight miles southwest of Jackson, but was subsequently removed to this place, where it was formally opened in November, 1855. It is beautifully located on what is now known as College Hill, a tract of 20 acres of land, lying about 100 rods north of the city proper, donated to the society by Mr. Blackmar. The institution is in a flourishing condition, has an efficient faculty, and an attendance of about 400 students.

The churches consist of Methodist, Presbyterian, Catholic, Episcopal, Adventist and Free Will Baptist, the latter being the finest church edifice in town. The Baptists have an organization but no building.

The local press consists of the *Standard*, republican, the *Democrat* and the *Weekly Business*, independent, all in a prosperous condition. It also has two National banks. Settled 1832. Reached by the railroad, 1843. Incorporated a city, 1869. Detroit & Hillsdale railroad completed, 1871. Stages east to Wheatland, Cambria Mills and Church's Corners daily, and south to Jefferson, Frontier and Ransom semi-weekly. Express, American and United States. Telegraph, Western Union and Atlantic & Pacific. Eli Van Valkenburg, postmaster.
